

**REQUEST FOR ACCEPTANCE OF THE REGIONALLY COORDINATED
TRANSPORTATION PLAN UPDATE**

Background

Seven public meetings for the update to the Gulf Coast Regionally Coordinated Transportation Plan (RCTP) were coordinated throughout the region during June. The results of the meetings and summaries of the public comments that were received have been incorporated into a new Appendix I for the RCTP which is available on the project website at www.ridethegulfcoast.com. The comments from residents in each subarea were also provided to the local transit service providers for their information and potential responses.

Current Situation

The RCTP documents have been revised as needed in response to the comments received. The Regional Transit Coordination Subcommittee (RTCS) to the H-GAC Technical Advisory Committee (TAC) is the local steering committee for the RCTP development process. The RTCS approved the update to the Gulf Coast RCTP at its meeting on August 17, 2017. The Technical Advisory Committee approved the recommendation for acceptance of the updated RCTP at its meeting on September 13, 2017.

Action Requested

Request for acceptance of the updated Gulf Coast Regionally Coordinated Transportation Plan.
