Emergency Zip-Zone List

Know Your Zone, Plan Your Escape

When a tropical storm or hurricane threatens the Houston-Galveston region, the National Weather Service will forecast the expected height of storm surge and wave action. This information is used by emergency management officials to order evacuations. If it becomes necessary to evacuate residents during a hurricane, authorities will issue evacuation orders by zip code zone or "zone".

Hurricane Evacuation routes are specifically designated roadways designed to facilitate the safe and timely evacuation of coastal areas during a hurricane threat.
