

Welcome to the Spotlight on the Regional Growth Forecast!

Friday, August 1, 2014

Houston-Galveston Area Council

H-GAC serves:

- 13 counties
- 105 cities
- MPO for **8-county metro area**

Metropolitan Planning Organization (MPO) Responsibilities

- Develop Long Range Transportation Plan
- Support On-going Transportation Planning
- Approve short range state/federal project funding

Transportation Funding to the Region

- State/Federal
 - decennial census population
 - system size and condition
 - traffic volumes, transit ridership
 - air quality
 - Federal/State discretionary funds

Transportation Funding for Projects

- Goals in Regional Transportation Plan
- Evaluation measures
 - Safety
 - Mobility
 - Asset condition and service level
 - Economic impact

Role of Regional Economic and Demographic Forecast

- Understand Present and Future Travel
- Identify Impact/Benefits of Transportation Investments
- Informs Local Decisions
 - Transportation Priorities
 - Locally funded investments
 - Regional investments - Transportation Policy Council

Role of Demographic/Economic Forecasting

- **NOT** used to divide funding by political jurisdiction
- Is a transportation planning tool
 - Development “scenarios”
 - Target most robust transportation investment
 - Linked to other transportation models

on the

**REGIONAL
GROWTH
FORECAST**

Friday, August 1, 2014

Houston-Galveston Area Council

Two Distinct Questions

1. How many people and jobs will be in our region 30 years from now?
 - Demographic and Employment Forecast
2. Where within the region will the people live and work?
 - Land Use Forecast

Part I: Demographic Forecast

Annual Population

Annual Population

Sources of Population Change

GAIN	LOSS
Births	Deaths
In-Migration	Out-Migration

- Stable trends in fertility and survival
- “Vital Statistics”

Probability of Giving Birth (in 2010)

Annual Number of Births

Annual Number of Deaths

Migration

- More complicated:
 - cumulative
 - entirely social (no biological component)
 - can fluctuate
 - family/household is the fundamental unit
- Migration flows:
 - in-migration (+)
 - out-migration (-)
- Net migration: balance

Texas State Data Center Projections

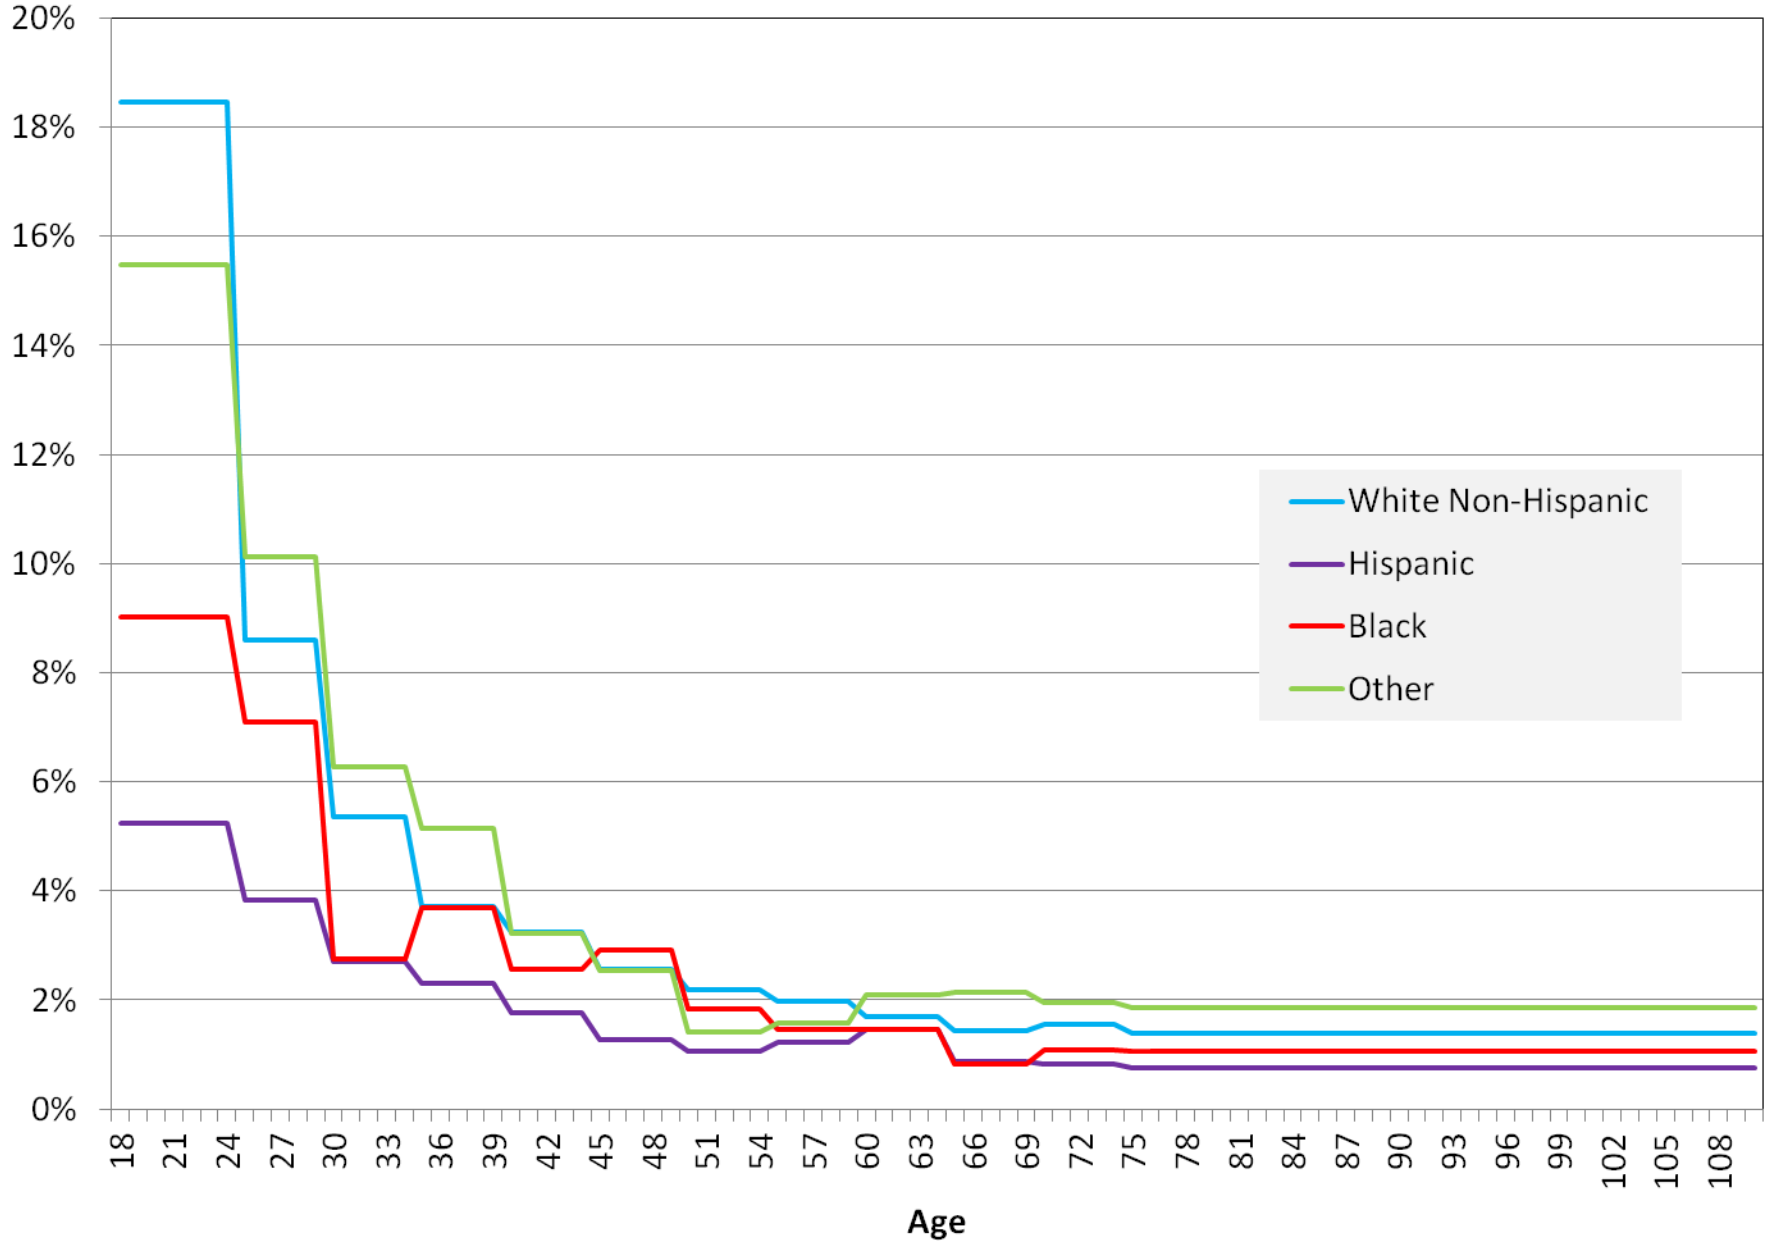

Annual Migration Flows for the H-GAC Region (in thousands)

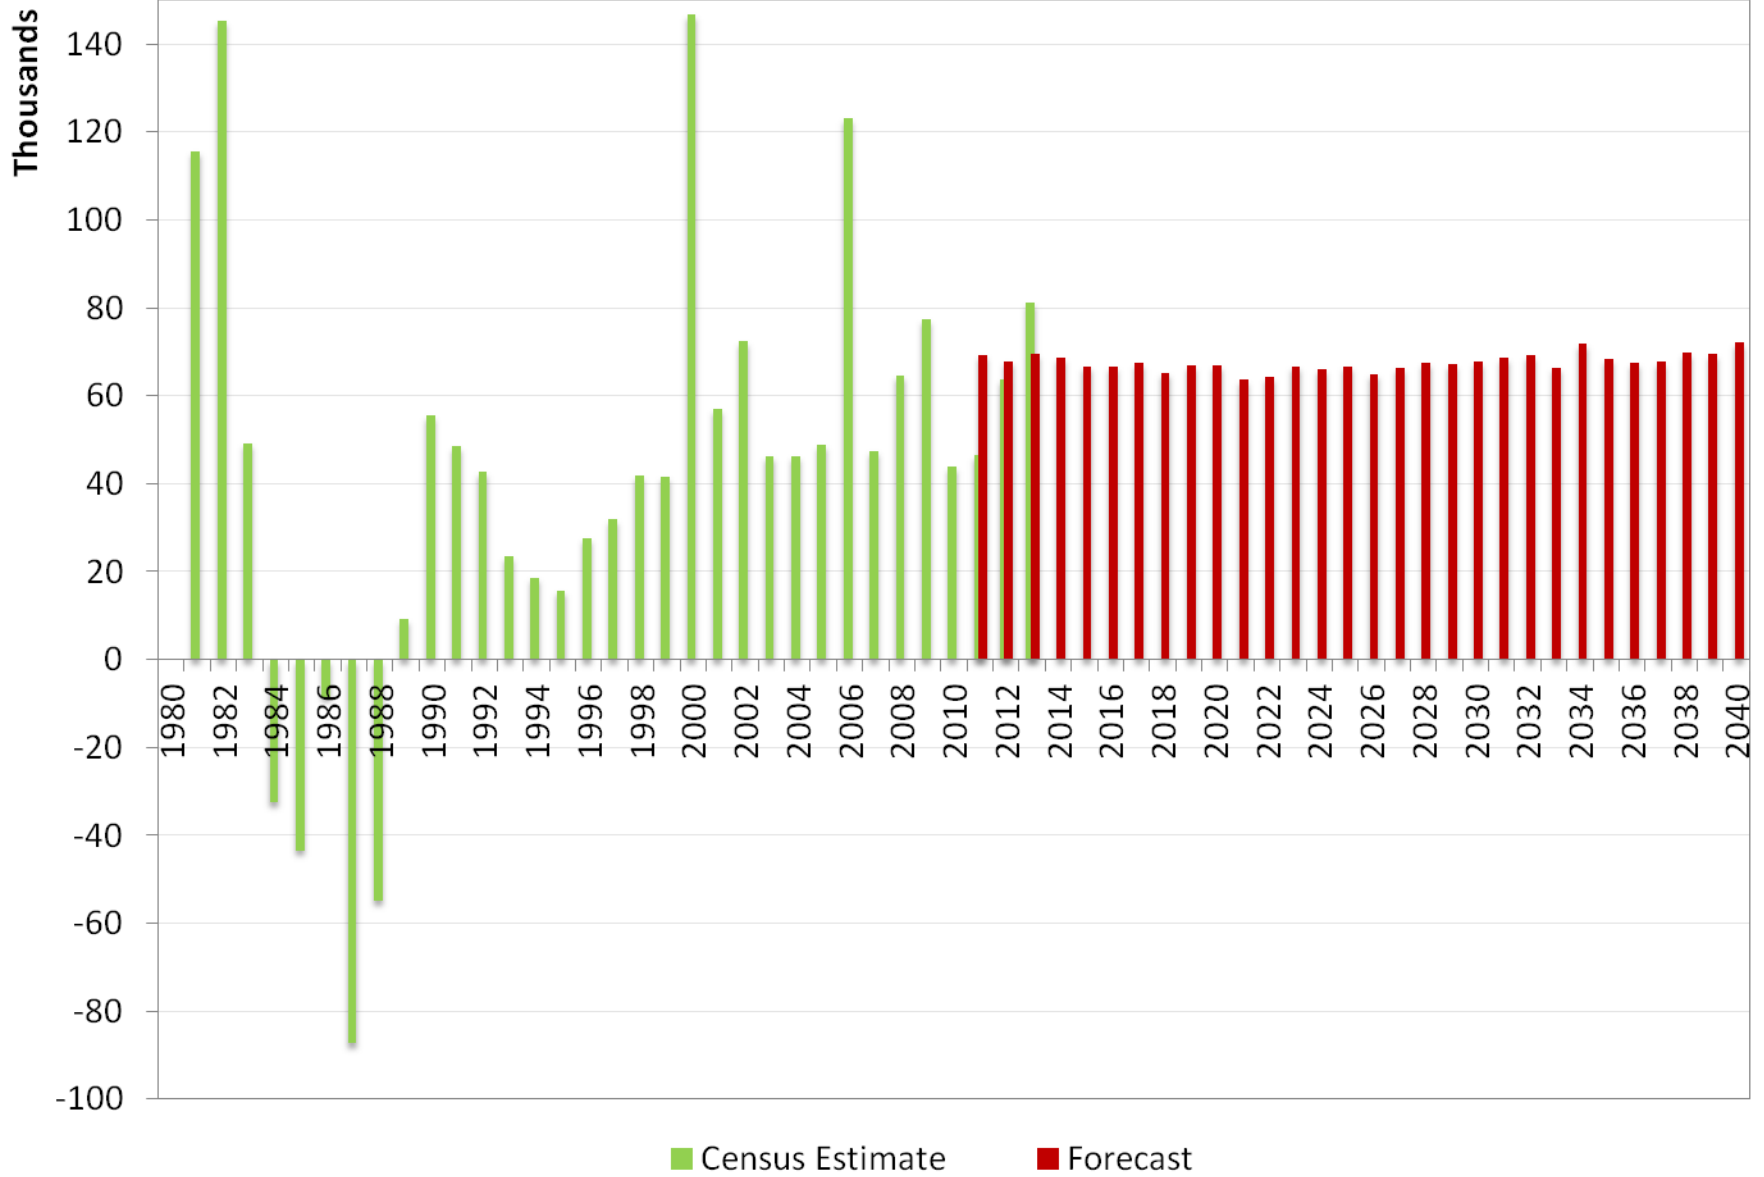

Origin/Destination	IN-Migration	OUT-Migration	Net
Domestic	185	-170	15
Texas (non-H-GAC)	74	-88	-14
US	111	-82	29
International	49	n/a	49
All	234	-170	64

Source: ACS County to County Migration, 2007-2011

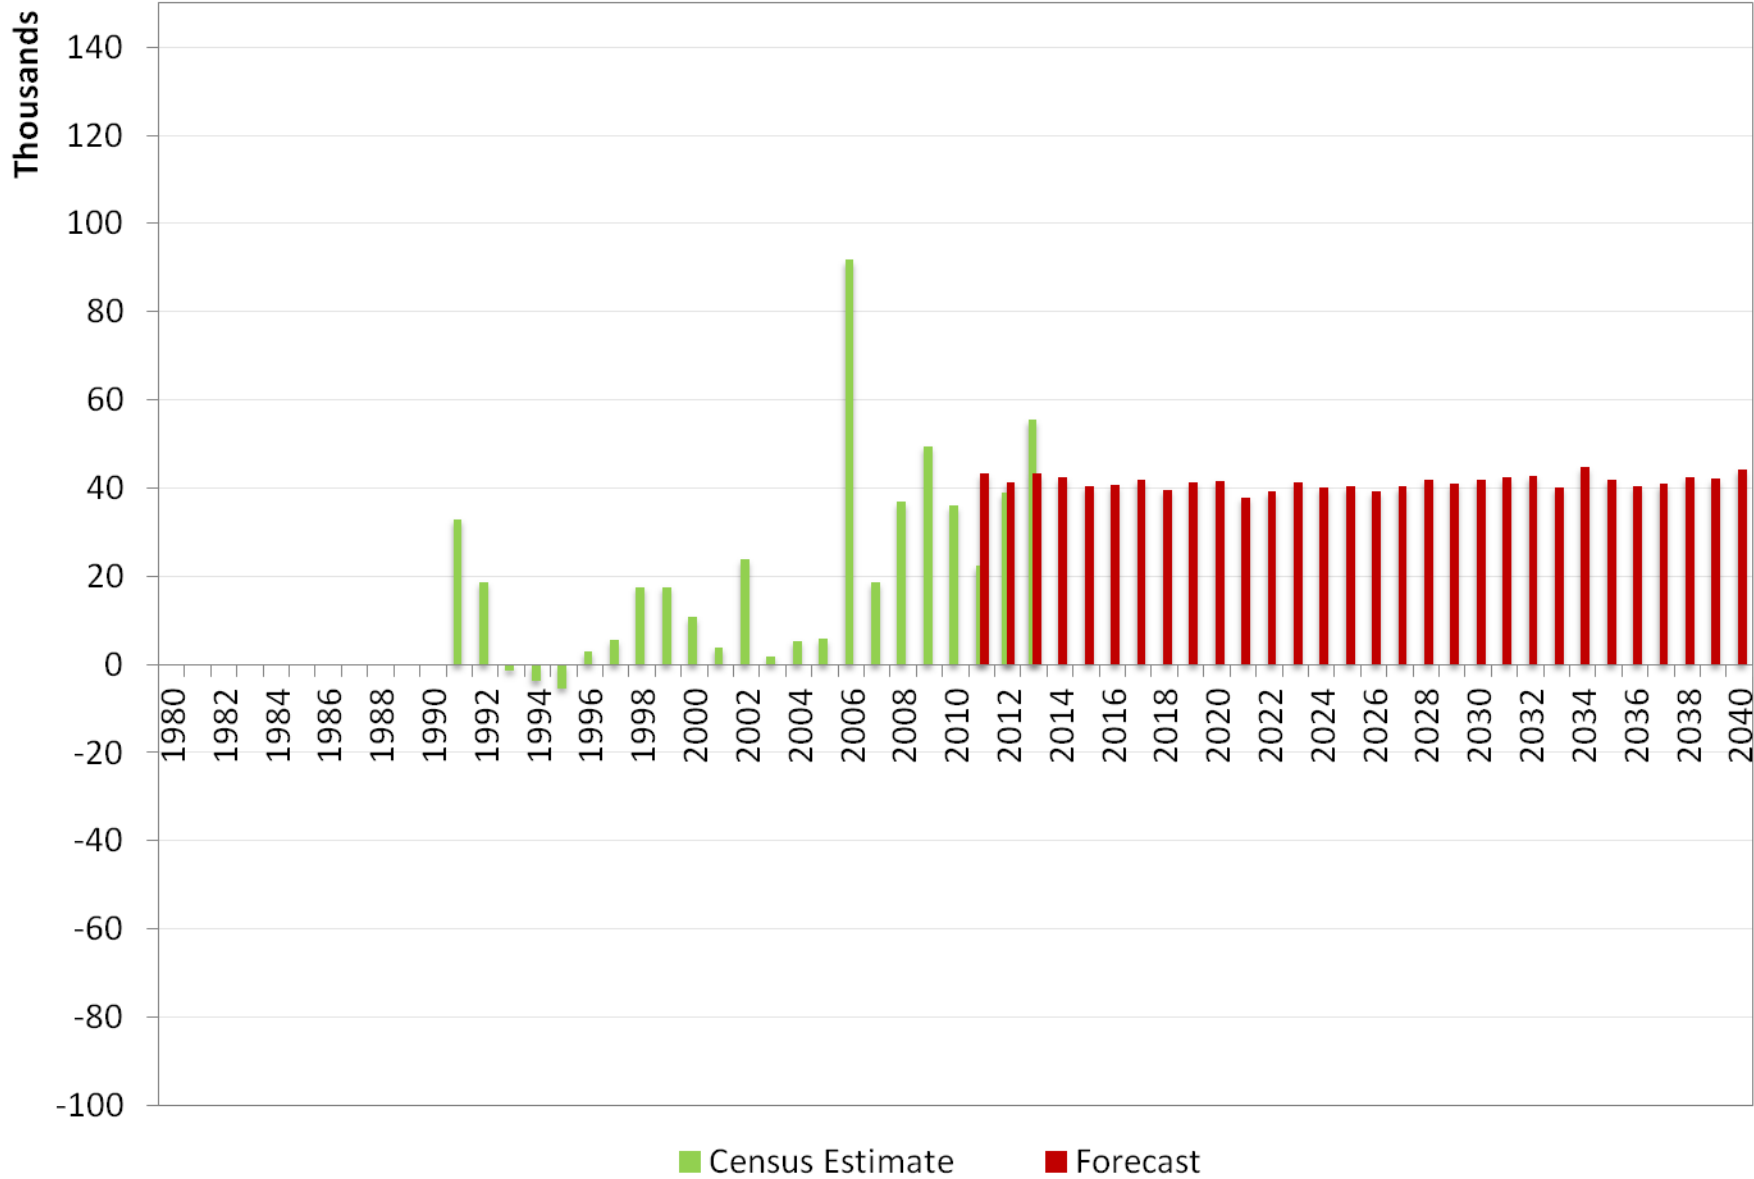

Probability of Domestic In-Migration

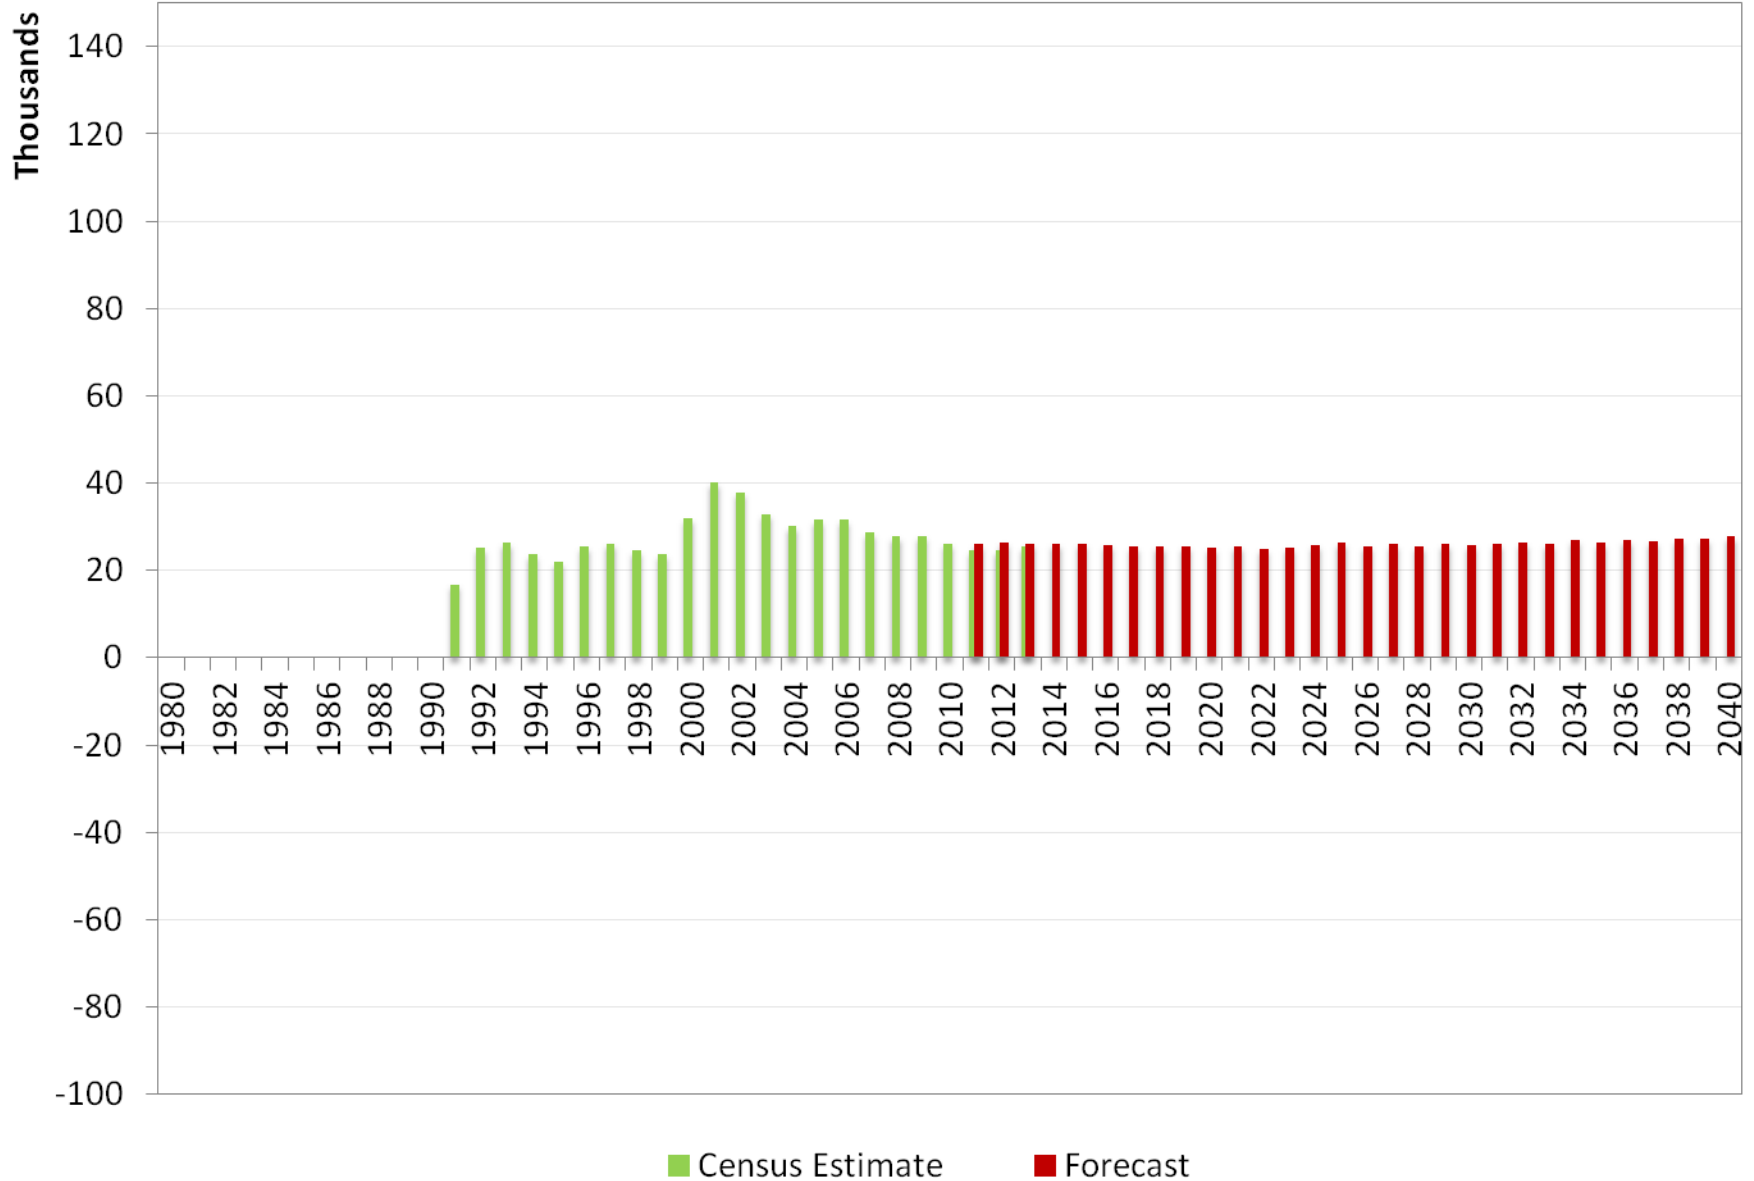

Annual Net Migration

Annual Net Domestic Migration

Annual Net Foreign Migration

Demographic Micro Simulation

- Beyond Cohort-Component
- Computer micro simulation:
 - Biological events: aging, births, deaths
 - Migration events: moving in, moving out
 - Family events: marriage, divorce, child moving out of parents house
- Advantages
 - Household composition
 - Link to housing

Age Composition of the Population

■ 0 to 17 ■ 18 to 24 ■ 25 to 34 ■ 35 to 44 ■ 45 to 54
■ 55 to 64 ■ 65 to 74 ■ 75 to 84 ■ 85+ - - - Median Age

Households

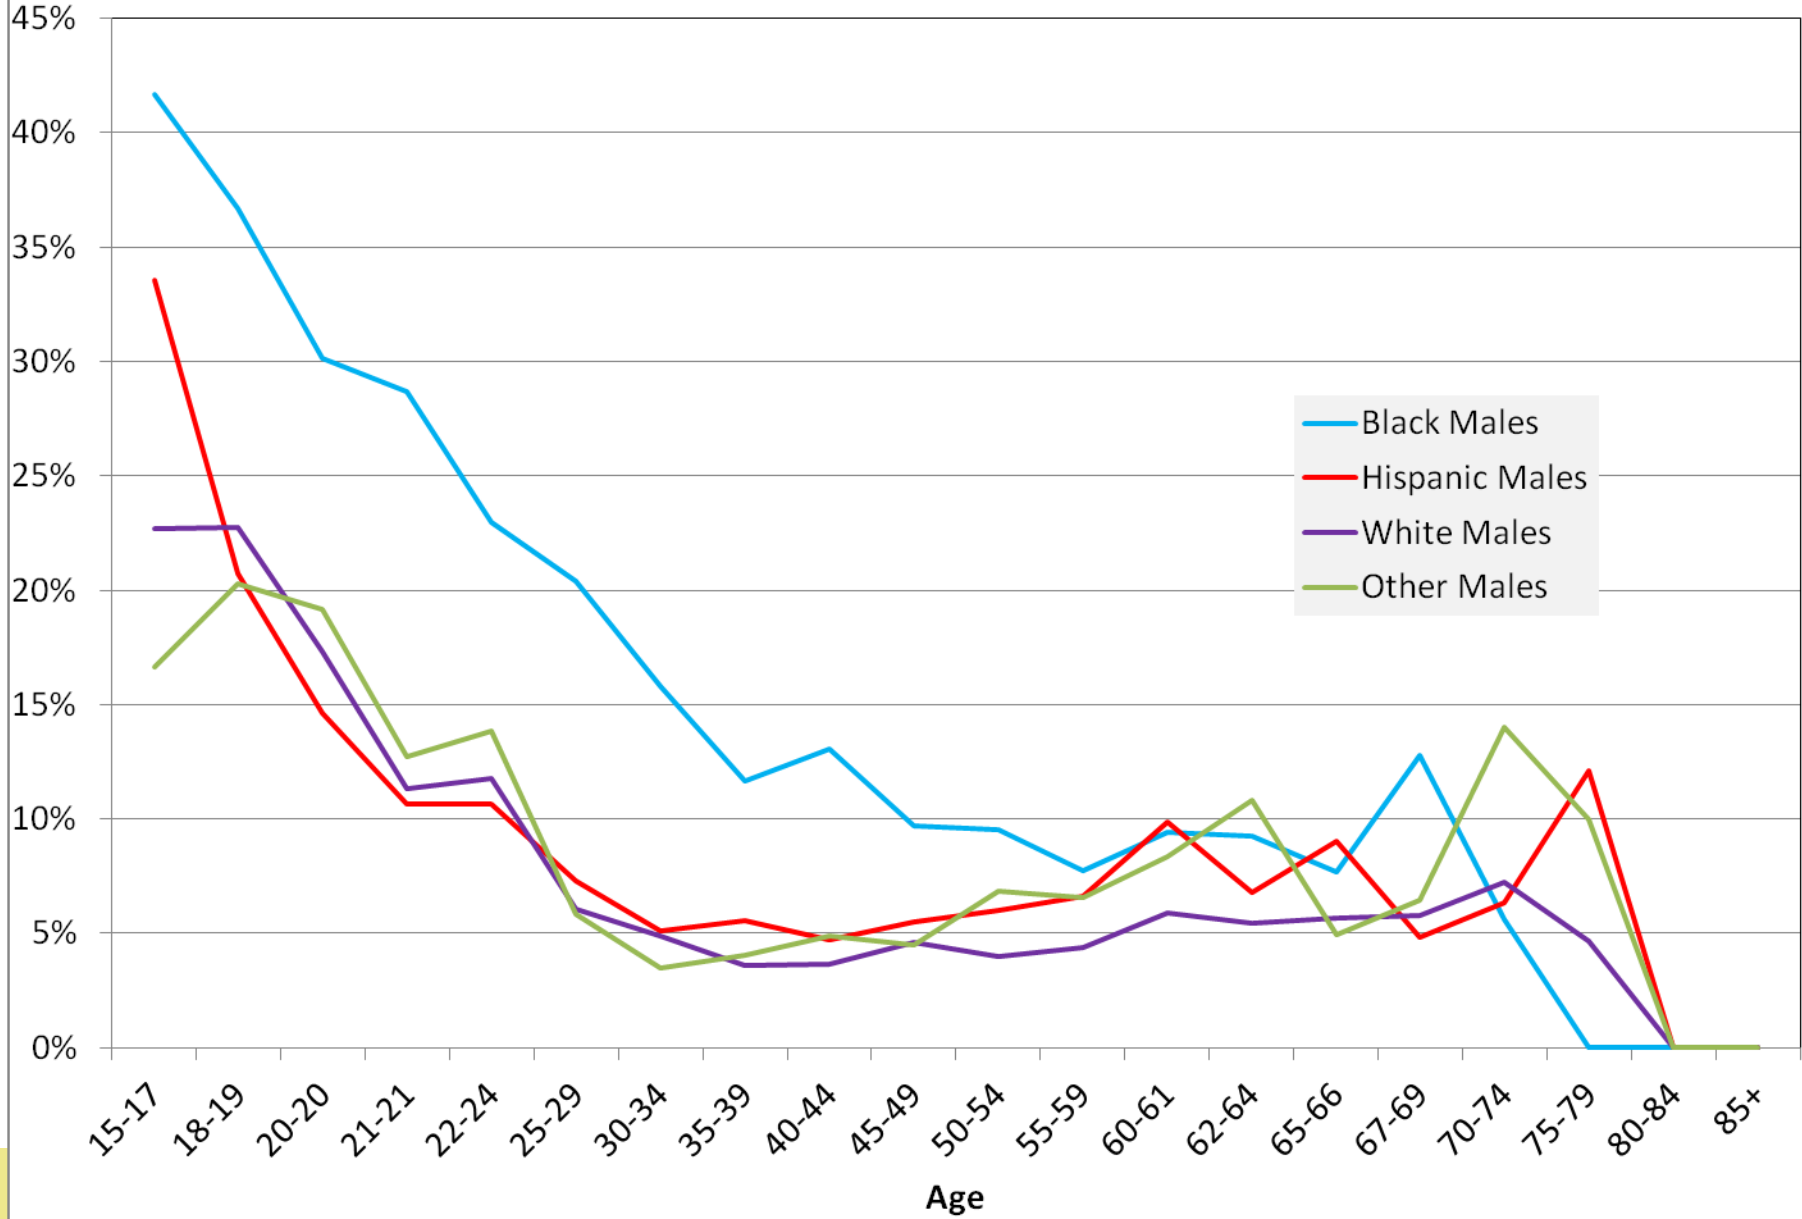

Population and Employment

- Population → Labor Force
 - Labor Force = Employed + Unemployed
- Labor Force Participation Rates
- Unemployment Rate
 - system-wide
 - demographically-specific

Labor Force Participation Rate

Unemployment Rate

Labor Force

Unemployment Rate

Wage & Salary Jobs

Assumptions and Scenarios

Jobs/Population Ratio

Population Forecasts

Wage and Salary Jobs Forecasts

Summary

	Million People	Million Jobs (Wage & Salary)
2010	5.8 (+1.2)	2.5 (+0.3)
2020	7.1 (+1.3)	3.0 (+0.5)
2030	8.3 (+1.2)	3.5 (+0.5)
2040	9.6 (+1.3)	3.9 (+0.4)

Population and Employment Forecast

- Demographic dynamics
- Frequent updates (ACS, BLS, BEA, TWC)
- Population / Workforce balance
- Demand proxies for
 - ***Housing***
 - ***Non-residential space***

2010

Jobs
2040

Part II: Land Use Forecast

What is “Regional Growth”?

- More people, more jobs
- More buildings
- Geography of population and employment
= Geography of buildings
- “Land Use” (small area)
 - Structure: Buildings and Parcels
 - Activity: People and Jobs

New Approaches in Land Use Forecasting

- Real Estate Development
- Computer Simulation
- Disaggregate analysis
 - individual parcels
- “Virtual Experiment”
 - setting initial conditions
 - defining rules
 - observing the outcomes

Components

- Information on land and structures
 - Location, type, valuations (rents), age
- Demand measures
 - What and how much to build?
- Site selection and evaluation
 - Pricing mechanism
 - How profitable a project is going to be?

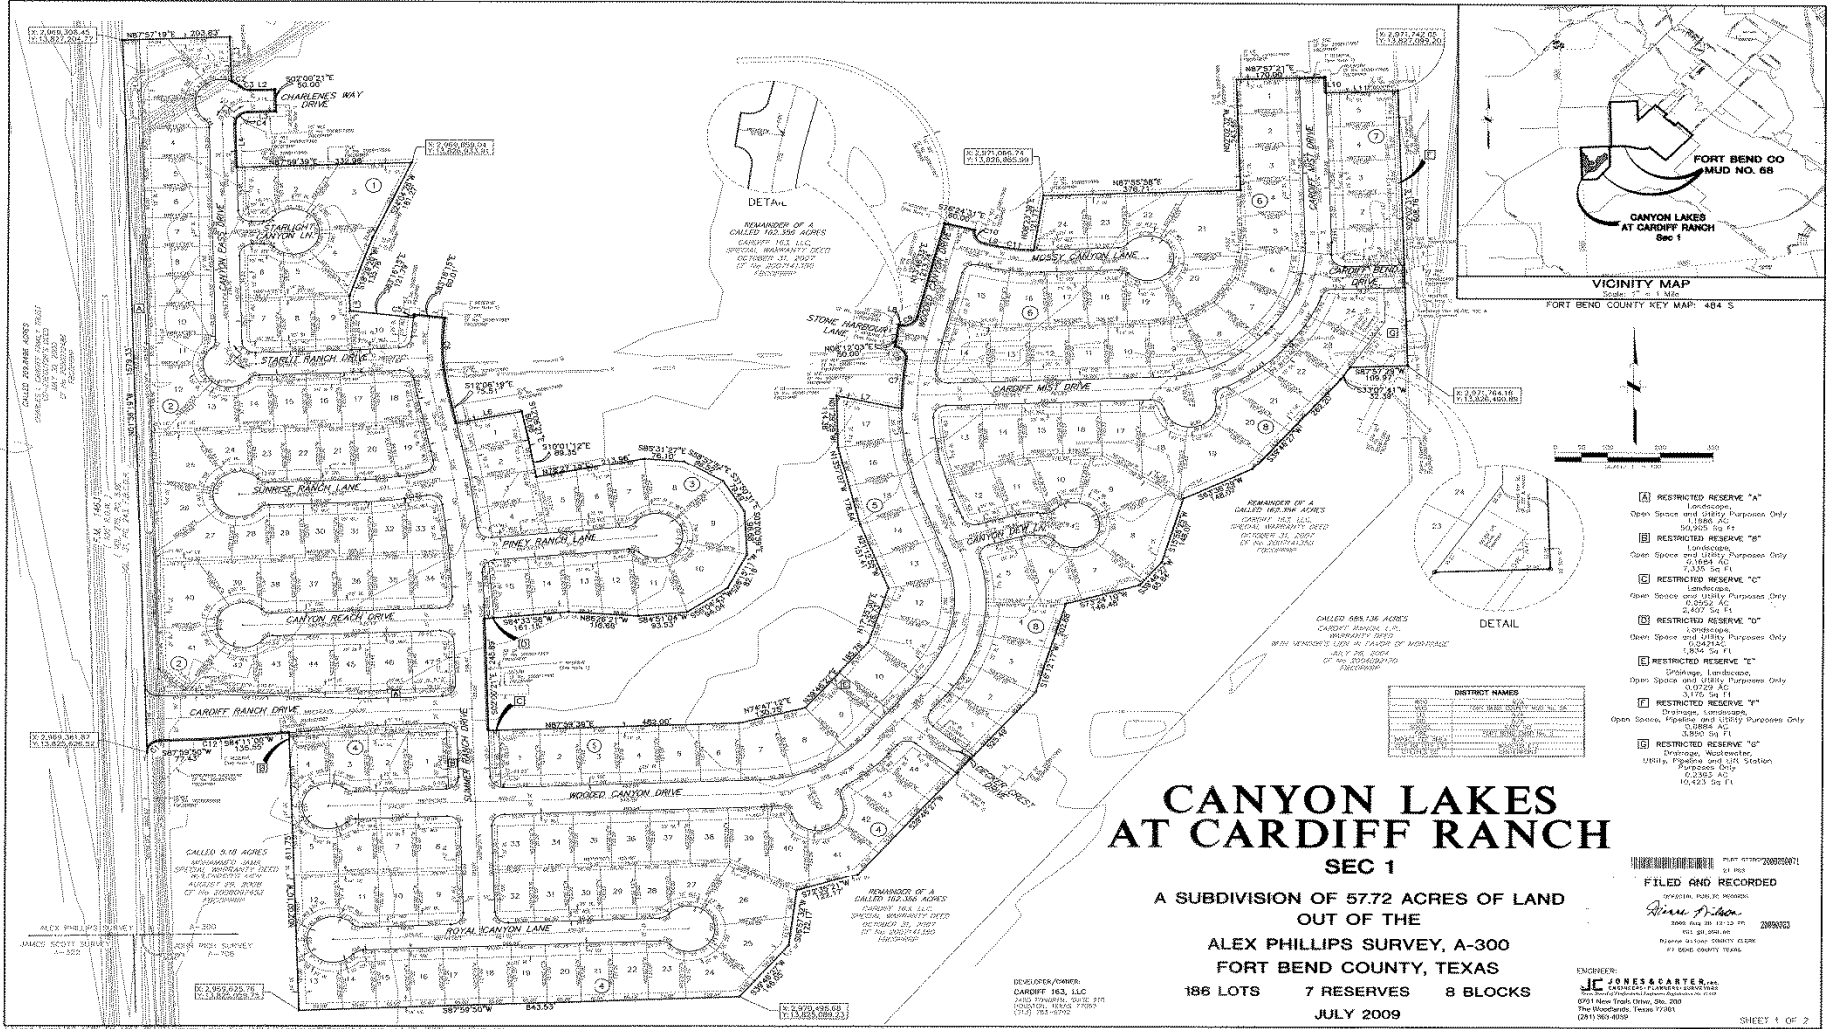

Future Land Use

- Continuity and change
- Path dependence
- Future Land Use
 - Existing Land Use
 - Planned and Announced Development
 - Model Predictions

Planned and Announced Development

Record size residential project set to rise downtown

40-story high-rise to be the giant of rental property near Market Square

By Nancy Sarnoff

July 14, 2014 | Updated: July 15, 2014 9:31am

A developer plans to break ground next month on what will be downtown's tallest residential tower, a project symbolic of this city's healthy economy and downtown's growing emergence as a place to call home.

The Texas-sized tower is set to rise 40 stories and house 463 apartments built to almost-condominium standards, the developers said Monday.

"It's big," said Jack Lee, president of Oakmont Group, the project manager. "It's bigger than any other downtown Houston high-rise rental property we know of."

FMC Technologies breaks ground on campus to consolidate local operations

Olivia Pulsinelli
Web producer-
Houston Business Journal
Email | Twitter | Google+

FMC Technologies Inc. (NYSE: FTI) broke ground on its new campus at Generation Park on May 2.

The Houston-based oil and gas equipment company bought 173 acres at the business park, off the northeast corner of Beltway 8, in late 2012. When it bought the land, the company said it would provide "flexibility and options as it assesses its future needs in the Houston area."

SIENNA SOUTH | HOMES FROM \$200s-\$1 MILLIONS

The map shows the Sienna South area, which is highlighted in yellow. It is bounded by Sienna Ranch Road to the north and McKeever Rd. to the east. To the west is Sienna Plantation, and to the south is Sienna Point. A legend indicates that solid lines represent existing roads and dashed lines represent planned roads. The map also shows Highway 6 and Highway 521.

Map not to scale
Source: Hillwood Communities

Sienna South

Area: 3,700 acres

Homes: 6,500

Aggregate Home

Sales: \$2.1 billion

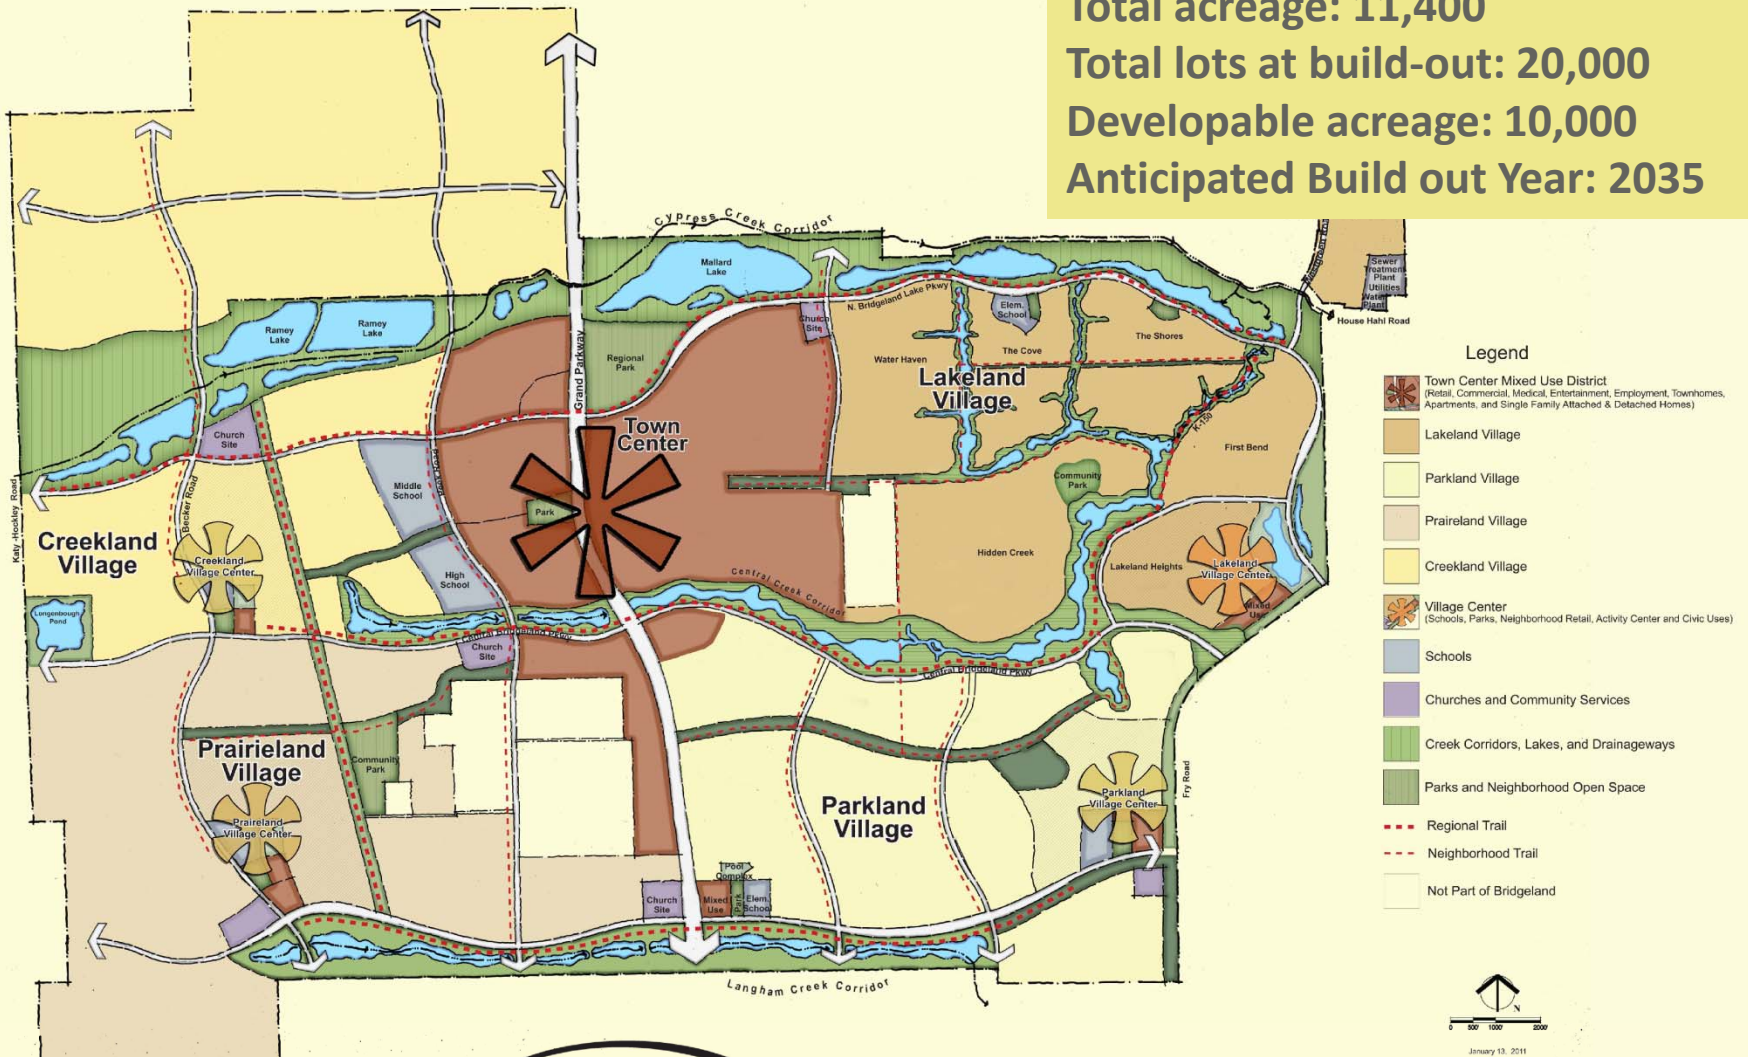

Const. Span: 15 Years

In 2013, the final pieces of Sienna Plantation began to fall into place with the opening of its newest communities off Sienna Ranch Road featuring 16 model homes. As the master-planned community nears build-out, Hillwood Communities sold 3,700 acres of a new section—Sienna South—to national luxury home builder Toll Brothers for residential development.

"With Houston's well-publicized shortage of available home sites in premier master-planned communities, we believe the project's timing, Sienna Plantation's stellar reputation, our experienced management team, excellent location, amenities, and highly rated schools will attract home builders and homebuyers across the price-point spectrum," said Karl Mistry, Houston Division president with Toll Brothers.

Conceptual Plan

Realtors welcome. No warranty or representation of intended use, design, or proposed improvements are made herein. All plans for land or facilities are subject to change without notice. Nothing presented in this plan or any attached documents shall obligate the owner, or any other entity, public or private, to construct facilities or develop land as shown. Homes within the Bridgeland community are constructed and sold by builders not affiliated with General Growth or affiliated companies. General Growth and its affiliated companies do not guarantee or warrant the obligations of, or construction by, such builders, or the availability or pricing of homes. We are pledged to the letter and spirit of U.S. policy for the achievement of Equal Housing Opportunity in which there are no barriers to obtaining housing because of race, color, religion, sex, handicap, familial status, or national origin. 0506
