Houston-Galveston Area Council

June 9, 2014

The Honorable Darrell Morrison and Members of the Board of Directors Houston-Galveston Area Council Houston, TX

Dear Councilman Morrison and Members of the Board of Directors:

The Comprehensive Annual Financial Report (CAFR) of the Houston-Galveston Area Council, (the "Council" or "H-GAC") for the fiscal year ended December 31, 2013 is hereby submitted. This report was prepared by the Department of Finance, which accepts responsibility for the accuracy, completeness, and fairness of the data presented. We believe the data, as presented, is accurate in all material respects, that it properly reflects the financial position and the results of operation of the Council, and that all disclosures have been made to enable the reader to acquire the maximum understanding of financial affairs concerning the Council. These financial statements are presented annually in compliance with the Office of Management and Budget's Circular A-133, the Single Audit Act of 1984, as amended and Article X, Section 2, of the Council's Bylaws.

WhitleyPenn Certified Public Accountants, have issued an unmodified opinion, sometimes referred to as a "clean" opinion on the H-GAC financial statements included herein. This report is located on page 13 at the front of the financial section of the report.

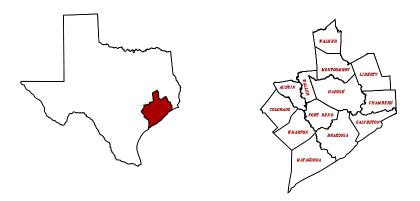

The Council has prepared Management's discussion and analysis (MD&A) which immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. This MD&A is intended to complement this letter of transmittal and should be read in conjunction with it.

Profile of the Houston-Galveston Area Council

On September 9, 1966, a regional planning commission known as the Houston-Galveston Area Council was created under authority of State Law now recodified as Local Government Code, Chapter 391. The Council is a voluntary membership organization of local governments in a thirteen county region of Southeast Texas. The organization is one of 24 regional councils in Texas. Local governments created H-GAC to develop a systematic method of evaluating and addressing common concerns that affect several governmental jurisdictions. Cooperative efforts to resolve regional issues such as employment, water and air pollution, crime, traffic and mobility, drainage and flooding, care of the elderly, and waste disposal have received collective action through H-GAC. The Council continues to be dedicated to improving the quality of life of the citizens of the

region through cooperative efforts to enhance the physical, social, and economic environment.

H-GAC is governed by a General Assembly of 132 delegates from member local governments. A Board of Directors composed of 35 locally elected officials, members representing county governments, cities, school districts and soil and water conservation districts provides more specific guidance and policy-making through its regular monthly meetings. During 2012, H-GAC's membership was comprised of the 13 county governments, 105 cities, and 14 school districts, including all major general-purpose local governments in the region. According to 2010 estimates from the U.S. Bureau of Census, these member governments represented approximately 6.1 million citizens and covered an area of 12,500 square miles. Below is a graphic representation of the H-GAC region and its location in the state of Texas.

Economic Condition and Outlook

The lone star state leads the nation in job growth. According to the State of Texas Comptroller, the unemployment rate in Texas has been less than the national average for 88 consecutive months. During 2013 and for the first quarter of 2014, every major economic sector experienced growth including housing, utilities, transportation, and manufacturing. Additionally, Texans are more optimistic about the economy than citizens outside the state. Consumer confidence in the region is 90.2% and has increased 20% in the past year. Nationwide consumer confidence is just 62%

Texas is a wide and diverse state with over 268,000 square miles. With the significant opportunities available in Texas, there has been a dramatic increase in population in the state. While all of this growth is praise-worthy, the challenges of rapid growth will require careful planning and strategic management to assure that the quality of life is preserved. According to the Texas AgriLife Extension Service, water demand in Texas is projected to increase 22% between 2010 and 2060. Protecting and conserving the water supply for the state is vital to it's economic life. Since 2011, the state has regions that have experienced significant losses due to draught conditions. Some regions of the state have received less that 5" of rainfall in the last two years. According to the State Comptroller, planning for and managing our water use is perhaps the most important issue facing Texas policy makers in the 21st century. Many of the state's industries are largely dependent on the abundant supply of affordable water. For example the introduction of oil extraction using fracking requires substantial supplies of water. Agricultural needs such as cotton also depend on the availability of water to be sustainable. Failure to protect just these two industries with needed resources and conservation could impact the oil and textile industries world-wide. H-GAC works with the Texas Commission on Environmental Quality to monitor water sources in the region and report on both the quality and quantity of water in the area. These studies help the state formulate plans for conservation and preservation of this precious resource.

Additionally, the population boom strains the state's goods movement and mobility infrastructure. More than 1 million new residents will relocate to the H-GAC region in the next decade and 3.5 million new residents are expected by 2035. The regional transportation improvement plan includes over 900 transportation related projects totaling more than \$9.8 billion which will maintain, enhance, and expand the regional transportation system.

Texas has many challenges but each challenge brings a new opportunity for the state and the region. Texans have a long history of meeting challenges with innovative solutions and the outlook for the state is and it's economy is shining brightly.

Major Initiatives

Air Quality

Environmental concerns are a key focus for the Houston-Galveston region. The state of Texas has designated eight counties in the H-GAC region as deficient in meeting the federal guidelines for air quality. As a result, H-GAC is working with the Texas Commission on Environmental Quality to develop and implement a plan to address emissions that are polluting the air. H-GAC has loaned over \$9 million to drayage truck drivers to repair or replace their heavy emission vehicles with improved technology and cleaner burning engines. Additionally, H-GAC has made significant strides in encouraging carpooling and vanpooling to reduce the number of vehicles on the road during rush hours. These steps and many more are helping to improve the air quality in the region.

Workforce Development

The Gulf Coast Workforce Board's mission is to help employers meet their workforce needs and individuals build careers so both can compete in the global economy. H-GAC is the administrative entity for the Gulf Coast Workforce Board. In that function, H-GAC provides leadership and direction to a network of employment service providers to help the unemployed and underemployed in the region. In 2012, H-GAC provided service for more than 325,000 people in the region to get a job, keep a job, or get a better job.

The four goals identified by the Workforce Board include: 1)More competitive employers. 2)A better educated workforce. 3)More and better jobs and 4)Higher incomes.

Additionally, the Workforce Board has identified key industries that could make positive contributions to meeting the region's goals. They include aerospace, energy, health services and education.

Public Services

The H-GAC region covers more than 12,500 square miles, houses more than 6 million people, hosts two major airports, contains critical industries for national security, and provides leading-edge technology in a multiplicity of industries. The region also contains the fourth largest city in the United States, Houston, and the seventh largest container port in the U.S., the Port of Houston.

In response to this, public officials are critically aware of the security risks that such a dynamic

region represents. Local governments in the region utilize the services of H-GAC to obtain grant funds and provide a forum for an integrated security plan.

Additionally, H-GAC has been providing government-to-government procurement services for over thirty-five years to local governments and non-profits from coast to coast. This program allows members an opportunity to buy from a diverse list of goods and services and remain compliant with rigorous government procurement requirements.

Community and Environmental Planning

H-GAC is primarily a planning organization. This is evident in the increasing commitment to provide services in the region ranging from water quality to economic development. H-GAC completed a multi-year study of the region in response to the projected growth of the communities and the challenges that growth represents. The study was funded by the federal Housing and Urban Development Administration. Goals of the study include identifying people, places, and a prosperity framework that includes housing, transportation, education, and economic development components. The result is a stakeholder driven regional vision that improves the workforce and job growth of the region and promotes federal funds to support the identified initiatives in the study.

Financial Planning and Policies

The Board of Directors approves a government-wide financial plan for revenues and expenditures each year at its December meeting. This plan includes both restricted and unrestricted revenue sources. The restricted revenue sources (contracts and grants) often span more than one fiscal year. Estimates are made by management on the timing of these revenues and are reflected in the appropriate fiscal year financial plan. H-GAC recognizes that the financial plan must be flexible enough to adjust for revenues that do not materialize and capitalize on unforeseen opportunities as they occur. Therefore, throughout the year, the Board of Directors approves amendments to the financial plan when funding changes become known. The financial plan adopted is on a basis consistent with generally accepted accounting principles. Control of the financial plan is maintained at the project level with management authorized to make transfers of budgeted amounts between object class levels within a project as allowed by grantor agencies.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in "Financial Reporting to the Houston-Galveston Area Council for its comprehensive annual financial report (CAFR) for the fiscal year ended December 31, 2012. In order to be awarded a Certificate of Achievement, the government had to publish an easily readable and efficiently organized CAFR that satisfied both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

This report could not have been accomplished without the dedication and efficiency of the Council's Financial, Administrative, and Program management staff. Special acknowledgement should also be given to the Council's auditors, WhitleyPenn whose expertise lent greatly this

report's completion. Finally, we would like to thank the members of the Board of Directors for their interest and support in planning and conducting the financial operations of the Council in a responsible and progressive manner.

Respectfully submitted,

ack Steele

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors Houston-Galveston Area Council

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Houston-Galveston Area Council (the "Council"), as of and for the year ended December 31, 2013, and the related notes to the financial statements, which collectively comprise the Council's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Council's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Council's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Council, as of December 31, 2013, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 17 to 23 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Council's basic financial statements. The introductory and statistical sections, the Supplemental Information as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal and state awards is presented for purposes of additional analysis as required by the Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-profit Organizations and the State of Texas Uniform Grant Management Standards and is also not a required part of the basic financial statements.

The Supplemental Information and the Schedule of Expenditures of Federal and State Awards are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Supplemental Information and the Schedules of Expenditures of Federal and State Awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

To the Board of Directors Houston-Galveston Area Council

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 9, 2014 on our consideration of the Council's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Council's internal control over financial reporting and compliance.

Management's Discussion and Analysis

The following is a narrative overview and analysis of the financial activities of the Houston-Galveston Area Council ("H-GAC") for the fiscal year ended December 31, 2013. This analysis is prepared by the Finance department of the H-GAC and is intended to expand the reader's understanding of the attached financial statements and the effect of certain events on those financial statements.

Financial Highlights

- The assets of H-GAC exceed its liabilities by \$24,574,703 all of which is available to meet the Council's ongoing obligations to local governments and creditors.
- H-GAC's net position increased by \$3,384,432 during the fiscal year ended December 31, 2013.
- At the end of the fiscal year, the unrestricted fund balance for the general fund was \$8,062,639.

Overview of the Financial Statements

The H-GAC financial statements include three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also includes additional supplementary information that is not a required part of the financial statements themselves.

Government-wide financial statements. Included in this report are the Statement of Net Position and the Statement of Activities. These statements present the results of operation on a comprehensive basis utilizing the full accrual accounting methodology. This methodology requires that changes in net position be reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in these statements for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the H-GAC that are principally supported by grants (governmental activities) from other functions such as the Cooperative Purchasing, the Energy Purchasing Corporation, and the Local Development Corporation activities that are supported by user fees (business-type activities). The governmental activities include the activities of the general government, general government overhead, and all grant related activities. The business-type activities include the Cooperative Purchasing program. The Energy Purchasing Corporation and the Local Development Corporation are presented as separate component units to the H-GAC because their governing bodies consist of members of H-GAC's Board of Directors or appointed by H-GAC's Board of Directors.

The statement of net position presents information on all of H-GAC's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the H-GAC is improving or deteriorating. The statement of activities presents information showing how the government's net position changed during the most recent fiscal year.

Fund financial statements. A fund is a grouping of related accounts that have been segregated to maintain control over resources and achieve specific objectives. H-GAC uses fund accounting to identify resources that have specific compliance requirements, such as grant programs, and demonstrate adherence to finance-related legal requirements. H-GAC maintains three fund types: 1) governmental funds, 2) proprietary funds, and 3) fiduciary funds.

<u>Governmental Funds</u>. Governmental funds account for the same functions reported as governmental activities in the government-wide financial statements, except that they are presented on the modified accrual basis of accounting which requires that revenues be recorded when measurable and available. Expenditures are recorded when the services or goods are received and the liabilities incurred. Thus, the focus of these statements is on the near-term inflows and outflows of spendable resources and the balances of spendable resources available at the end of the year.

Comparison between the governmental activities in the government-wide financial statements and the information presented in the governmental funds statements allows the reader to better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison.

H-GAC maintains three individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the general fund, the grant fund, and the regional excellence corporation which is a blended component unit of the governmental funds.

H-GAC adopts an annual budget for its general fund and component units in December of each year. Grant fund budgets are reviewed and approved by the Board of Directors within the context of the annual budget. Throughout the year the budget is amended as grant funds become available or lapse. Although the budgets are reviewed and approved by H-GAC's Board, they are not considered legally adopted budgets or appropriations.

<u>Proprietary Funds</u>. H-GAC had only one type of proprietary fund during fiscal year 2013. The Enterprise Fund is used to report the same functions presented as business-type activities in the government-wide financial statements. Unlike governmental funds, enterprise funds are maintained on the full accrual basis of accounting as are the government-wide financial statements, therefore, no reconciliation between the statements is necessary. H-GAC records the activities of its Cooperative Purchasing program in the enterprise fund.

<u>Fiduciary Funds</u>. The pension trust fund for H-GAC is accounted for in the fiduciary fund. This fund, like the proprietary funds, is presented on the full accrual basis of accounting. Fiduciary funds are not presented in the government-wide financial statements as these funds are restricted and are not available to support the programs of H-GAC. The pension plan is audited separately and a copy of this report is available by requesting the same from H-GAC, P.O. Box 22777, Houston, TX 77227-2777.

Notes to the financial statements. The notes to the financial statements are an integral part of understanding both the government-wide financial statements and the fund financial statements.

Government-Wide Financial Analysis

Statement of Net Position

H-GAC's assets exceed liabilities by \$24,574,703 at the close of the most recent fiscal year, 2013. Approximately 3.9% of the Council's net position is capital investments. These capital investments are within the office facilities of H-GAC to provide service and do not represent funds available for future spending. There was restricted net position of \$7,749,761 at the end of the fiscal year. The balance of unrestricted net position in 2013 of \$15,873,251 may be used to meet H-GAC's ongoing obligations.

HOUSTON-GALVESTON AREA COUNCIL CONDENSED STATEMENT OF NET POSITION

Statement of Activities

H-GAC's net position was increased by \$3,384,432 for the year. This reflects an increase in net position for governmental activities of \$2,412,168 and an increase in net position in business-type activities of \$972,264. The increase in net position in governmental activities represents a 11.4% increase of net position for governmental activities and the change in net position in the business-type activities represents a 4.6% increase in net position for this activity. Overall, H-GAC increased net position by 16%. Key elements of the increase along with percentage analysis are as follows:

HOUSTON-GALVESTON AREA COUNCIL CHANGE IN NET POSITION

The H-GAC operates primarily from grant and contract revenues; therefore, increases in expenses closely parallel increases in grant and contract funding for services.

Business-type activities

The Cooperative Purchasing program was established in 1973 to assist local governments in their purchasing and procurement needs. Through aggregation of individual purchases into a single procurement, volume discounts can be achieved.

The program is influenced by market conditions. The Cooperative Purchasing program deals primarily in the acquisition of capital assets. In 2012 and 2013, revenue in this program was \$4,304,114 and \$3,951,174 respectively. During the year, operating expenses for the program increased 20.2% and revenues decreased 8.2%. The combined result was reflected in an increase to net assets of \$972,264 or 12.9%. By comparison, the increase in 2012 was \$1,826,740 or 31.9%.

Financial Analysis of the Government's Funds

As stated previously, H-GAC uses fund accounting to ensure and demonstrate compliance with legal requirements imposed by grantors. The following is a discussion of the funds used at H-GAC and key elements in each fund.

Governmental Funds

Governmental funds are presented on the modified accrual basis of accounting. This measurement focus emphasizes the inflows, outflows and available resources in the near term. This information is desirable in evaluating H-GAC's financing requirements. Specifically, the unreserved fund balance represents H-GAC's available resources at the end of the fiscal year.

H-GAC's fund balance for fiscal year 2013 is \$8,242,054. A reserve of \$179,415 has been established for prepaid items. The balance of \$8,062,639 is available for use at H-GAC's discretion.

The general fund of H-GAC was increased by \$278,051. The general fund is the primary operating fund for H-GAC. The grant fund, used to account for all grant programs and other revenues whose use is restricted for a specific purpose had no fund balance at the end of the year.

Also included in the governmental funds is the Regional Excellence Corporation, a blended component unit of the H-GAC established in 2004 to support programs and initiatives of the organization through private sector contributions. All board members of the Corporation serve in a dual capacity as both a board member of H-GAC and a board member of the corporation. In 2013 the corporation had cash and pledged contributions of \$69,612 and expenditures of \$188,721. The corporation's bylaws restrict the use of these funds.

Proprietary Funds

The proprietary fund of H-GAC is composed of the Cooperative Purchasing enterprise fund. As mentioned previously, the measurement focus for the fund statements is identical to the government-wide statements. It is the policy of H-GAC to associate net position to the activities generating the net position. The remaining net position is available to meet future needs as directed by the Board of Directors.

Capital Asset Administration

H-GAC's investment in capital assets for both governmental and business-type activities amount to \$1,393,503 and \$968,677 (net of depreciation) for the fiscal years ended December 31, 2012 and 2013 respectively. This investment in capital assets includes equipment, furniture, and fixtures. Additional information on H-GAC's capital assets and capital leases can be found in footnote 6 and 8, respectively, of this report. H-GAC does not own any real property.

During 2013, H-GAC acquired a variety of assets. The Council has a capitalization threshold of \$5,000, in accordance with federal requirements. The following table identifies the additions and retirements of depreciable assets for both the governmental and business-type activities. Beginning balances are net of depreciation. The accumulated depreciation column below reflects the net affect of depreciation expense for the year and the recovery of depreciation upon retirement of assets.

	Beginning	Additions	Retirements	Accumulated	Ending
	Balance			Depreciation	Balance
Governmental Activities					
Equipment, furniture and fixtures	\$1,199,307	\$24,341	\$0	\$(477,376)	\$890,139
Business-type Activities					
Equipment, furniture and fixtures	\$194,196	\$0	\$0	\$(115,658)	\$78,538
Total	\$1,393,503	\$24,341	\$0	\$(593,034)	\$968,677

HOUSTON-GALVESTON AREA COUNCIL CAPITAL ASSET ANALYSIS

Debt Administration

Debt considered a liability of governmental activities consists of capital lease obligations and compensated absences. Debt balances related to capital leases in 2013 were \$16,986. Compensated absences decreased by \$12,343 in 2013, finishing the year with an ending balance of \$891,906. Further information on the Council's debt can be found in note 2 to the financial statements.

Economic Factors and Next Year's Budget

- H-GAC membership dues are based on the federal 10-year census and are calculated on population. For FY2014 the per-capita membership revenue is estimated at \$337,000. This is consistent with the budget for 2013.
- H-GAC decreased estimated revenues and corresponding expenses by \$9,691,834 for 2014. The budget reflects decreases in Workforce and Transportation programs of \$7,764,594, \$5,277,403 respectively. Workforce program anticipates a reduction in WIA funds. The decreases in Transportation programs are due to the 1st round completion of Bridge Loan programs funding from U.S. Environmental Protection Agency. The Community & Environmental program and Data Services program are projecting increased funding in 2014. The Community & Environmental program reflects an increase of \$1,804,975 because of the implementation of round 2 of Subregional Disaster Recovery Housing Program. The Data

Service program projects an increase of \$781,324.because of the imagery project that will take place in 2014.

All of these factors were considered in preparing the budget for the 2014 fiscal year.

Requests for Information

This financial report is designed to provide a general overview of the H-GAC's finances for those with an interest in the Council's finances. Questions or comments regarding this report should be directed to Nancy Haussler, Chief Financial Officer, Houston-Galveston Area Council, P.O. Box 22777, Houston, TX 77227-2777.

HOUSTON-GALVESTON AREA COUNCIL Reconciliation of the Statement of Revenues Expenditures, and Changes in Fund Balance of Governmental Funds to the Statement of Activities For the Year Ended December 31, 2013	
Net change in fund balances-total governmental funds	\$ 2,698,222
Amounts reported for governmental activities in the statement of activities are different because:	
Capital outlays are reported as expenditures in governmental funds. However, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:	
Capital outlay	168,208
Depreciation expense Excess of capital outlay over depreciation expense	(477,376) (309,168)
Some items reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. This activity consists of - Decrease in compensated absences	12,343
Principal payment for capital lease in 2013	10,767
The Capital lease is reported as an other financing source in the governmental funds. In the government-wide financial statements, proceeds are treated as an increase in long-term liabilities.	<u>-</u>
Change in net position of governmental activities	\$ 2,412,168

HOUSTON-GALVESTON AREA COUNCIL

NOTES TO FINANCIAL STATEMENTS YEAR ENDED DECEMBER 31, 2013

1. REPORTING ENTITY

The Houston-Galveston Area Council ("H-GAC") is a voluntary association of local governments that administers planning and action programs from various federal, state, and local agencies for the benefit of citizens in a 13-county region in southeast Texas. H-GAC is governed by a 36-member Board of Directors (the "Board") which has governance responsibilities over all activities of the organization. Members of the Board are selected to serve by elected officials from the various governmental entities belonging to H-GAC. The Board has the authority to make decisions and appoint administrators and managers. H-GAC is not included in any other governmental "reporting entity" as defined by the Government of Accounting Standards Board ("GASB") Statement No. 14, "The Financial Reporting Entity." H-GAC is a political subdivision of the State of Texas, created pursuant to state enabling legislation.

H-GAC's financial statements include the accounts of all H-GAC functions and activities, including four component units, the H-GAC Energy Purchasing Corporation, the Houston-Galveston Local Development Corporation, the Gulf Coast Economic Development Corporation and the Corporation for Regional Excellence. Complete financial statements for each of the individual component units may be obtained at H-GAC's administrative offices.

The accompanying financial statements present H-GAC and its component units.

Blended Component Unit: The Corporation for Regional Excellence was established by H-GAC in 2004. The purpose of the organization is to receive contributions that support the programs and services of H-GAC from entities that will only contribute to 501 (C) (3) organizations. All board members of the Corporation serve in a dual capacity as both a board member of H-GAC and a board member of the corporation. The Corporation is reported as a Special Revenue Fund.

Discretely Presented Component Units: The H-GAC Energy Purchasing Corporation's purpose is to serve as a licensed aggregator of electricity for local governments in the state of Texas by negotiating and administering electricity service contracts. Local governments pay an administrative fee to participate in the contracts. The Board of Directors is comprised of elected officials selected by the H-GAC Board of Directors who annually approve its budgets and obligations.

The Houston-Galveston Area Local Development Corporation ("LDC") was established to further economic development and social welfare by promoting and assisting growth and development of business concerns in the region. The Corporation is a certified development company by the U.S. Government Small Business Administration and assists small businesses in securing loans for the purpose of construction, conversion, or expansion, including the acquisition of land, existing buildings and leasehold improvements. The corporation receives a residual fee for its services on all funded loans. The twenty-seven member Board of Directors is comprised of representatives from local government, lending institutions and private business organizations selected by the H-GAC Board of Directors. The Corporation's bylaws further state that all assets of the Corporation revert to the Houston-Galveston Area Council upon dissolution. Additionally, in acknowledgment of the Council's involvement with the Corporation, the Corporation remits a management fee to the Houston-Galveston Area Council.

The H-GAC Gulf Coast Economic Development Corporation ("EDC"), a 501(C)(3)Corporation, was established in 1988 to address the regional needs of distressed economic growth areas. The EDC originally received economic development grants from the Federal Economic Development Administration to promote coordination among local economic development efforts on a region wide basis. The 28 member board is comprised of county government and city government appointees as well as private sector appointees nominated by HGAC. Developing plans that include the key strategies of promoting economic growth, increasing employment opportunities, and developing a regional Comprehensive Economic Development Strategy is the primary mission of the organization. In 2010, the EDC received a revolving loan grant from the EDA to further the economic development of the distressed areas of the region. The Houston-Galveston Area Council has primary responsibility for the Corporation's assets including its cash assets and the use of those assets benefits the constituency that HGAC serves. Additionally, the EDC has signed a management agreement with the HGAC that conveys management of the EDC financial records to HGAC. Finally, the agreement also stipulates that any financial match requirements imposed by the federal grantor will be provided by HGAC.

Since H-GAC receives funding from local, state and federal government sources, it must comply with the requirements of these funding sources.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation: Government-wide and Fund Financial Statements - The government-wide financial statements consist of the statement of net position and the statement of activities. These statements exclude inter-fund activity, and report information on all of the non-fiduciary activities of the primary government. The governmental activities statements segregate from business-type activities. Governmental activities are normally supported by intergovernmental revenues and grants while business-type activities are supported by service fees or sales that are intended to recover all or a significant portion of their costs.

The statement of activities compares the direct expenses of a given function with the corresponding program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods services, or privileges provided by a function or segment and 2) contracts, grants and contributions that are restricted to meeting the operational requirement of a particular function or segment. Items not classified as program revenues are reported as general revenues.

Additional financial statements are presented for governmental, proprietary and fiduciary funds, although fiduciary funds are not included in the government-wide financial statements. These statements are organized on the basis of funds that function as a separate entity with their own self-balancing accounts that comprise their assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. Resources are accounted for in individual funds based upon the purposes for which they are to be spent and the restrictions, if any, on the spending activities.

The H-GAC reports the following major governmental funds:

The *General Fund* is H-GAC's primary operating fund. It accounts for all financial resources of the general government except those required to be accounted for in another fund.

The Grant Fund is a special revenue fund used to account for grant proceeds

provided by various grantor agencies and is restricted in use by the awarding entity.

The *Regional Excellence Corporation* is a blended component unit established to support programs and initiatives of the H-GAC. The Corporation's bylaws restrict the use of these funds.

The H-GAC reports the following major enterprise fund:

The *Cooperative Purchasing* fund is used to account for the administrative fees derived from the assistance provided to other governments in acquiring capital assets and supplies.

Additionally, the H-GAC reports the pension trust fund to account for the Retirement Plan for the Employees of H-GAC.

Basis of Accounting - The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

Under the modified accrual basis of accounting, revenues are recognized as soon as they are both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, H-GAC considers revenues to be available if they are collected within 90 days of the end of the fiscal period. Revenues susceptible to accrual are interest income, membership dues, interlocal contracts, and revenues from grantor agencies. Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred, if measurable. However, expenditures related to compensated

absences are recorded only when payment is due.

The cooperative purchasing enterprise fund and the retirement plan trust fund are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of the funds are included on the balance sheet. The accrual basis of accounting is utilized by these funds. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Net Position Flow Assumptions - Sometimes the Council will fund outlays for a particular purpose from both restricted and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Council's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

Fund Balance Flow Assumptions - When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the Council considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the Council considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

Fund Balance Classification - The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the Council is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

- Nonspendable: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. Nonspendable items are not expected to be converted to cash or are not expected to be converted to cash within the next year. The council did not have nonspendable fund balance.
- Restricted: This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors,

grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

- Committed: This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board of Directors. These amounts cannot be used for any other purpose unless the Board of Directors removes or changes the specified use by taking the same type of action that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The Council did not have any committed fund balance.
- Assigned: This classification includes amounts that are constrained by the Council's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board of Directors. The Council did not have any assigned fund balance.
- Unassigned: This classification includes the residual fund balance for the General Fund. The unassigned classification also includes negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of assigned fund balance amounts.

H-GAC's *major sources of revenues* are discussed below:

<u>Federal and State Contracts</u> - Revenues are recognized when program expenditures are incurred in accordance with program guidelines. Local matching may exceed budgeted amounts. Such excess would be used to further fund the applicable program, but does not represent a budget deviation.

<u>Member Government Dues</u> - Member governments are required to pay dues to H-GAC. Dues are determined annually and are recognized as revenues when assessed because they are measurable and are collectible within the current period. Dues are reported in the general fund and transferred to the special revenue funds as needed to meet matching requirements of grantor contracts.

Locally Contributed In-kind Services - Local contributions, which include contributed services provided by individuals, private organizations and local governments, are used to match federal funding on various programs. Contributed services are, therefore, reflected as both revenues and expenditures in accordance with legal requirements of the individual contracts. Such services are recorded in the accompanying financial statements at the amount expended by the contributor in providing the matching services, which approximates the fair value of the services at the date of contribution.

<u>Pass-Through and Administrative Fees</u> - The cooperative purchasing program, the Energy Purchasing Corporation, and the Local Development Corporation record revenues in the form of pass-through and administrative fees. H-GAC assists other governments primarily in Texas by providing expertise in acquiring capital assets and supplies and by aggregating the needs of several governments into larger purchases, providing negotiating advantages as well as assisting small businesses with financing and improving economic development.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and delivery of goods in connection with the fund's principal operations. The principal operating revenues of the Cooperative Purchasing enterprise fund are charges to customers for sales and services. Operating expenses include the cost of sales and services, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Deferred Outflows/Inflows of Resources - In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

The Council does not have any items that qualify for reporting in either of the above categories in the current fiscal year.

Capital Assets - Capital assets, which include furniture, fixtures, and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Council as

assets with an initial, individual cost of \$5,000, and a life greater than 1 year. Such assets are recorded at historical cost, net of accumulated depreciation.

Depreciation is charged to operations over the estimated useful life (generally five years) using the straight-line method. H-GAC has no public domain assets.

Compensated Absences – It is H-GAC's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the Council does not have a policy to pay any amounts when employees separate from service with the government. All vacation pay up to a maximum of 240 hours is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements. Due to the nature of the obligation for accrued vacation, annual requirements to amortize such obligations are not determinable and have not been presented.

Balance			Balance	Due Within
12/31/2012	<u>Increases</u>	<u>Decreases</u>	<u>12/31/2013</u>	One Year
\$ 904,249	\$ 826,074	\$ 838,417	\$ 891,906	\$ 753,974

Interfund Transfers - Interfund transfers arise from transactions between funds or the distribution of local (general fund) cash resources to grant projects requiring cash match in accordance with the terms and conditions of the grant contract. Matching funds are derived primarily from H-GAC dues paid by member governments and local in-kind contributions. The general fund will be used to liquidate the vacation liabilities.

Allocation of Employee Benefits and Indirect Costs - H-GAC employee benefits and indirect costs are allocated based upon actual expenditures to all grants in accordance with the Office of Management and Budget ("OMB") Circular A-87. Employee benefits are allocated to grant projects as a percentage of H-GAC's labor costs. Indirect costs necessary to sustain overall operations are allocated as a percentage of total direct labor costs and employee benefits charged to grant projects.

Cash and Cash Equivalents - For purposes of the statement of cash flows, cash equivalents include highly liquid investments with an original maturity of ninety days or less.

Investments - Investments are recorded at fair value based upon quoted market prices as of year-end.

H-GAC follows GASB Statement No. 40 *Deposit and Investment Risk Disclosures--an amendment of GASB Statement No. 3.* This Statement addresses common deposit and investment risks related to credit risk, concentration of credit risk, interest rate risk, and foreign currency risk. Such disclosures as required are reflected in Note 3 to the financial statements.

Prepaid Items - Prepaid items are accounted for under the consumption method.

3. DEPOSITS (CASH) AND INVESTMENTS

Authorization for Deposits and Investments

The Texas Public Funds Investment Act (PFIA), as prescribed in Chapter 2256 of the Texas Government Code, regulates deposits and investment transactions of the Council.

In accordance with applicable statutes, the Council has a depository contract with a local bank (depository) providing interest rates to be earned on deposited funds and fixed fees for banking services received. The Council may place funds with the depository in interest and non-interest bearing accounts. Statutes and the depository contract require full security for all funds in the depository institution through federal depository insurance or a combination of federal depository insurance and acceptable collateral securities and/or an acceptable surety bond. The depository must deliver the collateral securities to the Council or place them with an independent trustee institution. In accordance with Texas statutes, the safekeeping receipts are in the name of the depository with proper indication of pledge of the collateral securities by the depository to secure funds of the Council. The Council must approve all collateral securities pledged and also must approve in writing any changes to the pledged collateral securities.

The Council has adopted a written investment policy regarding the investment of its funds as defined by the PFIA. The PFIA also requires the Council to have independent auditors perform test procedures related to investment practices as provided by the Act. The Council complies with the requirements of the Act and with local policies.

The Council's investment policy permits investment of Council funds in only the

following investment types, consistent with the strategies and maturities defined in the policy:

- 1. Obligations of the United States or its agencies and instrumentalities.
- 2. Direct obligations of the State of Texas or its agencies.
- 3. Other obligations, the principal of which are unconditionally guaranteed or insured by the State of Texas or the United States.

4. General obligations of states, agencies, counties, cities and other political subdivisions of any state having been rated as to investment quality by a nationally recognized investment rating firm and having received a rating of not less than A or its equivalent.

5. Certificates of Deposit issued by State and National banks domiciled in the State of Texas the payment of which is insured in full by the Federal Deposit Insurance Corporation.

6. Fully collateralized direct Repurchase Agreements with a defined termination date purchased pursuant to a master contractual agreement which specified the rights and obligations of both parties and which requires that securities involved in the transaction be held in a safekeeping account subject to the control and custody of H-GAC.

7. No Load Money Market Mutual Funds and No Load Mutual Funds. To be an allowable investment, money market funds must adhere to a 90-day weighted average maturity. No-load mutual funds with a weighted average maturity of up to 2 years are allowable if they are registered with the Securities and Exchange Commission, invest exclusively in obligations authorized by the Public Funds Investment Act, adhere to the requirements set forth for investment pools and are continuously rated by at least one nationally recognized investment rating firm at not less than AAA or its equivalent. A government may invest no more than 15% of its operating funds (excluding bond proceeds, reserves and debt service funds) in this type of mutual fund.

8. Time deposits in the Council's depositories.

9. Investment pools created to function as money market funds must mark-to-market daily and maintain a market value ratio between .995 and 1.005. These pools must be continuously rated no lower than AAA, AAA-m or an equivalent rating by at least one nationally recognized rating agency.

Banker's Acceptances 1)270 days or fewer, 2)Liquidated in full at maturity,
 3)Eligible Federal Reserve Bank collateral ,4)U.S. Bank rated not less than A-1 or P-1.

11. Any combination of the foregoing.

Retirement plan funds are invested among a selection of mutual funds at the discretion of each Plan participant.

Deposit and Investment Amounts

The following schedule presents the Council's cash and investments subject to deposit and investment risk disclosures.

	Cash and CDs	Money Market Mutual Funds	Hybrid Debt/Equity Mutual Funds	Total
Governmental Funds:				
General	\$18,560,785	\$ 4,062,807	\$ -	\$ 22,623,592
Grant Fund	2,968,376	-	-	2,968,376
Regional Excellence Corporation	95,444			95,444
Total Governmental Funds	21,624,605	4,062,807		25,687,412
Fiduciary Funds		3,835,608	22,897,624	26,733,232
Discreetly Presented Component Units:				
Energy Purchasing Corporation	32,857			32,857
Gulf Coast Economic Dev Corp	1,458,877			1,458,877
Local Development Corporation	2,957,464			2,957,464
Total Component Units	4,449,198			4,449,198

Credit and Interest Rate Risk

At year-end, the Council had the following investments subject to credit and interest rate

Money Market		Weighted Average	Credit
Mutual Funds	Amount	Maturity (Days)	Rating
General Fund	\$4,062,807	44	Unrated
Fiduciary Fund	3,835,608	53	Unrated

risk disclosure, under U.S. generally accepted accounting principles, by fund:

Custodial Credit Risk

In the case of deposits, this is the risk that in the event of a bank failure, the Council's deposits may not be returned to it. As of December 31, 2013, the Council's deposit balance was fully collateralized with securities held by the pledging financial institution in the Council's name or by FDIC insurance.

4. INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

Many intra-fund transactions take place within the finance department of H-GAC, resulting in monies flowing back and forth between funds. For example, H-GAC matching shares for contracts or grants are paid from the General Fund to Special Revenue Funds, while Special Revenue Funds pay indirect charges to the General Fund.

The following is a summary of interfund receivables and payables at December 31, 2013

		Interfund	Interfund
		Receivables	Payables
General Fund		\$ 455,020	\$15,759,904
Grant Fund		9,455,781	455,020
Enterprise Fund		6,304,123	
Total		\$16,214,924	\$16,214,924
Interfund Transfers:		Transfers In	
	General		Total
Transfer out:			
Grant Fund	\$ 67,673		\$67,673
Total Transfers	\$ 67,673		\$ 67,673

5. **RECEIVABLES**

Receivables as of the year end for the government's individual major funds and component units, including the applicable allowances for uncollectible accounts, are as follows:

	General Fund	Grant Fund	Cooperative Purchasing Fund	Energy Purchasing Corporation	Gulf Coast Economic Development Corporation	Local Development Corporation
Due from member governments	\$ 4,922	\$ -	\$ -	\$ -	\$ -	\$ -
Advances to subrecipients	-	888,205	-	-	-	-
Data imagery	91,643	-	-	-	-	-
Federal grants receivable	-	335,143	-	-	240,506	-
State grants receivable	-	14,632,708	-	-	-	-
Local grants receivable	-	233,719	-	-	-	-
Due from customers	162,975	-	2,261,727	263	-	58,898

Less: allowance for						
uncollected accounts	-	-	-	-	-	-
Accounts Receivable, Net	\$ 296,915	\$ 16,095,701	\$ 2,261,727	\$ 263	\$ 240,506	\$ 58,898

All receivables are expected to be collected within one year.

6. CAPITAL ASSETS

A summary of changes in capital assets, which consist solely of office furniture and equipment, follows:

	December 31, 2012	Additions	Retirements	December 31, 2013
Governmental activities:				
Furniture, fixtures and equipment	\$ 2,875,585	\$ 168,208	\$ (33,262)	\$ 3,010,531
Equipment under capital leases	504,308	-	-	504,308
Less accumulated depreciation	(2,180,586)	(477,376)	33,262	(2,624,700)
_	\$ 1,199,307	\$ (309,168)	\$ -	\$ 890,139
	, , , , , , , , , , , , , , , , , , , ,			
	December 31,		Detimorra	December 31,
Business-type activities:		Additions	Retirements	

Depreciation expense was charged to functions/programs of the primary government as follows:

Governmental Activities-	
General government	\$ 10,697
Workforce programs	143,462
Transportation	124,865
Community and Environmental	82,682
Criminal Justice & Homeland Security	68,553
Emergency Communications	22,518
Aging Services	24,599
Total Governmental Activities	477,376
Business-type activities-	
Cooperative purchasing	38,839
	\$ 516,215

7. UNEARNED REVENUE

At December 31, 2013 unearned revenue was comprised of the following:

Grant Fund:	
9-1-1	\$ 310,052
Solid Waste	127,805
Texas Emissions Reduction Plan	2,939,607
HUD Cash Match	11,367
Low Income Repair Assistance	4,866,065
C&E/Local Contracts	18,974
Transportation/Local Contracts	383,684
Criminal Justice Program	54,054
Workforce Local Program	 392,700
Total Grant Fund	\$ 9,104,308
General Fund:	
Lease Allowance	\$ 221,192
Total General Fund	\$ 221,192
Enterprise Fund:	
Cooperative Purchasing	\$ 34,427
Total Enterprise Fund	\$ 34,427

During 2013 the cooperative purchasing enterprise fund received remittance from participants in advance of performing services. These remittances, totaling \$34,427, were classified as unearned revenue in the cooperative purchasing enterprise fund.

The Commission on State Emergency Communications ("CSEC") provided start-up funding during the first quarter of the program year. These funds are dedicated for use in the 9-1-1 program and will be completely utilized by the end of the program year. At year end, the balance of these funds totaled \$310,052.

H-GAC receives an advance of grant funds from the Texas Commission on Environmental Quality to develop and coordinate a solid waste plan for the region. Funds received in excess of expenditures are accounted for as unearned revenue and totaled \$127,805 for this program.

Texas Commission on Environmental Quality provided funds for H-GAC to provide

grants to eligible projects in nonattainment areas and affected counties within the region. The grants offset the incremental costs associated with reducing emissions of oxides of nitrogen (NOx) from high-emitting internal combustion engines. The balance of the funds available for this purpose that were received and remained unearned at the end of the fiscal year totaled \$2,939,607.

H-GAC has contracted with the Federal Department of Housing and Urban Development ("HUD") to develop a long-range plan for enhancing the quality of life for regional residents and evaluating economic opportunities for the 13 county region. While the federal partner has supplied the primary funds for this endeavor, many cash contributions from a wide variety of community partners have been provided to match the federal dollars. The available cash match at the end of the year was \$11,367.

H-GAC contracted with five counties to administer the Low-Income Repair Assistance Program (LIRAP) to help citizens in the county with auto maintenance requirements resulting from increased emission standards. The counties advanced funds to the Council for the implementation of this program in 2013. At year end, the advances in excess of expenditures totaled \$4,866,065.

H-GAC set aside \$54,054 in criminal justice planning money to provide assistance in developing the required Criminal Justice Community plan for Harris County and the other surrounding jurisdictions.

Other unearned revenues represent local grant funds received in 2013 and intended for use in 2014.

8. CAPITAL LEASES

The following details the change in total obligation of capital leases:

	12/31/2012	Increase	Decrease	12/31/2013
Capital lease	\$ 27,753	-	\$ 11,147	\$ 16,606

The following schedule presents future minimum lease payments as of December 31, 2013:

Fiscal Year	Amount
2014	\$11,147
2015	<u>\$ 5,459</u>
Minimum lease payments	16,606
Less amount representing interest	(538)
Present value of net minimum	
lease payments	16,068
Less current portion of capital	
Lease obligation	(10,767)
Long-term portion of capital lease	\$ 5,301

The Houston-Galveston Area Council has entered into a capital lease agreement for a color copier with a lease term of thirty-six months. It originated on June 1, 2012 and ends on June 30, 2015 with principal of \$32,179 at inception. The general fund will be used liquidate the capital lease.

9. **RETIREMENT PLAN**

Retirement Plan for the Employees of Houston-Galveston Area Council, ("the Plan"), is a single employer, defined-contribution retirement plan for all employees 21 years of age or older having at least six months of service. The Plan is administered by Fidelity Management Trust Company. Retirement benefits depend solely on amounts contributed to the plan and any investment earnings thereon. The Plan requires participants to contribute an amount at least equal to 3% of gross salary. H-GAC matches the participant contributions. Participants begin vesting in the employer's contributions and earnings thereon after 3 years of service and become fully vested after 6 years. H-GAC's contributions and earnings thereon which are forfeited by employees are used to reduce

H-GAC's contribution requirement. The H-GAC Board of Directors is responsible and has authority to amend the Plan provisions and contributions requirements.

H-GAC's total payroll in 2013 was \$12,973,642. Retirement plan contributions were calculated using the gross salary amount for covered employees. H-GAC and its employees made contributions in 2013 of \$787,770 and \$1,045,036 respectively. Investments in the retirement plan are stated at fair value, based upon quoted market prices of the various mutual funds in which the funds are invested.

A stand-alone retirement plan report may be obtained by request, by writing the Chief Financial Officer of H-GAC at P. O. Box 22777, Houston, Texas 77227-2777.

10. OTHER REVENUE

Other revenue consists of revenues generated from programs operated under the general fund, workshops and publication sales.

11. COMMITMENTS AND CONTINGENCIES

Leases – During 2013, H-GAC renegotiated its lease space of approximately 65,199 square feet under an operating lease with an expiration date of November 2019 at an annual base fee of \$1,548,476 which commences in December 2014. Included in this lease is a 2% escalation annually over the term of the lease and two months of prorated rent which is amortized over the lease term. The schedule below reflects the revised lease terms. H-GAC has additional office space leased in satellite locations. These leases will terminate in March 2014 and February 2017. The base amount for these leases is \$1,611 and \$1,604 per month.

In addition to the office leases, H-GAC leases various equipment under noncancellable operating leases with terms ranging from one to five years. Minimum future lease commitments under all leases for office space and equipment are as follows for the years ending December 31:

2014	1,331,112
2015	1,537,046
2016	1,592,820
2017	1,570,964
2018-2019	3,099,745
Total minimum rent payments due	\$ 10,444,592

It is expected that in the normal course of business, leases that expire will be renewed or replaced by leases on other property or equipment. Total lease expense for 2013 was \$1,309,697.

Required Matching Funds – H-GAC's management is of the opinion that local (general fund) cash on hand and funds to be received in 2014 from membership dues and other locally generated revenues will be adequate to meet commitments for matching funds required by federal and state grants.

Federal and State Grants – Use of federal, state and locally administered federal and other grant funds is subject to review and audit by fund provider agencies. Such audits could lead to requests from the grantor agency for reimbursement of expenditures disallowed under terms of the contract or grant. To the extent that such disallowances involve expenditures under subcontracted arrangements, H-GAC generally has the right of recovery from such third parties. A significant portion of the federal and state grant funds received by H-GAC are passed through to delegate agencies which administer certain parts of the grants on behalf of H-GAC. Management believes that H-GAC will not incur significant losses on possible grant disallowances.

Insurance – H-GAC purchases commercial insurance to minimize potential losses in the areas of general liability and directors and officer's liability, workers' compensation and automobile liability.

H-GAC did not experience any significant reductions in insurance coverage during fiscal year 2013 and did not have any instances in which settlements exceeded insurance coverage in any of the past three fiscal years.

Legal Contingencies – H-GAC is involved in lawsuits and other claims in the ordinary course of operations. The outcome of these lawsuits and other claims are not presently determinable, and the resolution of these matters is not expected to have a material effect on the financial condition of H-GAC.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors Houston-Galveston Area Council

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Houston-Galveston Area Council (the "Council"), as of and for the year ended December 31, 2013, and the related notes to the financial statements, which collectively comprise the Council's basic financial statements, and have issued our report thereon dated June 9, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Council's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Council's internal control. Accordingly, we do not express an opinion on the effectiveness of the Council's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Council's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

To the Board of Directors Houston-Galveston Area Council

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Council's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Council's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Council's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL AND STATE PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AND STATE AWARDS REQUIRED BY OMB CIRCULAR A-133 AND THE STATE OF TEXAS UNIFORM GRANT MANAGEMENT STANDARDS

To the Board of Directors Houston-Galveston Area Council

Report on Compliance for Each Major Federal Program

We have audited Houston-Galveston Area Council's (the "Council") compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* and the *State of Texas Uniform Grant Management Standards* that could have a direct and material effect on each of Council's major federal programs for the year ended December 31, 2013. The Council's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Council's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations.*, and the *State of Texas Uniform Grant Management Standards* Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Council's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the Council's compliance.

Opinion on Each Major Federal Program

In our opinion, the Council complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended December 31, 2013.

Report on Internal Control Over Compliance

Management of the Council is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Council's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with OMB Circular A-133 and the *State of Texas Uniform Grant Management Standards*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Council's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control of deficiencies, in internal control over compliance that is less severe than a material weakness in internal control over compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133 and the *State of Texas Uniform Grant Management Standards*. Accordingly, this report is not suitable for any other purpose.

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AND STATE AWARDS FOR THE YEAR ENDED DECEMBER 31, 2013

1 BASIS OF ACCOUNTING

The schedule of expenditures of federal and state awards is prepared on the modified accrual basis of accounting. Expenditures are recognized when they become a demand on current available financial resources. Encumbrances are used during the year for budgetary control purposes and lapse at fiscal year end.

2 **REPORTING ENTITY**

H-GAC for purposes of the schedule of expenditures of federal and state awards includes all funds of the primary government. Also included is the Gulf Coast Economic Development Corporation, a discretely presented component unit of H-GAC

3 RECONCILIATION

Adjustments necessary to reconcile expenditures reported on the supplementary schedule of expenditures of federal and state awards to the basic financial statements at year end were as follows:

Total Grant Fund Expenditures	\$ 241,350,534
Add: Depreciation charged to grant programs	282,751
Add: Gulf Coast Economic Development Corporation federal expenditures	1,965,690
Add: EPA RLF reconciling items from notes 5 below (\$2,652,804;\$4,219,550;\$1,432,252)	8,304,606
Less: In-Kind Expenditures	(14,334,766)
Less: Program Income	(38,830)
Less: Cash Match	(225,974)
Less: Expenditures funded by local grant revenues	 (797,758)
Total Federal and State Schedule	\$ 236,506,253

4

CALCULATION OF FEDERAL AWARDS EXPENDED FOR EDA REVOLVING LOAN FUND

Expenditure of the EDA Revolving Loan Fund were calculated as follows:

Balance of RLF loans outstanding at 12/31/2013	\$ 1,099,694
Cash and investment balance at 12/31/2013	766,481
Administrative costs during the fiscal year	13,066
Unpaid principal of loans written off during the fiscal year	 -
Total EDA Revolving Loan Fund Expenditures	1,879,241
Federal Participation Rate	100%
Total Federal Share of EDA Revolving Loan Fund Expenditures	\$ 1,879,241

5

CALCULATION OF FEDERAL AWARDS EXPENDED FOR EPA REVOLVING LOAN FUND

Expenditure of the EPA Revolving Loan Fund were calculated as follows:

Value of new loans made during 2013	\$ 2,652,804
Ending balance of loans made in previous years	4,219,550
Administrative costs during the fiscal year	72,790
Cash and investment balance at 12/31/2013	1,432,252
Total EPA Revolving Loan Fund Expenditures	 8,377,396
Federal Participation Rate	100%
Total Federal Share of EPA Revolving Loan Fund Expenditures	\$ 8,377,396

6 FEDERAL PROGRAM TOTALS

Some programs include awards received from multiple federal funding grantors

Texas Department of Agriculture General Land Office	\$ 13,083 4,424,855
Total CFDA #14.228	\$ 4,437,938
Texas Workforce Commission Texas Veterans Commission	\$ 1,148,113 363,795
Total Employment Service Cluster	\$ 1,511,908
Texas Commission on Environmental Quality Texas State Soil and Water Conservation Board Total CFDA #66.460	\$ 24,735 302,992 327,727
