Join us at the next Environmental Roundtable as H-GAC's own Amy Boyers discusses Eco-Logical, a new online planning tool that will be used to identify priority conservation areas for the 8-county Transportation Management Area. Eco-Logical integrates an ecosystem approach with long-range transportation planning.

In addition, Victoria Herrin, Trails Coordinator of [Houston Wilderness](#), will provide an update on her organization's efforts to protect, preserve, and promote the biodiversity and ecological capital of our region. Houston Wilderness acts as a coordinator and facilitator of various conservation efforts and trail projects which makes our region's environmental treasures easier for people of all backgrounds and ages to find and explore.

The quarterly Environmental Awareness Roundtable is designed to facilitate idea-sharing between city staff, county staff, and community organizations to create effective environmental awareness campaigns.

There is **NO COST** to attend this roundtable. **Please RSVP by April 8, 2010.**
