The draft transit plan for Chambers County highlights phased recommendations derived from citizen comments received during previous rounds of public meetings (2006-2008), including:

SHORT-TERM –

- County-wide general public Demand-Response service
- Commuter shuttle pilot project between eastern Harris and western Chambers counties
- Implementation of Commute Solutions Program strategies
- Initiate discussions to develop a Car-Ownership Program similar to the Ways to Work[®] Program
- Beyond the short-term project period, Chambers County could consider either joining or creating a rural transit district.

MID-TERM – Evaluate the feasibility of potential Park-and-Ride services in the following areas:

- Westbound towards Baytown, downtown Houston CBD, and the Houston Ship Channel
- Eastbound towards Beaumont/Port Arthur and industrial corridors
- North-South connecting Chambers and Liberty Counties along the SH 146 corridor

LONG-TERM – A Transit Feasibility Assessment of an Intermodal Transfer Center near IH 10 and SH 146
