Conformity Process

1. Pre-Conformity
   Gather information on local projects and receive feedback on and approval of the regional project list.

2. Final Agreed Upon Project List (No additional agency change requests)
   - Solicit Public Comments on Project Changes (If Necessary)
   - Preliminary TPC Approval of Project Changes (If Necessary)
   
3. Contact Conformity Consultation Committee (CCC) to Initiate Conformity
   - Pre-Consensus Model Template
   - Develop Modeling Network
   - CCC Approval
   - CCC Review & Pre-Approval
   - TDM Model Development
   - Air Quality Modeling (SEE)
   
4. Documentation Development
   - Solicit and Address Public Comments on Air Quality Conformity
   - TPC Approval of Conformity and TIP/MTP
   
5. Request and Receive Approval of Transportation Conformity Determination from CCC
   
Conformity Triggers

- TIP/MTP Update or Amendment
  - Regionally Significant Projects
  - Fiscal Constraint
- Air Quality Regulations and SIP Actions
  - Emissions Budgets
  - Designation Changes
  - AQ Model

**Months 1-3**
Initiate conformity then develop and run TDM and air quality models.

**Months 4-5**
Request feedback on and approval of air quality conformity results.

**Months 6-8**
Request conformity determination from CCC.
