Texas Emissions Reduction Plan (TERP)

- All TERP grant application periods have closed for Fiscal Year (FY) 2017. The project lists for each program will be posted on the TERP website once all grant awards are finalized through execution of the grant contracts.
- Senate Bill 1731 was signed by the governor. This bill extends the statutory authorization for the TERP programs and establishes several new programs, including an updated Light-Duty Motor Vehicle Purchase or Lease Incentive Program.
- Several programs will require rule and guideline changes before the TCEQ can open those programs. Other grant programs may open for applications as early as this fall.
- Information on all of the grant programs and upcoming workshops is available at www.terpgrants.org.

AirCheckTexas Drive a Clean Machine (DACM) Program

The governor vetoed funding for the DACM Program, also known as the Low-Income Vehicle Repair Assistance, Retrofit, and Accelerated Vehicle Retirement Program (LIRAP), and Local Initiative Projects (LIP) Program for FYs 2018 and 2019; however, the DACM Program in the Houston-Galveston-Brazoria area continues to accept applications for vehicle repair and replacement using remaining FYs 2016 and 2017 funding.
