CHANGE ORDER

PROJECT TITLE Household Hazardous Waste Collection, Transportation, and Disposal
PROJECT NO. TCEQ.26.0301 **CONTRACT ID** 10418, 14392 **DATE** March 25, 2026

CONTRACTOR Clean Earth Environmental Solutions, Inc.

The following changes are hereby made to the Contract Documents:

- The contract is being extended by 12 months.
- Price increase

Justification:

Contract prices for supplies, services, and waste disposal/treatment are increasing due to increasing costs experienced by Clean Earth Environmental Solutions Inc. over the last year since the current pricing took effect. Allowing for price increases will allow pricing to reflect true costs for the service provided. The contract is being extended due to favorable reviews by local governments.

CHANGE TO CONTRACT PRICE

Attached price sheet.

CHANGE TO CONTRACT TIME

The Contract Time will be increased by 365 calendar days.

The date for completion of all work under the contract will be 06/30/2027.

Approvals Required:

To be effective, this order must be approved by Owner if it changes the scope or objective of the project, or as may otherwise be required under the terms of the Supplementary General Conditions of the Contract.

Approved by 

Charles Wemple, Executive Director

date 24-Jun-2026

Accepted by *Brian Swanson*

Brian Swanson, Vice President

date 24-Jun-2026

Scope of Work

Clean Earth Environmental Services (Clean Earth) will be responsible for the collection, transportation, and disposal of household hazardous waste (HHW) for local governments in the 13-county H-GAC region that select to use the contract. Services will be provided according to the requirements of these specifications, the contract with H-GAC, and the purchase order issued from the End User(s) or service contract with End User(s), as well as all applicable federal, state, and local laws. Clean Earth will not collect waste directly from H-GAC.

Collection, Transportation, and Disposal of Household Hazardous Waste (HHW)

Clean Earth, at the request of the End User, will provide for the collection, transportation, and disposal of HHW for either 1-day collection events or from permanent HHW facilities. The 1-day collection events could be applied to a traditional 1-day collection event or to a post-disaster situation.

Clean Earth should be prepared to assist with the following depending on the needs of the End User:

1. Planning and Assistance
2. On-site Labor
3. Transportation and Disposal
4. Supplies
5. Analysis of Unknown Materials
6. Mobilization, Demobilization, and On-site Equipment

Hazardous Waste Operations and Emergency Response (HAZWOPER) Training

Clean Earth must offer HAZWOPER training annually and meet all OSHA, EPA, and DOT requirements or any other requirements necessary to meet the OSHA 8-hour annual update requirements. Clean Earth must also provide class attendees with an official certificate of completion as part of the 8-hour refresher course.

Contract Deliverables

1. Clean Earth must provide copies of all manifests to the End User and to H-GAC within thirty (30) days of a 1-day collection event or immediately upon shipment from a permanent collection facility.

2. Clean Earth must provide Certificates of Disposal/Destruction that indicate the date, location, and method of treatment and disposal within six (6) months of arrival of the waste at the permitted facility to the End User and to H-GAC.
3. Clean Earth must submit documentation packs to End User and to H-GAC on all events and permanent facility pickups within sixty (60) days of event or pickup which includes the following information:
 1. Date and location of collection
 2. Pounds of material collected
 3. Households participating (for 1-day events)
 4. Total cost of collection, transportation, and disposal
 5. Handling method by pounds and percentage of waste collected (i.e., recycling, fuels blending, incineration, landfilling, etc.)

Training

HAZWOPR 8 hr Refresher Training

\$4,565.77 Includes training, lunch, and snacks

Pricing per participant (if applicable)

N/A

Pricing per course (if applicable)

N/A

Standard Pricing Conditions:

- Pricing is based on the information provided and will be confirmed following receipt of a completed waste profile. All pricing is pending profile approval and/or waste sample analysis.
- Pricing is based on the volume assumptions provided. Clean Earth reserves the right to adjust pricing if waste quantity differs from what was provided.
- A minimum charge of \$350 applies to all invoices.
- Transportation, labor and equipment is portal to portal, and requires a four hour minimum unless otherwise specified.
- Unless otherwise specified, transportation rates include one hour of loading at the customer facility. Demurrage rates will apply after one hour and will be billed in 15 minute increments.
- All invoices are subject to applicable Federal, State, and local taxes & fees as well as an Energy & Insurance recovery charge tied to the National monthly average price for diesel fuel as published by the Department of Energy. <https://www.cleanearthinc.com/energy-and-ins>
- E-Manifest Fee of \$25 will be applied
- In order to offer the safest and most complete services, we may need to apply price adjustments as necessary to cover costs that are beyond our control such as extraordinary or unexpected increases in disposal costs, regulatory changes, economic changes, war, etc.

Waste Specific Conditions

- Disposal prices for gas cylinders are for those with original label, operable valve and in acceptable DOT shipping condition.
 - Unknown identification fee of \$350 may be charged for each unknown gas that is sampled and analyzed
 - A confirmation fee of \$200 may be charged for each suspected gas that requires confirmation due to lack of original label. If results do not match suspected contents, then unknown ID rate will apply along with additional disposal cost
 - Inoperable valve fee: No charge for Category A cylinders. For Categories B thru E, a tapping fee of \$350 per cylinder will apply regardless of size of cylinder. For categories F & G, inoperable valve fee will be Case-by-Case.
- Batteries not in original manufacturer's packaging must have both ends taped to avoid arc. Additional fees may apply if Clean Earth personnel must tape the battery ends.

General Disposal Terms and Conditions

- Bulk waste is typically defined as tanker or roll-off loads.
- Non-bulk waste means drums, boxes, totes, pails, bags, and cubic yard boxes and other containerized waste.
- Electronic profiling is included in the price. Paper profiles will be charged at \$50 each.
- Unless otherwise specified, prices quoted do not include the following:
 - Radioactive Waste
 - Biohazard or Infectious Waste
 - Explosives of any type
 - Liquid or free mercury
 - Isocyanates
 - Reactive materials (metals, solids, liquids)

Non-Specified Container Conversions		Conversion
Container Size		
1-5 gallon		35%
6-15 gallon		50%
16-30 gallon		75%
31-55 gallon		1x
55 gallon		1.5x
Cubic Yard Boxes		4x
250/275 gallon totes		5x
330/350 gallon totes		6x

- Conversion Table Notes**
- These conversions will apply to all disposal and transportation items quoted per container, unless quoted separately.
 - Numbers are expressed as a factor of a 55 gallon drum (e.g., 55 gallon price x 35% = sell price).
 - The greater of the conversion factor or location container minimum of \$40 will be applied unless quoted a different rate.
 - Some waste may have a different, typically lower, minimum which is reflected on the Non-Standard Minimum table below.
 - Smaller container sizes can be converted to larger containers using the following steps: 1) Divide the smaller container price by its conversion factor for the 55 gallon price (e.g., 5 gallon price ÷ 35% = 50 gallon price); 2) Use the normal conversions on the 55 gallon drum price to convert to other container sizes.

Per Pound Standard Minimums			
Container (Gall)	Common Containers ¹	Lab Pack Containers ²	Light Weight Containers ³
	Minimums		
5 or less	50 lbs	25 lbs	30 lbs
6 - 15	125 lbs	50 lbs	75 lbs
16 - 30	175 lbs	110 lbs	100 lbs
31 - 55	250 lbs	250 lbs	150 lbs
56 - 85	400 lbs	300 lbs	275 lbs
Cubic box / pallet Tote (<300 gal)	525 lbs	550 lbs	500 lbs
	1950 lbs	--	--

Non-Standard Minimums	
Container Min.	Process Code
\$0	REC51-3
\$5	REC60, REC61, REC62, REC63, REC64, REC65
\$10	REC02-xx series and REC05
\$15	LF04, REC06, REC27
\$25	REC11, REC11-1, REC12, REC16, REC18, REC24, REC42, REC44, REC50, REC55
\$50	REC09, REC09-1

1. Excludes Lab Pack and Light Weight Items
 2. Includes: LF06, STAB09-6, Series of codes for INC14, INC15 & WAT16
 3. Includes: AP17, INC01, INC02, INC18
 4. All other container sizes are case by case (CBC)
