Volunteers are a vital part of many environmental programs. Join us at the next Environmental Awareness Roundtable as volunteer experts Teri MacArthur with Texas Master Naturalists and Jamie Ford with the Student Conservation Association discuss the do's and don'ts of dealing with this valuable resource. They will share their experience and insight on such topics as managing volunteer workflow, keeping volunteers motivated, covering your legal bases, and getting the most from your volunteer team. Both work with organizations that provide thousands of volunteer hours to the environmental community and can give you insight on how you can recruit talent from their rich pools of motivated and knowledgeable individuals.

The quarterly Environmental Awareness Roundtable is designed to facilitate idea-sharing between city staff, county staff, and community organizations to create effective environmental awareness campaigns.

There is NO COST to attend this roundtable. **Please RSVP by May 25, 2009.**
