

HOUSTON-GALVESTON AREA COUNCIL

August 4, 2010

The City of Pearland, the City of Manvel, Brazoria County, METRO, Connect Transit, and H-GAC have decided to remove from consideration developing park and ride service at CR 59 and SH 288, adjacent to the South Fork Community. This decision comes after two public meetings where residents of South Fork expressed concerns about the proposed location. Notably, many residents expressed support for Park and Ride service in general, but were specifically opposed to service at this particular location.

The partners will continue to search for an appropriate site to develop Park and Ride service to serve northern Brazoria County. Once a final site has been selected based on local priorities and preferences, Connect Transit will contract with METRO to provide commuter bus service to the Texas Medical Center.

For more information on the public meetings please check H-GAC's website here: http://www.h-gac.com/taq/public_info/default.aspx
