

**JOB ACCESS REVERSE COMMUTE (JARC)-RELATED MOBILITY
IMPROVEMENTS FOR
FORT BEND COUNTY TRANSIT**

Background

The Job Access and Reverse Commute (JARC) program provides funding from the Federal Transit Administration to improve transit access to jobs for low income individuals and to improve transit services to non-downtown employment centers. The Fort Bend County Transit (FBCT) applied for and was awarded JARC funding in 2008. FBCT has used the funding to expand transit service and provide additional mobility to residents in its service area.

Current Situation

Ms. Paulette Shelton will brief the Technical Advisory Committee on the additional services FBCT has been able to provide as a result of the JARC funds.

Action Requested

None. Information only.
