ACCOUNTABILITY?

Houston we have a problem
Hazards of Illegally Dumped / Improperly Stored Tires

• Fire
  – Water does not adequately penetrate/cool
  – Often fires have to “burn themselves out”

• Mosquito & Vector breeding
  – Breeding ground with standing water
  – Snake haven
  – Rat haven (my experience)

• Pollution
  – Could release hydrocarbons and other contaminants into environment

• Nuisance
  – Diminished property values
  – Eyesore
