## TRANSPORTATION IMPROVEMENT PROGRAM

HOUSTON  
GALVESTON  
AREA  
COUNCIL

The 2027-2030 Transportation Improvement Program (TIP) is a multimodal program of transportation infrastructure and service improvements planned for implementation in the Houston Region over the next four years.

**This page left blank intentionally.**

# Resolution

## NO. 2026-15

ADOPTING THE 2027-2030 TRANSPORTATION IMPROVEMENT PROGRAM (TIP) FOR THE HOUSTON-GALVESTON METROPOLITAN PLANNING AREA

WHEREAS, the Infrastructure Investment and Jobs Act (IIJA) was enacted on November 15, 2021 and authorizes the Federal surface transportation programs for highways, safety, and transit; and

WHEREAS, the IIJA and Code of Federal Regulations establish requirements for the metropolitan transportation planning process, including the development of Transportation Improvement Programs (TIPs); and

WHEREAS, the Transportation Policy Council (TPC) as the Policy Board for the Metropolitan Planning Organization (MPO), has adopted policies and procedures for the selection and prioritization of projects consistent with federal planning requirements; and

WHEREAS, the 2027-2030 Transportation Improvement Program was developed in cooperation with the state and local governments, and local transit providers; and

WHEREAS, opportunity for public comment has been provided per the policies established by the Public Participation Plan amended by the Transportation Policy Council in January 2021; and

WHEREAS, the 2027-2030 Transportation Improvement Program includes statewide project groupings developed in accordance with the Metropolitan Planning regulations and in cooperation with the Texas Department of Transportation; and

WHEREAS, the 2027-2030 Transportation Improvement Program includes a financial summary that demonstrates its compliance with federal regulations regarding financial constraint; and

WHEREAS, the 2045 Regional Transportation Plan Update, the long-range transportation plan for the Houston-Galveston Metropolitan Planning Area, was adopted in April 2023 and amended in October 2025 by the Transportation Policy Council; and

WHEREAS, the 2027-2030 Transportation Improvement Program was developed from, and is consistent with the 2045 Regional Transportation Plan Update, and its air quality conformity determination.

NOW, THEREFORE, BE IT RESOLVED BY THE TRANSPORTATION POLICY COUNCIL FOR THE HOUSTON-GALVESTON METROPOLITAN PLANNING AREA, THAT THE 2027-2030 TRANSPORTATION IMPROVEMENT PROGRAM IS HEREBY APPROVED, AND THE MPO DIRECTOR IS

DIRECTED TO SUBMIT THE TIP TO THE TEXAS DEPARTMENT OF TRANSPORTATION FOR INCLUSION IN THE 2027-2030 STATEWIDE TRANSPORTATION IMPROVEMENT PROGRAM.

PASSED AND APPROVED this 22nd day of May 2026, at a regularly called meeting of the Transportation Policy Council.

APPROVED:

Hon. Justin Beckendorf, Chairman  
Transportation Policy Council

ATTEST:

**Signature:** Lesley Briones

# Chapter 1 — Introduction

## Purpose of the Transportation Improvement Program (TIP)

Each Metropolitan Planning Organization is required to develop a Transportation Improvement Program (TIP), which is a staged, four-year program of surface transportation projects that are either proposed for federal funding or for which federal approval is required, along with the list of regionally significant projects to be implemented with non-federal funds. The TIP is mandated by federal transportation legislation, currently the “Infrastructure Investment and Jobs Act” (IIJA), and provides assurance that the federally supported transportation system is being adequately operated and maintained nationwide. Inclusion in the TIP is a major milestone in the project development process as it indicates there is regional consensus on the value of a project and approval for it to receive federal funding. Although the TIP covers four years of project programming, the schedule of projects is updated every two years, in coordination with the federal fiscal calendar.

The TIP contains a detailed description of every included project, documents the costs at each project phase, and is financially constrained for each program year. Since it is designed to implement the goals, strategies, and priorities of the approved long-range transportation plan, the TIP must be consistent with the Regional Transportation Plan (RTP). Moreover, when a planning region is designated a “non-attainment” or a “maintenance” area under the federal air quality standards, the TIP must meet the requirements of the Clean Air Act by conforming to the State Implementation Plan (SIP) to reduce pollution.

Inclusion within the TIP document is not a guarantee that a project will be implemented because unanticipated obstacles may affect funding, impact project readiness, or upset sponsorship arrangements. The TIP is not a final project implementation schedule as federal regulations permit amendments to the document after it has been adopted in order to add new projects, delete dormant projects, or to advance or delay projects in the schedule as circumstances necessitate.

The 2027 - 2030 TIP was developed by the Houston-Galveston Area Council (H-GAC) in cooperation with the Texas Department of Transportation (TxDOT), local government entities, and local transportation agencies. The multi-year/multimodal project list is the product of a comprehensive, cooperative, and continuing regional transportation planning process and consists of projects identified as priorities for the Houston-Galveston metropolitan region.

Map 1-1: H-GAC Region showing the Eight Planning Area Counties

## The Planning Region

Federal law requires states to establish a Metropolitan Planning Organization (MPO) for urbanized areas that have 50,000 or more residents. In 1974, the Houston-Galveston Area Council (H-GAC) was designated as the MPO for the eight-county planning region that consists of Brazoria, Chambers, Fort Bend, Galveston, Harris, Liberty, Montgomery, and Waller Counties; covering approximately 8,800 square miles, an area slightly larger than the State of New Jersey (Map 1-1). As the MPO, H-GAC coordinates the transportation planning activities within the region and determines, through its policy board, the Transportation Policy Council, how federal transportation dollars are spent.

The U.S. Secretary of Transportation has also designated the H-GAC eight-county planning region as a Metropolitan Planning Area. To qualify for this designation, an urbanized area must have a population of 200,000 or more residents (Figure 1-1).

The H-GAC planning area boundary matches the limits of the MPO. This region is home to an ethnically diverse population of over 7.7 million residents. With a growth rate of nearly 20% over ten years, Houston has become one of the fastest-growing metropolitan areas in the United States. Several factors have contributed to this growth, including a strong job market, affordable cost of living, and a diverse economy with significant contributions from the energy, healthcare, and technology sectors. The region's overall population is increasing by about 100,000 new residents annually.

Like the population, the mobility needs within the planning region are vast and diverse. The funding commitments documented in the 2027 - 2030 TIP respond to the regional aspiration for a safe, efficient, and reliable multimodal transportation system for its residents.

Figure 1-1: Population Distribution in the H-GAC Metropolitan Planning Area

Source: US Census Bureau, 2024 Population Estimates

## Relationship to the Transportation Planning Process

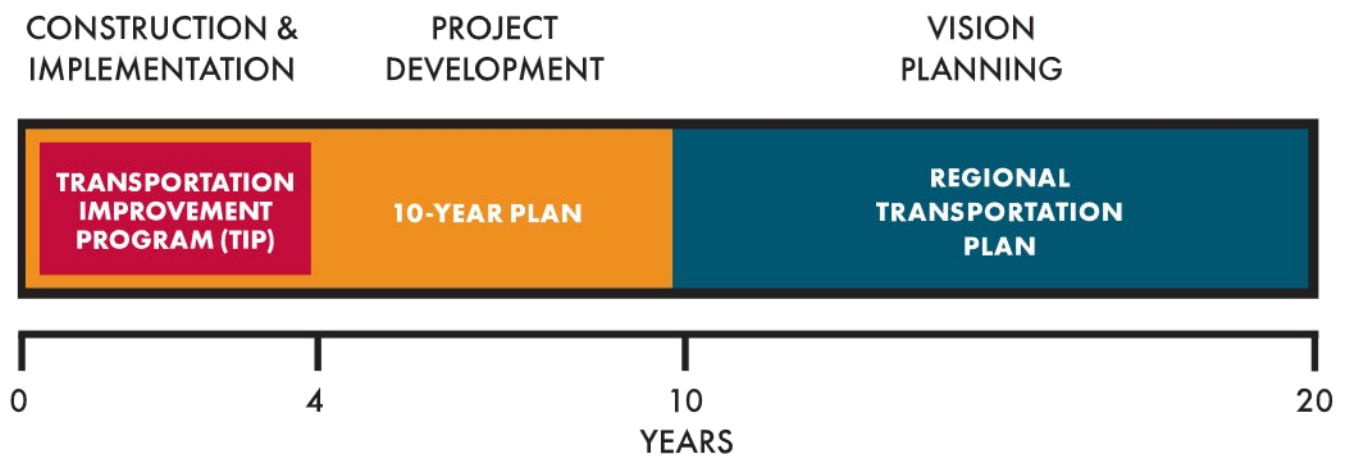

Serving as the MPO for the Houston-Galveston planning region, H-GAC is responsible for preparing and maintaining three key elements of the regional transportation planning program: (1) The Regional Transportation Plan (RTP), (2) the MPO Ten Year Plan, and (3) the Transportation Improvement Program (TIP). These three programs correspond respectively to the long-term regional planning vision, the intermediate-term planning guide, and the detailed short-term transportation programming schedule. Federal regulations moreover require the PLANNING AREA to implement a Congestion Management Process (CMP) in conjunction with their transportation planning activities. Because the Environmental Protection Agency (EPA) has designated the Houston-Galveston-Brazoria (HGB) area a non-attainment area for the pollutant Ozone under the National Ambient Air Quality Standards (NAAQS), the MPO must coordinate its transportation planning process with the process of developing transportation control measures designed to bring the region into attainment.

The 2027 - 2030 TIP maintains consistency with the following transportation planning documents:

- 2045 RTP Update – The H-GAC long-range Regional Transportation Plan
- H-GAC Ten-Year Plan
- TxDOT Unified Transportation Program (UTP)
- TxDOT Statewide Transportation Improvement Plan (STIP)

These planning documents and programs are briefly described below.

Figure 1-2: The Hierarchy of Transportation Plans

### The 2045 RTP Update

The long-range transportation plan “2045 RTP Update” is the defining expression of the regional vision for the future transportation system for the Houston-Galveston metropolitan area and serves as a guide for the expenditure of state and federal funds through the year 2045. The 2045 RTP Update is the product of a cooperative effort between H-GAC, local governments, TxDOT, transit operators, representatives of transportation providers, and the general public, and is required to be updated at least once every four years. Considering that the TIP is meant to implement the goals,

strategies, and priorities expressed in the long-range plan, the project programming in the TIP is consistent with the first four years of the 2045 RTP Update.

The long-range plan evaluates the existing transportation system and defines a set of regional goals to improve the system and implementation strategies for achieving the goals. The 2045 RTP Update vision statement articulates an aspiration for a safe, resilient, equitable, and reliable multimodal transportation system that contributes to a livable region. In developing the 2045 RTP Update, H-GAC hosted over 17 public meetings (in person and virtual) providing interested stakeholders with an opportunity to participate in the plan development process. Public comments were received over the course of the 2045 RTP Update development process. These comments helped to inform the decisions that shaped the final plan. The 2045 RTP Update was approved and adopted by the H-GAC Transportation Policy Council (TPC) on April 28, 2023. Federal Highway Administration approved the air quality conformity of the projects on November 1<sup>st</sup>, 2023. The next RTP plan update is due in 2027.

## **The-10-Year Plan**

In accordance with House Bill (HB) 20, passed by the 84th Texas legislature in 2015, every MPO in the state of Texas must develop a 10-year plan to specify how the transportation funding allocated to the Metropolitan Planning Area will be utilized. The 10-year transportation plan is consistent with and prioritizes projects from the RTP while the first 4 years of the plan must be consistent with the Statewide Transportation Improvement Program (STIP) and the TIP. As directed by HB 20, the 10-year plan must consider and address congestion, safety, the effect of a project on economic development opportunities for area residents, available funding, air quality, and the project's impact on the underserved communities.

## **TxDOT Unified Transportation Program (UTP)**

The Unified Transportation Program (UTP) is TxDOT's 10-year planning document and guides the planning, development, and construction of a multimodal list of transportation projects that involve the highways, aviation, public transportation and waterways and coastal waters within each TxDOT district. The Houston-Galveston metropolitan region includes territory from two TxDOT district offices – Houston and Beaumont. The UTP is developed annually in accordance with the Texas Administrative Code (TAC § 16.105) and is used as a guideline for programming projects in the Statewide Transportation Improvement Program (STIP). In developing the UTP, TxDOT collaborates with local governments, local transportation entities and public transportation operators. The UTP is approved by the Texas Transportation Commission (TTC). Projects in the UTP have TTC authorization for preliminary engineering work, environmental analysis, right-of-way acquisition, and design.

The UTP is an intermediate programming document that links the planning activities of the Statewide Long-Range Transportation Plan (SLRTP) and Metropolitan Transportation Plans with the detailed programming activities of the STIP and TxDOT's two-year letting schedule. Figure 1-2 portrays the hierarchy of regionwide transportation plan documents and how they relate to one another. State regulations require the UTP to be financially constrained based on reasonably expected funding revenues. While the UTP is a critical tool in guiding transportation project development within the long-term planning context, it is not a budget, nor does it constitute a guarantee that a listed project

will be built. As projects move closer to construction or implementation, they advance from the UTP into the Statewide Transportation Improvement Program (STIP).

## **TxDOT Statewide Transportation Improvement Program (STIP)**

The STIP is TxDOT's four-year capital improvement program that fulfills federal (23 USC 135 and 23 CFR 450.218) and state (43 TAC 16.103) planning requirements. The STIP incorporates all the Rural Transportation Improvement Programs (RTIP) and the MPO Transportation Improvement Programs (TIP) statewide and presents the four-year list of transportation projects and services to be constructed or implemented within the entire state of Texas. A federally approved STIP is required for projects to be eligible for federal funding under Title 23 USC and Title 49 USC, Chapter 53. Similarly, projects in the MPO TIP must be programmed into the STIP to be eligible for federal funding.

The STIP identifies projects, programs, and services that are within four years of being constructed or implemented to meet the transportation needs identified during the transportation planning process. The STIP must be both fiscally constrained and consistent with the SLRTP. The development of the STIP includes a statewide public involvement process which culminates in a public hearing in Austin before the STIP is approved and adopted by the Texas Transportation Commission. Once adopted by the Commission, the STIP must then be approved by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA).

## **Management Systems**

The Houston metropolitan area ranks as one of the most congested urban areas in the United States. According to the Texas A&M Transportation Institute (TTI), the Houston metropolitan area contains the single most congested roadway within the state of Texas and five of the top ten most congested roadways in the state. All metropolitan areas with populations greater than 20,000 residents, like the greater Houston region, are required to develop and implement a Congestion Management Process (CMP). The CMP is a systematic method for (1) identifying roadways in the region that are chronically congested and determining the causes, (2) applying a range of congestion mitigation strategies to improve system performance and reliability, and (3) conducting a periodic assessment to evaluate the effectiveness of the selected strategies and to guide recommendations for future solutions to the congestion problem. The strategies typically employed to reduce congestion through the CMP generally focus on improving traffic operations, managing travel demand, and when necessary, adding to roadway capacity.

The CMP is an integral part of the metropolitan transportation planning process and provides important input to the RTP development process and the programming of the TIP. For instance, the CMP analysis directly benefits the TIP when it generates system performance information that informs the evaluation of projects being considered for inclusion in the TIP. The system performance information also guides the selection of locations for corridor studies or roadway segments in need of detailed analysis, while the robust modeling tools incorporated in the CMP analyses can help to assess the effectiveness of strategies proposed to manage regional congestion.

## TIP Funding and Project Selection

Although many critical transportation needs are identified in the RTP, they cannot all be implemented at once because funding is limited. The transportation project selection and approval process involve shared decision-making. The Transportation Policy Council (TPC) serves as the policy-making body for the MPO and has primary responsibility for directing project selection under the following funding categories:

- Category 2 – Metropolitan and Urban Corridor Projects
- Category 5 - Congestion Mitigation and Air Quality (CMAQ)
- Category 7 – Surface Transportation Block Grant (STBG) Program, and
- Category 9 – Transportation Alternatives Set-Aside Program (TASA)
- Category 10 – Carbon Reduction Program (CRP)

These funding categories have specific eligibility requirements defined in the federal regulatory code.

The TPC approves all projects that are included in the TIP. Some projects are however developed and selected in other forums and subsequently added to the TIP. As an example, the Texas Transportation Commission selects major mobility, maintenance, rehabilitation, and safety projects on the state highway system. The Commission also selects bridge program projects, both on and off the state system. In addition, the state administers the region's transit funding programs except within the Houston, Conroe, and The Woodlands Urbanized Areas (UZA). H-GAC facilitates discussions between the local transit agencies on the division of federal funds allocated to the UZAs.

# Performance-Based Planning and Programming

## PERFORMANCE MEASURES

The objective of Transportation Performance Management is to focus federal funds on the achievement of national goals, increase accountability and transparency, and improve investment decision-making through performance-based planning and programming of transportation projects. The federal transportation legislation, the Infrastructure Investment and Jobs Act (IIJA) requires the establishment of goals for which Metropolitan Planning Organizations, and state Departments of Transportation, are required to set targets and to report on progress towards achieving those targets for numerous federal performance measures. H-GAC is responsible for these measures in key performance areas such as Safety, Pavement and Bridges, Reliability, Congestion, Air Quality, Transit Asset Management, and Public Transportation Safety Plans. Table 1-1 and Table 1-2 below list the specific measures in various performance areas for the transportation system for both highways and transit. A comprehensive report of H-GAC’s baseline conditions and targets for all performance areas is available in **Appendix B** of this document.

**Table 1-1: Performance Measures**

Category	Performance Measure	Applicability	Reporting Frequency
Safety	Number of fatalities	All public roads	Annually
	Rate of fatalities		
	Number of serious injuries		
	Rate of serious injuries		
	Number of non-motorized fatalities and serious injuries		
Pavement and Bridge Condition	Percentage of pavements of the Interstate System in Good condition	Interstate System	Biennially with four-year performance periods
	Percentage of pavements of the Interstate System in Poor condition	Non-Interstate NHS	
	Percentage of pavements of the non-Interstate NHS in Good condition		
	Percentage of pavements of the non-Interstate NHS in Poor condition	National Highway System (NHS)	
	Percentage of NHS bridges classified in Good condition		
	Percentage of NHS bridges classified in Poor condition		
System Performance	Percent of the person-miles traveled on the Interstate that are reliable (Level of Travel Time Reliability)	Interstate System	Biennially with four-year performance periods
	Percent of the person-miles traveled on the Non-Interstate NHS that are reliable (Level of Travel Time Reliability)	Non-Interstate NHS	
	Truck Travel Time Reliability (TTTR) Index	Interstate System	
	Annual Hours of Peak Hour Excessive Delay Per Capita	National Highway System	
	Percent of Trips with Non-Single Occupant Vehicles	Urbanized area	
	Total Emission Reductions	Urbanized area	

**Table 1-2: Transit Performance Measures**

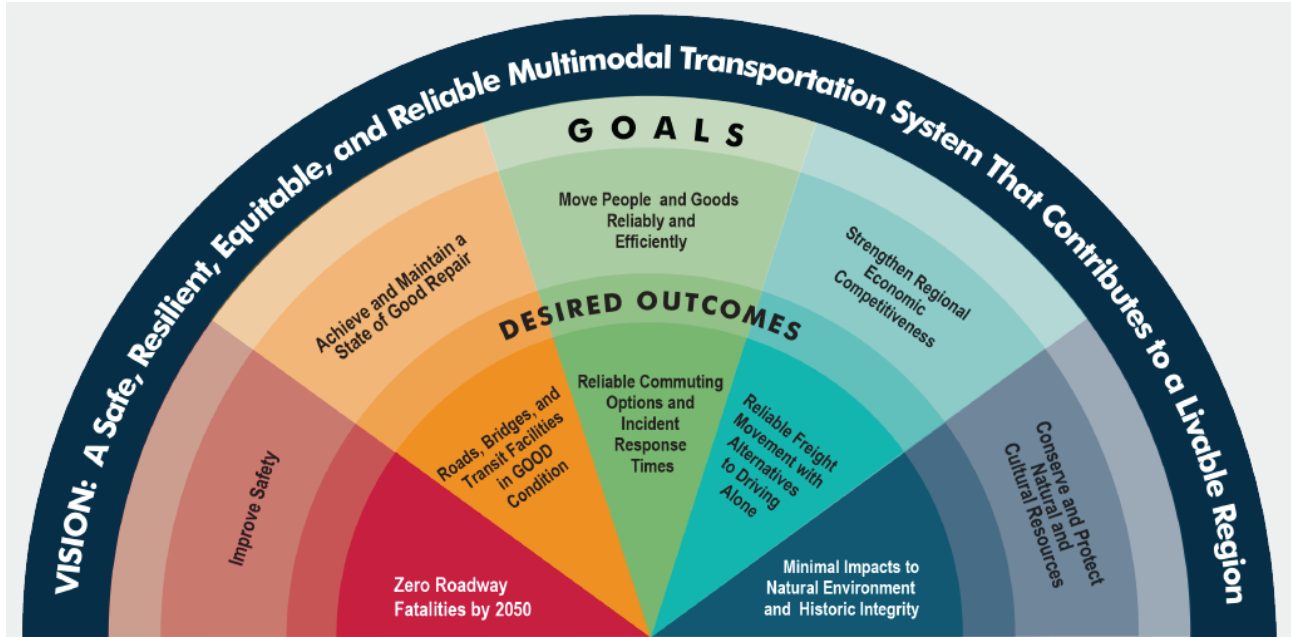

Category	Performance Measure	Applicability	Reporting Frequency
Transit Asset Management	Rolling Stock - percentage of revenue vehicles that exceed their Useful Life Benchmark	Region's transit providers who are recipients and subrecipients of federal transit assistance & HGAC	Annually
	Equipment - percentage of non-revenue service vehicles that exceed their Useful Life Benchmark		
	Facilities - percentage of facilities with a condition rating below 3 on the Transit Economic Requirements Model Scale		
	Infrastructure - percentage of rail track segments that have performance restrictions	METRO	
Transit Safety	Fatalities - total amount and rate of fatalities per total vehicle revenue miles	Region's transit providers who are recipients and subrecipients of federal transit assistance & HGAC	Annually
	Injuries - total amount and rate of injuries per total vehicle revenue miles		
	Safety Event - total amount and rate of safety events per total vehicle revenue miles		
	System Reliability (State of Good Repair) – mean distance between major mechanical failures		

The 2027 – 2030 TIP continues to build upon the goals and strategies articulated in the 2045 RTP Update. The performance measures included in the 2045 RTP Update were crafted in accordance with the Infrastructure Investment and Jobs Act (IIJA). The 2027 - 2030 TIP utilizes the progress already achieved to support decisions on transportation investment aligned with the following goals:

1. Improve Safety
2. Achieve/Maintain a State of Good Repair
3. Move People and Goods Reliably and Efficiently
4. Strengthen Regional Economic Competitiveness
5. Conserve and Protect Natural and Cultural Resources

The project selection process utilized during development of the 2027 - 2030 TIP assessed major investment-level applications based on the 2045 RTP Update’s five goals and performance measures. By incorporating 2045 RTP Update goals into short-range programming activity, the performance measures have achieved a strong correlation between the region’s vision for the future and the investments made today.

Figure 1-3: 2045 RTP Update Goals and Performance Measures

## Planning Factors

The Infrastructure Investment and Jobs Act (IIJA) requires the inclusion of several new planning factors such as consideration of intercity bus connections, transit asset management, resiliency, and federally required performance targets. H-GAC adopted performance measure targets with the performance-based planning process within the time limit given by the FHWA. As a data clearinghouse, H-GAC will provide regional data to the Texas Department of Transportation when updates become available. A comprehensive report of how H-GAC is addressing Planning Factors is in **Appendix B** of this document.

**Table 1-3: Transit Performance Measures (Planning Factors)**

Federal Requirement	Federal Provision	Issues Addressed in 2027-2030 TIP	Where Addressed
<b>Public Participation</b>	23 CFR 450.316(a)	H-GAC's Public Participation Plan (PPP) was amended in 2021 to expand the list of stakeholders to be engaged in transportation planning process.	Public Participation Plan <a href="https://www.h-gac.com/getmedia/c2c69e23-f792-4b0d-8108-cc58bd220630/h-gac-public-participation-plan.pdf">https://www.h-gac.com/getmedia/c2c69e23-f792-4b0d-8108-cc58bd220630/h-gac-public-participation-plan.pdf</a>  <a href="https://www.h-gac.com/transportation-public-outreach">https://www.h-gac.com/transportation-public-outreach</a>
<b>Memorandum of Understanding</b>	23 CFR 40.314(h)	The Memorandum of Understanding was executed between H-GAC, TxDOT and the region's transit providers. <b>Consultation and Cooperation</b>	23 CFR 450.316(b)	2027 - 2030 TIP was developed with continued consultation and cooperation with state and local officials and takes into consideration the planning activities of other agencies and organizations within the MPO region.	<ul style="list-style-type: none"> <li>• Public Participation Plan</li> <li>• Disaster Preparedness</li> <li>• Travel and Tourism (Appendix B)</li> </ul>
<b>Resiliency and Reliability</b>	23 CFR 450.206(a)(9)	2027 - 2030 TIP incorporates an assessment of the vulnerability of transportation assets to extreme weather events and identifies initiatives to improve resiliency and increase the reliability of the regional transportation system.	<ul style="list-style-type: none"> <li>• Resiliency and Reliability (Appendix B)</li> </ul>
<b>Stormwater Impacts</b>	23 CFR 450.206(a)(9)	2027 - 2030 TIP identifies roadways susceptible to impact by stormwater and includes a choice of projects and strategies aimed at mitigating these impacts.	<ul style="list-style-type: none"> <li>• Resiliency and Reliability (Appendix B)</li> </ul>
<b>Disaster Preparedness</b>	23 CFR 450.316(b)	2027 - 2030 TIP identifies local emergency management operations serving the Houston-Galveston metropolitan region, details the designated hurricane evacuation routes and the Zip-Zone map.	<ul style="list-style-type: none"> <li>• Disaster Preparedness (Appendix B)</li> </ul>
<b>Travel and Tourism</b>	23 CFR 450.206(a)(10)	2027 - 2030 TIP includes a review of opportunities to engage in recreational travel and tourism in the planning region and considers strategies to promote growth in this transportation sector.	<ul style="list-style-type: none"> <li>• Travel and Tourism</li> <li>• Public Participation Plan (Appendix B)</li> </ul>

<b>Intercity Buses</b>	23 CFR 450.216(b) & 23 CFR 324(f)(2)	2027 - 2030 TIP examines the existing intercity bus services in the region and identifies opportunities to expand these services and grow additional routes and operations.	<ul style="list-style-type: none"> <li>• Intercity Buses (Appendix B)</li> </ul>
<b>Performance Measures</b>	23 CFR 450.324(f)(3)	2027 - 2030 TIP includes the federal performance measures linked to the vision, goals, and project prioritization, establishes targets and documents the condition and performance of the transportation system.	<ul style="list-style-type: none"> <li>• Performance Measures System Evaluation Report (Appendix B)</li> </ul>

## AIR QUALITY

Air quality is influenced by many factors including topography, weather conditions, and human activities such as agriculture, industry and manufacturing, domestic consumption, and transportation. Because transportation sources contribute significantly to air pollution, the Clean Air Act (CAA) identifies actions that must be taken by states and MPOs to reduce vehicular emissions.

The U.S. Environmental Protection Agency (EPA) has designated the 8-county Houston-Galveston-Brazoria region as a nonattainment area for ground-level ozone. While transportation is not the region's sole source of ozone precursor pollutants, it does constitute the largest portion of these pollutants. Due to this, continued reductions of pollutants from on-road vehicles are an essential part of H-GAC's efforts to help the region attain clean air standards. Consequently, it is the MPO's role in air quality planning to assess the impact of planned transportation projects on air quality and to identify programs and projects that will help reduce emissions.

The 2050 RTP Update and the 2027 - 2030 TIP are required to conform to emissions limits established by the Texas Commission on Environmental Quality (TCEQ) and approved by the EPA. The CAA requires TCEQ to develop and submit a document called a State Implementation Plan (SIP) to show how the state will meet the National Ambient Air Quality Standards (NAAQS) for ozone. These limits are then applied to MPO-funded activities within the region through the conformity and TIP development processes. To this end, the 2025 – 2028 TIP relies on demonstration of air quality conformity approved on November 1, 2023 by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA). Conformity determination is made using motor vehicles emissions budgets for the ozone precursors nitrogen oxides (NOx) and volatile organic compounds (VOCs) that were developed for the Houston-Galveston-Brazoria Attainment Demonstration and Reasonable Further Progress State Implementation Plan Revision for the 2008 8-Hour Ozone Standard (SIP). Further detail on the current conformity analysis is available on H-GAC's website at <http://www.h-gac.com/transportation-conformity>.

## Public Involvement

Public involvement is a vital component of the metropolitan transportation planning process and is deeply ingrained in the project development and programming procedures of the MPO. H-GAC prioritizes community engagement throughout the transportation project development to ensure that the public is well informed about proposed projects and to provide them meaningful opportunity to shape and guide the regional transportation plans and initiatives that will affect their daily lives and environment.

By actively involving all members of the community, including those specifically identified by non-discrimination statutes and regulations, H-GAC creates an inclusive planning environment where every voice can contribute to transportation planning decision-making. When the public is meaningfully engaged at all phases of the planning process, the planning efforts are more likely to address the disparate range of questions and concerns of the broader community, and the planning products will better meet their needs and priorities. Moreover, robust public engagement early, and continuously through the planning process will often minimize conflicts and project delays that could potentially arise when the public is kept in the dark.

### FEDERAL NON-DISCRIMINATION SAFEGUARDS

In addition to being a best practice, public involvement is required by federal law. Title VI of the Civil Rights Act of 1964 prohibits discrimination against any person or group of people in the administration of any program or activity that receives federal financial assistance. Section 601 of the Title VI Statute states: “No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subject to discrimination under any program or activity receiving Federal financial assistance.”

Because several of the MPO’s programs are federally funded through the Federal Transit Administration (FTA), the Federal Highway Authority (FHWA), and the Environmental Protection Agency (EPA), Title VI-Nondiscrimination regulations apply to all the programs and activities of the agency. This includes the obligation to provide language assistance services that facilitate meaningful access for individuals who, due to their national origin, have limited ability to read, write, speak, or understand communication in English. The MPO has published a Language Access Plan (LAP) which contains the guidelines and procedures for providing language assistance to individuals with Limited English Proficiency (LEP). More information about the H-GAC’s Title VI – Nondiscrimination Program is available at: <https://www.h-gac.com/title-vi-program>.

### PUBLIC INVOLVEMENT AND THE TIP

H-GAC has developed a comprehensive public involvement strategy that prioritizes transparency, accessibility, and the broad-based engagement of the large and diverse population of the metropolitan planning region. To facilitate widespread involvement in the transportation planning process, the MPO employs a multi-channel strategy that includes the use of live-streamed/hybrid meetings, an assortment of comment submission methods (both paper and electronic, in-person and remote), accessible public engagement platforms/technics, and a strategic outreach to members of the underserved and vulnerable communities. H-GAC continuously seeks to expand its network of

individual, organizational, and community contacts in order to reach a wider audience and garner greater regional support in its metropolitan transportation planning and programming efforts. The MPO's approach for public engagement is formalized in a federally mandated Public Participation Plan (PPP).<sup>1</sup>

The PPP provides a strategic roadmap for public engagement during H-GAC's ongoing metropolitan transportation planning effort to conduct a continuing, comprehensive, and coordinated performance-based multimodal transportation planning process that encourages and promotes the safe and efficient development, management, and operation of the surface transportation systems of the Houston-Galveston metropolitan planning region which serve the mobility needs of people and freight, and fosters economic growth and development within the region, as required by federal regulation.<sup>2</sup>

As part of the process to update the Regional Transportation Plan (RTP) and the Transportation Improvement Program (TIP), H-GAC routinely conducts a robust public outreach campaign, in collaboration with the Texas Department of Transportation (TXDOT) and other local transportation planning partners. The MPO must provide opportunity for the public to review and comment on these plans.<sup>3</sup> Public meeting events are advertised through multiple information channels (community/regional newspapers and television stations, social media, email, changeable message signs, local community associations, advocate groups), and are located in venues that are reasonably accessible to the target communities. An online/hybrid meeting option is provided for stakeholders who are unable to travel to the meeting venue.

For transparency, agendas and other public meeting materials are posted online, including the public comments that are received. To meet Title VI requirements, wherever LEP individuals are known to live within a local community, language assistance is provided during the public meeting, including American Sign Language (ASL) interpreters for the hard of hearing. By creating these multi-faceted engagement mechanisms, H-GAC ensures that transportation planning is a collaborative, community-driven process that reflects the diverse needs and perspectives of the Houston-Galveston Metropolitan Planning Region.

More information about the H-GAC's Public Participation Plan and public engagement process is available at: <https://www.h-gac.com/getmedia/c2c69e23-f792-4b0d-8108-cc58bd220630/h-gac-public-participation-plan.pdf>.

# **Chapter 2**

## **Financial Plan**

---

**This page left blank intentionally.**

## Chapter 2 — Financial Plan

The 2027-2030 TIP contains cost estimates for roadway, transit, freight, bike/pedestrian, air quality, safety, and other transportation investments to be implemented in the 8-county Houston-Galveston metropolitan planning area over a four-year period. Projects include those selected by H-GAC's Transportation Policy Council using federal and state funds sub-allocated to the region, projects selected by the Texas Transportation Commission and listed in TxDOT's 2026 Unified Transportation Plan (UTP) for the years covered by the TIP, as well as projects submitted by transit agencies based on their anticipated 2027-2030 grant applications.

Current law requires that the MPO identify all sources of funding that can be reasonably assumed to be available for programming. The following matrix identifies the sources of funding information used in the 2027-2030 TIP:

Figure 2-1: Primary Sources of Funding Information

	Highway Programs	Transit Programs
Federal	2026 UTP	Recent FTA Apportionments/Discretionary Allocations
State		2026 UTP
Local/Private	Local Transportation Entities (e.g. City of Houston, HCTRA, METRO)	

### FUNDING SUMMARY

#### AVAILABLE FUNDING

The 2027-2030 TIP reflects approximately \$17.1 billion of transportation investment through federal and state sources and on regionally significant projects using local funding and project revenues (tolls).

Figure 2-2: Available & Authorized Funding

### FLEXIBLE FEDERAL/STATE FUNDS

Approximately \$0.1 billion from the federal and state funding (inclusive of required match), has been programmed by H-GAC using federal and state programs that can support a variety of transportation activities, including highway, transit and pedestrian-bicycle investments. Allocation of these flexible federal/state funds is guided by policy adopted by the Transportation Policy Council.

## KEY SOURCES OF FUNDING

### FEDERAL PROGRAMS

The 2027-2030 TIP Financial Plan relies on the estimate of federal surface transportation programs at funding levels articulated in TxDOT's 2026 Unified Transportation Program, as well as recent FTA apportionments and reasonably anticipated discretionary allocations.

The current surface transportation Act "Infrastructure Investment and Jobs Act" includes five years of funding authorizations (2022-2026) and represents an increase in funding over previous FAST ACT funding levels.

Federal funds are sub allocated for MPO decision-making through the following programs:

- Surface Transportation Block Grant Program (referred to by the existing STP-MM acronym)
- Congestion Mitigation Air Quality Program (CMAQ)
- Transportation Alternatives Set-Aside (TASA – previously referred to as the Transportation Alternatives Program or "TAP")

Additional federal funds are administered by the state through statewide programs (e.g. Safety, Bridge, etc.), TxDOT District sub-allocations (Metropolitan Mobility [Category 2], Preventive Maintenance, District Discretionary) and discretionary awards made by the Texas Transportation Commission.

### STATE PROGRAMS

The 2027-2030 TIP Financial Plan includes state funding from a variety of revenue sources and funding mechanisms, including voter-approved sources of state transportation funding such as Propositions 1 and 7. This funding is allocated through the various TxDOT funding categories.

H-GAC has developed reasonable estimates of funding available under state programs using anticipated dedication levels and historical funding allocations. These amounts are detailed in Table 2-1.

### PUBLIC-PRIVATE PARTNERSHIPS (PPPs)

Legislation passed by the 82nd Texas Legislature granted the Transportation Commission/TxDOT ("the State") authority to enter into public-private partnerships under comprehensive development agreements (CDAs). Through CDA, the State may contract with another entity to deliver, operate and/or maintain any of the projects specified in the authorizing legislation. Within the H-GAC region, these projects are:

- SH 99/Grand Parkway
- SH 249
- US 290 Hempstead Managed Lanes

Use of PPP/CDA funding in the 2027-2030 TIP meets the federal “reasonably available” requirement as the State has both the authority to utilize CDAs and has a history of successful project delivery through these agreements.

## LOCAL PROGRAMS

The 2027-2030 TIP continues a trend toward greater reliance upon local sources of funding to make needed transportation investments for all modes. These local sources include local option sales taxes, toll revenues and general appropriations.

## FEDERAL-AID HIGHWAY/PUBLIC TRANSPORTATION OPERATIONS AND MAINTENANCE

The 2027-2030 TIP Financial Plan is required to document that sufficient revenues are available to adequately operate and maintain federal-aid highways (as defined by 23 U.S.C. 101(a)(5)) and public transportation (as defined by title 49 U.S.C. Chapter 53).

## FEDERAL-AID HIGHWAYS

The 2026 UTP documents TxDOT’s planned expenditures to adequately operate and maintain the state highway system. These costs and required revenues are presented in aggregate at the statewide level and reflect TXDOT’s maintenance policies. Some of these expenditures are reflected in the 2027-2030 TIP under Chapter 3 – “Highway Project Listing” and “Statewide Programs” of this document.

## PUBLIC TRANSPORTATION

Adequate operations and maintenance of transit properties is supported through the planned projects shown in Chapter 4 – “Transit Project Listing” of this document, and in the Metropolitan Transit Authority of Harris County (METRO) budget.

- While METRO uses some federal grant funds to support maintenance activities and service-specific operations, most of the funding is from local sources (farebox, sales tax) which is not reflected in the 2027-2030 TIP. Additional detail is available on METRO’s website at: <http://ridemetro.org/Pages/Finance.aspx>
- Other transit providers in the region rely upon federal funds and local matching funds to adequately operate and maintain their assets, which is reflected in the 2027-2030 TIP.

## FINANCIAL SUMMARIES

The financial tables that follow are provided to demonstrate fiscal constraint of the 2027-2030 TIP and to communicate expected levels of investment to transportation partners and the public. A brief description of the table contents is given below.

- Table 2.1 – “Highway Financial Summary Table.”  
*Contains a detailed summary of the 2027-2030 TIP to demonstrate fiscal constraint.*
  
- Table 2.2 – “Transit Financial Summary Table.”  
*Contains a detailed summary of the 2027-2030 TIP to demonstrate fiscal constraint*

## Chapter 3 — Highway Project Listing

---

### FEDERAL, STATE, AND LOCAL REGIONALLY SIGNIFICANT PROJECTS

This chapter of the 2027-2030 TIP lists highway projects for which federal action is sought and those state and locally (including private) funded highway projects considered to be regionally significant. Federal and state funding programs are organized by TxDOT into the twelve (12) categories shown in the Unified Transportation Plan (UTP). A complete description of these funding categories, an explanation of the selection process for each category, and applicable funding requirements and restrictions is provided in Appendix E of this document.

In general, these programs support projects such as:

- New roadways
- Road widening
- Major roadway reconstruction
- Major intersection improvements, including interchanges
- Access Management
- Transportation Operations/ITS
- Regional Air Quality programs
- Pedestrian/Bicycle facilities
- Transit and Freight projects funded w/flexible funds

### PROJECT LISTING

The project listing in this chapter is provided in the format required by the Texas Department of Transportation (TxDOT) for inclusion in the Statewide Transportation Improvement Program (STIP). The listing is organized by TxDOT District (Beaumont and Houston), and fiscal year. Under each fiscal year, projects are sorted by highway name, and identification number (CSJ Number or MPOID).

The diagram below is a guide on how to interpret the tables and indicates where to find key project information within the listings.

Figure 3-1: Highway Project Listing Legend

Project Location		Project Number	Fiscal Year	Phase	Implementing Agency	YOE COST

Indirects	\$1,778,000			Cat: -	\$0	\$0
Bond Financing	\$0			Cat: -	\$0	\$0
Total Project Cost:	\$43,393,000	Funding by Share:			\$18,000,000	\$7,000,000

## FISCAL YEAR

Consistent with the State fiscal year, fiscal years in the 2025-2028 TIP begins on September 1st and continue through August 31st of the following year. Applying this rule to the 2027-2030 TIP, fiscal year 2027 begins September 1, 2026 and ends August 31, 2027.

Fiscal years are used in the TIP project listing to show the year in which funds are committed to a particular project or project phase. All projects in 2027-2030 TIP are fiscally constrained and have identified funding commitments.

## TOTAL PROJECT COST

In addition to the funding programmed in the 2027-2030 TIP, an estimate of the total project cost is provided for each project. The total project cost estimate is provided to communicate the overall investment being made to the transportation system and may reflect work that has already occurred or that may occur after the time period covered by the TIP.

The total project cost estimate reflects all facets of the referenced project, including design and engineering costs, needed acquisition of rights-of-way or utility relocations, and construction contingencies.

## YEAR OF EXPENDITURE (YOE)

Funding and costs for all projects is shown as nominal year of expenditure (YOE) dollars as opposed to current dollars or indexed dollars (such as “2024 dollars”).

## STATEWIDE PROGRAMS

The project listing also includes a list of statewide programs – often referred to as “Grouped CSJs.” These programs represent investments in categories of work (such as bridge replacement, safety, or landscaping) where individual projects are not considered to be regionally significant. Grouped CSJ projects are exempt from conformity/regional emissions analysis and typically require limited environmental review documentation (categorical exclusion).

These work types are typically programmed by TxDOT and are fiscally constrained at the statewide level. A current listing of individual projects under these Statewide Programs is provided for information in **Appendix J**.

## Chapter 4 — Transit Project Listing

---

The 2027-2030 TIP details the program of projects from federal, state, and local sources for the public transportation providers within the Houston region. A complete description of federal transit funding programs is provided in Appendix E.

### PUBLIC TRANSPORTATION OVERVIEW

Within the Houston region, transportation services are provided by private for-profit, private nonprofit, and public entities such as regional transportation authorities, small urban providers, and rural providers. These entities coordinate the provision of transportation services to the general public in the Houston, Conroe--The Woodlands, Lake Jackson-Angleton, and Texas City Urbanized Areas (UZA) as well as to residents of the region's nonurbanized areas.

### SERVICE PROVIDERS<sup>1</sup>

Public service providers in the Houston-Galveston metropolitan region that provide fixed route, demand response, and/or paratransit services include:

A. **The Brazos Transit District** (“The District”)

As a public transportation provider, The District operates demand response, paratransit, and fixed route services in 21 counties within central and eastern Texas. However, in the Houston-Galveston metropolitan planning area, The District provides mostly demand response service in rural areas of Montgomery County and limited fixed route, demand response and ADA services to residents in certain towns in Liberty County.

The District receives funding from the Texas Department of Transportation and Federal Transit Administration.

B. **Colorado Valley Transit District** (“CVTD”)

Colorado Valley Transit (CVTD) is a Rural Transit District and provides demand response and limited fixed route transit services within Austin, Colorado, Waller, and Wharton Counties. CVTD receives funding from the Federal Transportation Administration and from the Texas Department of Transportation.

---

<sup>1</sup> The District, CVTD, Connect Transit and Island Transit receive FTA 5311 “Rural” program funds to support services provided within the 8-county H-GAC region. Section 5311 funds are programmed by TxDOT Public Transportation Division (PTN) directly in the Statewide TIP and are not shown in the H-GAC 2027-2030 TIP.

C. **Gulf Coast Transit District**

The Gulf Coast Transit District (GCTD) provides demand response service in Galveston and Brazoria Counties. Historically, GCTD offered local fixed route service in the Galveston-Texas City Urbanized Area in Galveston County and the Lake Jackson-Angleton Urbanized Area in Brazoria County; in 2024 these services were all converted to microtransit. GCTD also operates Park and Ride service between League City and Galveston Island.

D. **Island Transit**

Island Transit provides fixed-route transit, paratransit and trolley service within the City of Galveston. The Galveston trolley operates on weekends and has eight stops that connect the City of Galveston downtown region, Seawall Boulevard, and the Historic Strand. Island Traffic also offers paratransit service to those that qualify.

E. **Metropolitan Transit Authority of Harris County** (METRO)

METRO is the largest transit provider in the Houston-Galveston metropolitan region and offers numerous transportation solutions to the travelling public, including traditional fixed-route bus service, three light rail lines, over 100 miles of HOV/HOT lanes along six major corridors, 28 park and ride lots, 24 transit centers, paratransit service known as METROLift, a demand response service known as curb2curb, and Rideshare programs, including vanpool operations.

In addition to receiving funding from the Houston Urbanized Area allocations, METRO collects a 1% sales tax within its service area, which makes it the only transit provider in the region with its own dedicated funding source.

F. **Harris County Transit**

Developed through the Community and Economic Development department of Harris County, Harris County Transit operates service in those areas within Harris County that are not served by METRO. Harris County Transit operates the following coordinated services: fixed route bus service in Eastern Harris County, the RIDES taxi voucher, shared ride and mobility management program, and a medical transportation program.

Harris County receives funding from the Houston Urbanized Area allocations from the Federal Transit Administration.

G. **Fort Bend Transit**<sup>2</sup>

Fort Bend Transit serves as a Rural Transit District for Fort Bend County and operates demand response service within Fort Bend County. The transit service however also provides Park and Ride service to Harris County destinations including the Texas Medical Center, Greenway Plaza and Downtown Houston.

Portions of Fort Bend Transit are located within the Houston Urbanized Area; Fort Bend Transit also receives Federal and state funding to support its rural transit services.

H. **Conroe Connection Transit:**

Conroe Connection Transit provides public transportation service within the Conroe-The Woodlands urbanized area. Conroe Connection Transit provides fixed bus routes that connect residents to housing, jobs, schools, social services, medical offices, and shopping throughout the city. This service is complemented by ADA service that operates within 3/4 miles of the fixed route.

Conroe Connection also provides bus service from the Conroe Park and Ride facility to Downtown Houston, Midtown, Texas Medical Center, and the VA Hospital. This service was formerly operated by METRO on Conroe's behalf but is now operated in-house.

I. **The Woodlands Township**

The Woodlands Township is an FTA grant recipient within the Conroe-The Woodlands urbanized area and provides transit services which include a park and ride operation and a fare-free urban circulator trolley service.

- **Park and Ride:** The Woodlands Express Park and ride service provides round-trip transportation from the Woodlands to employment centers in the City of Houston, including the Texas Medical Center, Greenway Plaza, the Energy Corridor and Downtown Houston. Service is provided Monday through Friday, excluding holidays. and the service is operated by the Woodlands Township through a commuter bus operating contract.
- **Trolley Circulator:** The Woodlands Township also operates a fare-free urban circulator trolley service which provides transportation to business locations and residences within The Woodlands Town Center. The trolley service connects Hughes Landing, the Woodlands Mall, Market Street, and Hughes Landing with businesses and residences in the Town Center. The service operates daily excepting certain holidays and is complemented by ADA paratransit service.

---

<sup>2</sup> Fort Bend County receives FTA 5311 "Rural" program funds to support services provided within the 8-county H-GAC region. Section 5311 funds are programmed by TxDOT Public Transportation Division (PTN) directly in the Statewide TIP and are not shown in the H-GAC 2027-2030 TIP.

## PROJECT LISTING

The project listing in this chapter is provided in the format required by the Texas Department of Transportation (TxDOT) for inclusion in the Statewide Transportation Improvement Program (STIP). The listing is organized by TxDOT District (Beaumont and Houston), and fiscal year. Under each fiscal year, projects are sorted by sponsor, fiscal year, and identification number (CSJ Number or MPOID).

The diagram below is a guide on how to interpret the tables and indicates where to find key project information within the listings.

Figure 4-1: Transit Project Listing Legend

The diagram illustrates a sample transit project listing table with several key fields highlighted by red circles and labeled with arrows:

- MPO Project Number:** Points to the MPOID field (18841).
- Implementing Agency:** Points to the Project Sponsor field (FORT BEND COUNTY PUBLIC).
- Funding Source:** Points to the Federal Funding Category field (FTA 510).
- Project Description:** Points to the Brief Project Description field (OPERATING ASSISTANCE TO TRANSIT AGENCIES (NOTE: FTA FUNDS WILL BE USED FOR CONTRACT OF EXISTING TRANSPORTATION SERVICES (NO...)).
- TIP Fiscal:** Points to the Fiscal Year field (2026).

## FISCAL YEAR

Consistent with the State fiscal year, fiscal years in the 2025-2028 TIP begins on September 1st and continue through August 31st of the following year. Applying this rule to the 2027-2030 TIP, fiscal year 2027 begins September 1, 2026, and ends August 31, 2027.

Fiscal years are used in the TIP project listing to show the year in which funds are committed to a particular project or project phase. All projects in 2027-2030 TIP are fiscally constrained and have identified funding commitments.

## **TOTAL PROJECT COST**

In addition to the funding programmed in the 2027-2030 TIP, an estimate of the total project cost is provided for each project. The total project cost estimate is provided to communicate the overall investment being made to the transportation system and may reflect work that has already occurred or that may occur after the time period covered by the TIP.

The total project cost estimate reflects all facets of the referenced project, including design and engineering costs, needed acquisition of rights-of-way or utility relocations, and construction contingencies.

## **YEAR OF EXPENDITURE (YOE)**

Funding and costs for all projects is shown as nominal year of expenditure (YOE) dollars as opposed to current dollars or indexed dollars (such as “2024 dollars”).

**This page left blank intentionally.**
