PLANNING

Program Area 502

Category Objective

- Continue emphasis on transportation system development, regional transit, transportation safety, regional goods movement, and bicycle and pedestrian plans.
- Develop and maintain the Regional Transportation Plan and Transportation Improvement Program.
- Stakeholder outreach on transportation policies, programs, and projects through committees and subcommittees.
- Continue the regional safety program, including planning, public education, enforcement, infrastructure, and emergency response activities.
- Support county and municipal thoroughfare planning and implementation.

Elements Included

502.1 - Transportation Short Range and Long Range Planning

End Products

Transportation Short Range and Long Range Planning

- Continued progress and development of 2045 Regional Transportation Plan Update.
- Transportation Improvement Program and 10-Year Plan maintained and updated.
- Completed Project Selection Process, including soliciting and evaluating applications, and selecting projects.
- Continue subregional planning efforts for the Chambers County Thoroughfare Plan, City of Pearland Mobility Plan, Galveston County Cemetery Road Plan, and City of Houston Washington Corridor Plan.
- Transportation committees and subcommittee meetings conducted periodically to present and gather feedback on transportation policies, plans, and projects.
- Continued coordination with the State and local governments to improve responses to hurricane evacuation events and update of Zip-Zone Maps for Hurricane Evacuation.
- Regional Safety Campaign to promote safety messaging to reduce distracted driving, speeding, impaired driving, and bicycle-pedestrian crashes.
- Public Outreach Campaign on Hurricane Preparedness and Evacuation.
- Develop a new online project information database to allow for enhanced project tracking, access by member agencies, and a public facing website to provide project information.
- Continue Traffic Incident Management Training for first responders.
- Updated information and reporting of the federally required regional performance measures and targets.
- Planning support for the Commuter and Transit Pilot Program including City of Conroe, The Woodlands Township, Fort Bend Transit and others.
- Implementation activities for the Regionally Coordinated Transportation Plan for 2022-2026.
- Implement and evaluate the congestion management plan.
- Provide planning support to implement the recommendations of the regionally coordinated transportation plan.
- Provide additional planning to further recommendations from the High Capacity Transit Task
- Continued planning to update the regional bikeways network.
- Initial development of the 2025-2028 Transportation Improvement Program
- Completed the final amendments to the 2023-2026 Transportation Improvement Program

AIR QUALITY IMPROVEMENT PROGRAMS

Program Area 503

Category Objective

- Update the Commute Solutions program outreach and activities to educate employers and commuters about alternative transportation programs in the region.
- Continue to coordinate with transportation partners on documenting and reporting program statistics for use in the State Implementation Plan and expand outreach activities.
- Administer regional implementation of EPA Climate-related grant, with focus on developing transportation-related elements.
- Provide support to the Texas Department of Transportation in the development of a comprehensive ride-sharing platform.
- Organize periodic meetings with transportation partners to encourage collaboration and dialogue among transportation agencies in the region.
- Organize multiple marketing efforts and campaigns including Commute Solutions month and an emergency ride home expansion pilot that place an emphasis on shifts in mode and time to reduce vehicle miles traveled.
- Solidify relationships with employers and universities to become “Partners” with a mutual goal to maintain growth in the use of transportation options and encourage behavioral change.
- Work with public/private entities to increase awareness of grant opportunities for heavy duty vehicles/equipment to improve air quality in the Houston-Galveston non-attainment region.
- Administer the activities of the Houston-Galveston Clean Cities Coalition to advance the use of alternative fuels.
- Provide staff support for the Regional Air Quality Planning Advisory Committee and Transportation Air Quality Subcommittee.
- Continue working to quantify changes in the emission of nitrogen oxides, volatile organic compounds, particulate matter and greenhouse gasses associated with transportation control measures.

Elements Included

503.1 - Air Quality

End Products

Air Quality

- Conduct Commute Solutions and other travel demand management public relations and marketing activities targeting employers, commuters and students.
- Develop coordinated approach to public outreach and education utilizing various Travel demand Management and community partners throughout the region.
- Development of a comprehensive ride-sharing platform to support the Commute Solutions program.
- Provide support for Clean Vehicles Program projects that reduce NOx emissions using new technologies.
- Leverage Department of Energy/Clean Cities Coalition resources to advance the use of alternative fuels, advanced vehicle technologies and fuel conservation strategies.
- Provide telework planning and implementation assistance to increase mode shift and retention.
- Complete and submit annual update of the PM2.5 Advance Path Forward plan to Environmental Protection Agency.

DATA SERVICES

Program Area 600

Program Goals

Overseeing and managing all aspects of information technology, which includes maintaining H-GAC's enterprise network infrastructures, telecommunication services, and data management for a workforce of over 300 employees.

Handle the maintenance of Office 365 environment for more than 1,000 Workforce career office users. Also, provide Wide Area Network (WAN) services for 28 Workforce career offices and ensure connectivity to the Texas Workforce Commission's internal network.

Maintain the 9-1-1 network and data infrastructure, provide technical assistance and telecommunication support services, and maintaining geospatial databases for the eight counties within the Gulf Coast Regional 9-1-1 Emergency Communication District.

Categories Include

601 - Data Services - \$1,609,200

602 - Network - \$3,110,610

603 - 9-1-1 Services - \$6,515,031

Major 2023 Accomplishments

- Implemented a private cloud network with site-to-site (VPN) connectivity between on-premises infrastructure and the Switch data center to establish redundancy, disaster recovery, and backup capabilities for mission-critical services.
- Migrated the Workforce's DocuWare application server and data to the private cloud with backup capacity to support the disaster recovery plan. The Workforce program utilizes DocuWare system for storing and organizing Childcare documentation.
- Completed the migration of the H-GAC.com and HGACBuy.org web server to H-GAC's private cloud/co-location, ensuring that the websites remain operational in the event of a network of power failure at the H-GAC offices
- Updated WiFi infrastructure to increase coverage and reliability for the floor remodel project.
- Implemented latest audio/visual technology on new meeting rooms to enhance collaboration and ease of use for staff members.
- Completed migration of telephony services, from Mitel to RingCentral, to improve business continuity and enhance interaction between the agency and the general public.
- Introduced an internal podcast titled "Tech Talk Thursday" to educate staff in the latests trends in technology and foster employee engagement.
- Completed and certified cybersecurity awareness training for all agency employees in compliant with the employee security awareness training requirements of Section 2054.4191, Government
- Completed procurement of Next Generation 9-1-1 System and successfully negotiated contract for new services.
- Executed a contract with a vendor and began the H-GAC.com Redesign Project, with the goal of launching a redesigned website in January 2024 and completing the project in April 2024.
- Achieved 99% data matching of 9-1-1 road centerline (RCL) and Automatic Location Identification (ALI) data for the eight counties within the Gulf Coast Regional 9-1-1 Emergency Communication District.
- Implemented Asana as the agency's primary project management solution.

2024 Program Issues

- Deployment of Next Generation 911 network (NG911) across all eight counties within the Gulf Coast Regional 9-1-1 Emergency Communication District.
- Deployment of Next Generation 911 call handling equipment at the 23 Public Safety Answering Points (PSAPs). Ensuring the functionality of call handling equipment, interoperability, Text to 911 capability, Automatic Location Identification (ALI) and GIS data integration to provide accurate caller information.
- Implement solutions for ALI/ANI data hosting and best practices for 9-1-1 Geo-spatial (GIS) data systems for path forward toward meeting NG911 ESInet standards.
- Migrate the website and email services from "h-gac.com" to "h-gac.gov"
- Implement agency-wide contact and regional directory management and modernize the agency's need for a customer relationship management tool.
- Create and implement a new design for <https://www.h-gac.com> to provide a more visually interesting and user-friendly website that simplifies navigation and provides visitors with an improved experience.
- Implement a cloud-based wide area network solution, SD-WAN, that incorporates newer technology and provides enhanced security and management for the Workforce Solution wide area network
- Complete migration of our on-premises data center to the cloud, mitigate future attack and minimize damage to H-GAC's data network
- Implement virtualized desktops for GIS power users. Determine the hardware, software, and network infrastructure required to support a virtualization environment for 62 GIS users.
- Implement ArcGIS infrastructure upgrade to provide GIS users with a flexible and secure environment for working with GIS applications, collaborating, and accessing GIS data from anywhere.

SHARED SERVICES

Program Area 700

SHARED SERVICES

Program Area 700

Program Goals

To coordinate the initiatives of the region and promote the shared resources of the agency internally and externally as they relate to promotion and outreach, socioeconomic development and planning, and internal services that benefit the region.

Categories Include

- 701 - Communication - \$1,417,415
- 702 - Procurement & Contracts - \$328,535
- 703 - Data Analytics & Research - \$5,032,048
- 704 - GIS Data & Maintenance - \$172,107
- 705 - Data Products & Services - \$2,078,179

Major 2023 Accomplishments

- Developed the next version of regional socioeconomic forecast to include data processing, model runs, and model parameter evaluation. Data collection, processing and compilation of data related to census, traffic/crashes, household, economy, real estate. Analysis of commuter survey and financial reports.
- Provided modeling support on RTP and Conformity and handled over 50 modeling and data requests. Conducted the Transit On-board Survey, becoming the first major MPO to provide this data to the FTA post-pandemic. Procured the Airport survey. Completed 70% of traffic counts collection. Engaged in data collection efforts for model validation and calibration, including collaboration with TxDOT. Transportation 2045 update Network Conformity & RTP 2045 update Mapping. 2023 Events/Plat processing for New updated Landuse model.
- Created interactive tools and dashboards for Childcare, H-GAC's grant tracker, H-GAC's community map, 2023 Basin Highlight report, and Regional Mental Health accessibility among others. Deployed digital solutions like Asana request forms and procedures for both internal and external requests and developing the Smartboard App. Provided presentations for the Regional Broadband Initiatives and at National Transportation Review Board conference.
- GIS data and access migration from DS to DAR. Maintenance of GIS data and ArcGIS online. SDE data development, updates, and maintenance. Agency-wide GIS support and troubleshooting. ArcGIS Open Data Hub maintenance.
- Migrated administration of GIS Data Workgroup (GDW) from Data Services to Data Analytics & Research, and transition to hybrid/on-site meetings. Coordination of technical and informative meetings regarding GIS-related topics for the region's GIS stakeholders, to include presenters, initiatives, etc.
- Star*MAP: Management, maintenance, and update of region's road centerline and address point database. Coordination of data purchases from CenterPoint, and management of data sales to external stakeholders.

- Coordination of regional stakeholders and programs for the acquisition of remotely sensed data (imagery, lidar). Management, maintenance, and update of imagery/lidar product database. Coordination of data purchases, contracts/agreements (ILA's), and data sales to external stakeholders.

2024 Program Issues

- Facing a shortage of staff to handle increasing modeling and data requests. Difficulty in hiring experienced modelers due to the highly competitive job market. We recommend the need for TTI/consultant support in model updates, validation, and calibration. Our plan is to complete the validation and calibration in-house with TTI/consultant support, as we aim to incorporate new and advanced approaches that utilize different data resources to account for post-pandemic travel patterns.
- Insufficient staff capacity and difficulties to find/attract suitable candidates due to stiff market competition.
- Encountering coordination issues with Data Services, especially concerning the installation of the Tableau Server, utilizing arcgis online, and launching a Flask server service.

DATA ANALYTICS & RESEARCH

Program Category 703

Category Objective

Develop long range socioeconomic and travel forecasts to support regional planning efforts. Collect, process, and analyze demographic, economic, and geographic data necessary for regional transportation plans and systems. Participate in the ongoing data collection efforts of other transportation agencies in the region, expediting the sharing of roadway inventory data, and facilitate project information between agencies.

Elements Included

703.1 - Socioeconomic Modeling

703.2 - Transportation Modeling

End Products

Socioeconomic Modeling

- Refinement of the regional socioeconomic forecast to include data processing, model runs, and model parameter evaluation.
- Data collection, processing, and compilation of data related to census, traffic/crashes, household, economy, real estate, announced/planned land use developments, and travel behavior.
- Release the new long range regional growth forecast of population, employment and land use.
- Serve internal and external data request related demographic, economic, housing and real estate data.

Transportation Modeling

- Continue providing modeling and technical support for RTP, Conformity, and Transportation Improvement Program (Call for projects). Continue providing technical support for modeling and data requests related to transportation planning studies for H-GAC, TxDOT, Metro, counties, cities and other local government agencies within the region (Planning and Environmental Linkages , advanced scenario planning, corridor planning, multimodal, sub-regional mobility, congestion mitigation, environmental, city major thoroughfare & freeway plan, air quality, etc.).
- Continue conducting data collection for model updates, calibration, and validation purposes. This data collection includes Origin-Destination onboard transit surveys, airport surveys, household surveys, traffic counts, and location-based data.
- Initiate and prepare the process for the 2024 model update, validation, and calibration, incorporating post-pandemic data, introducing new travel modes and accounting for new technologies to plan for uncertainties. Utilize consultant services to assist in the Travel demand model development.
- Continue the application process for the Advance Funding Agreement (AFA) bundle - Regional Transportation Models and Tools.
- Initiating model validation and calibration using data from the Household survey, traffic counts, big data, and updated land use forecasts. Completing the Activity-Based Model sensitivity test. Bicycle network updates.
- 2045 / 2050 TDM Network.

DATA ANALYTICS & RESEARCH

Program Category 704

Category Objective

Maintenance of GIS data assets, dissemination of data and tools, and support of GIS users.

Elements Included

704.1 - GIS Data Maintenance

704.2 - GIS Software User Support

704.3 - Data Visualization & Web (Mapping) Applications

End Products

Data Visualization and Application Development

- Update and enhance interactive web mapping tools and dashboards for transportation, community and environmental planning. Provide technical and analytical support.
- Participating in diverse strategic planning and tool development initiatives, including regional industrial cluster analysis, regional growth forecast, regional travel patterns, and a congestion monitoring management dashboard.
- Provide informational services and analytical support to various H-GAC programs, regional planning agencies, local governments, and their consultants in support of regional planning activities and studies.

GIS Management

- GIS data and access migration from DS to DAR. Maintenance of GIS data and ArcGIS online. SDE data development, updates, and maintenance. Agency-wide GIS support and troubleshooting. ArcGIS Open Data Hub maintenance.
- Redesign of H-GAC regional Data Hub.

DATA ANALYTICS & RESEARCH

Program Category 705

Category Objective

Management and procurement of geospatial data. Maintenance and sale of geospatial data products and derivatives. Coordination of region-wide meetings, programs, and collaboration of GIS data stakeholders.

Elements Included

705.1 - Geographic Data Workgroup (GDW)

705.2 - Data Services & Products (Economic & Address data)

705.3 - Remote Sensing Programs

End Products

Geographic Data Workgroup

- Coordination of technical and informative meetings regarding GIS-related topics for the region's GIS stakeholders, to include presenters, initiatives, etc.
- Coordination of 2024 regional lidar program with 20+ stakeholders. Coordination of GIS Day (November).

Data Products & Services

- Star*MAP: Management, maintenance, and update of region's road centerline and address point database. Coordination of data purchases from CenterPoint, and management of data sales to external stakeholders.
- DataAxle: Management, maintenance, and update of region's economic and household database. Coordination of data purchases from DataAxle, management of data sales to external stakeholders.

Remote Sensing

- Coordination of regional stakeholders and programs for the acquisition of remotely sensed data (imagery, lidar). Management, maintenance, and update of imagery/lidar product database. Coordination of data purchases, contracts/agreements (ILA's), and data sales to external stakeholders.
- Coordination of 2024 regional lidar program with 20+ stakeholders.
