

## **Appendix B.1 - 2045 RTP Update Fiscally Constrained Projects Listing**

Fiscally constrained projects list is split into three parts as shown below:

Part I – Regionally significant projects subject to transportation conformity determination. Regionally significant projects are defined as described on page 2.

Part II – Not regionally significant projects and projects exempt from regional emissions analysis under 40 CFR § 93.127.

Part III – Projects exempt from transportation conformity under 40 CFR § 93.126 and regional investment programs.

Part IV - Let projects from FY 2023 to FY 2025 (Let is defined as obligated)

All fiscally constrained projects information described in 15 attributes described as follows:

1. MPOID: Unique identifier assigned by H-GAC to all projects in H-GAC database.
2. CSJ #: Control section job number assigned to the project by TxDOT.
3. TxCID: TxDOT connect identification number assigned by TxDOT.
4. County: The county in which the project is located.
5. Sponsor: The agency which implements the project.
6. Facility: Street, roadway, or address of the project location. Facility also represents the service area of the agency where regional investment programs are implemented or service area of the agency where FTA formula grant funds are expended.
7. From & To: Start and end limits of the project.
8. Description: Describes project scope.
9. Length (mi): Project length in miles.
10. Main lanes: Existing, and proposed main lanes (existing, proposed). This attribute represents total number of main lanes in both directions including general purpose lanes, high-capacity lanes (HOV), high-capacity toll lanes (HOT), toll lanes, and managed lanes.
11. Frontage lanes: Existing, and proposed frontage lanes in both directions.
12. Fiscal Year: Expected letting year of the project.
13. Analysis Year: Travel demand model network year in which the project is coded.
14. Total Project Cost (M, YOE): Estimated total project cost in year of expenditure.

## Regionally Significant Projects Definition

### Regionally Significant Roadway Projects

Non-exempt<sup>1</sup> projects on regionally significant roadways will be treated as regionally significant projects if they:

- a. Provide additional through traffic lanes greater than 1 mile in length.
- b. Construct a bypass to a principal arterial/interstate along a new alignment.
- c. Add or extend freeway auxiliary/weaving lanes from one interchange to a point beyond the next interchange.
- d. Construct a new interchange that provides access from or allows movement between facilities that was not previously possible; and/or
- e. Remove an existing interchange and result in the elimination of access from or movement between facilities which previously existed.

Regionally significant roadways are limited to:

1. All freeways, tollways and other highways classified as principal arterial or higher; and
2. Selected highways as identified in Figure 3.1 of Appendix L Air Quality Conformity, currently designated as minor arterials that serve significant interregional and intraregional travel and connect rural population centers not already served by a principal arterial or connect with intermodal transportation terminals not already served by a principal arterial.

### Regionally Significant Transit Projects

Any transit facility within an exclusive right-of-way (“fixed guideway”) that offers an alternative to regional highway travel including light rail, commuter rail, bus rapid transit, and barrier separated High Occupancy Vehicles (HOV) lanes shall be considered regionally significant.

<sup>1</sup> Non-exempt projects include all projects that are not identified under [40 CFR 93.126](#) or [40 CFR 93.127](#) as exempt or exempt from regional emissions analysis

### Other Projects

The regional significance of non-exempt projects<sup>1</sup> not addressed in the statements above will be decided on a case-by-case basis through the interagency consultation process. The consultation will occur before the plan is taken to the Transportation Policy Council (TPC) (either plan or TIP revision), and prior to the environmental determination.

**Part I – Non-Exempt Projects Subject to Transportation Conformity**
