

## Meeting Notes Bastrop Bayou 10/23:

1. Timeline of project
  2. Goals of Project
  3. Results of Risk Assessment
  4. Current water quality monitoring – Data presentation
  5. Recruit steering cmt. members
- 
- Would like to have flow monitoring for the bayou
  - Land owner / cattle ranchers need representation
  - "The Facts" (newspaper) is the most suitable for press releases etc.
  - Great description presented on the changing nature of the bayou
  - E-mail most effective way to reach populace
  - Library great place to distribute information
  - Wish to have regular meetings for information
  - Great interest in A&M Co-op programs
  - Involvement of chamber-of-commerce or corporations (LNG, Dow) is very important
  - Two community leaders died last year, will be hard to replace
  - Need mechanism to address septic systems
