

7. UNIFIED PLANNING WORK PROGRAM AMENDMENT

**BACKGROUND**

---

The 2022-2023 Unified Planning Work Program (UPWP) describes the regional transportation plans and programs, and the transportation-related air quality planning activities that will be undertaken during the fiscal years 2022 and 2023. The current UPWP was adopted by the Transportation Policy Council (TPC) on August 27, 2021.

**CURRENT SITUATION**

---

Currently, the UPWP Task IV- subtask 4.6b.1 state staff will “Maintain and purchase bike and pedestrian counters to meet national best practice for data collection of a region of H-GAC size”. H-GAC would like to add verbiage that allows for the installation of bike and pedestrian counters to the task.

Therefore, the new verbiage would be as stated “Maintain, purchase, and install bike and pedestrian counters to meet national best practice for data collection of a region of H-GAC size”.
