

8. AMENDMENTS TO THE 2025-2028 TRANSPORTATION IMPROVEMENT PROGRAM AND THE 2045 REGIONAL TRANSPORTATION PLAN

### BACKGROUND

---

The 2025-2028 Transportation Improvement Program (TIP) is a four-year capital improvements program for transportation projects. Under federal rules, all federally assisted projects must be included in the TIP to be eligible for funding. In addition, federal rules require that regionally significant local projects must also be included in the TIP.

The 2045 Regional Transportation Plan (RTP) is a long-range plan that prioritizes spending on regional transportation projects including short and long-range strategies to ensure the transportation network is safe and efficient. Updated every four years, the RTP outlines a fiscally constrained transportation investment program that is based on the unique needs and characteristics of the MPO region.

Amendments to the TIP and RTP are brought to the Transportation Policy Council for consideration monthly and amended in accordance with the H-GAC Public Participation Plan.

### CURRENT SITUATION

---

A summary of the proposed revisions to the 2025-2028 Transportation Improvement Program is included below.

- Update the City of Conroe's FY 2021-2026 Federal Transit Administration Sections 5307, 5310 and 5339 funded Program of Projects for administration, capital, planning, and operations expenditures. Program twenty-three new apportionments and adjust the funding on eighteen existing projects based on the finalized allocations. The City is requesting Transportation Development Credits in lieu of matching funds, where applicable, to leverage the federal funds.
- Add \$63.7M of federal Surface Transportation Block Grant funding, with a 20% local match, to two segments of the City of Pearland's Mykawa Road widening projects (MPO IDs 7602, 17082) due to increased cost estimates since the original programming in 2014 and 2015.
- Program two U.S. Department of Transportation RAISE discretionary grant program awards made to the TxDOT Houston District to construct intermodal facilities in Angleton (MPO ID 19367; \$7.0M) and in Freeport (MPO ID 19368; \$15.2M).
- Program the City of Mont Belvieu's Traffic Management Center construct project (MPO ID 19361) selected in the Project Selection Process in FY 2027 with \$2.8M of federal Congestion Mitigation/Air Quality and local matching funds.
- Program the engineering phase of Montgomery County's SH 99 frontage road and turn lane construct project (MPO ID 19352) selected in the Project Selection Process in FY 2026 with \$750K of state Pass-Through Finance funds.

### Additional Federal Transit Administration Formula Funded Amendments

- Update METRO's FY 2024 Federal Transit Administration (FTA) Sections 5307, 5310, 5337 and 5339 funded Program of Projects in FY 2025 (MPO IDs 19102-19110) applying Transportation Development Credits (TDCs) in lieu of matching funds to leverage the federal funds.
- Program two new Harris County Housing & Community Development's FY 2024 FTA Section 5307 funded projects in FY 2025 (MPO IDs 19454,19455) for transit operations and capital expensed using TDCs in lieu of matching funds to leverage the federal funds where applicable.
- Update Fort Bend Public Transportation's FY 2024-FY 2028 FTA Sections 5307 and 5310 in FY 2025 (MPO IDs 18836, 18926, 18930, 18342, 18830, 18831, 18832, 18840) applying TDCs in lieu of matching funds.
- Update The Woodlands Township's FY 2020-FY 2025 FTA Section 5307 Program of Projects in FYs 2025-2028 (MPO IDs 18636, 18640, 19456-19472) applying TDCs in lieu of matching funds.
- Update the METRO's Missouri City Park and Ride project (MPO IDs 18167, 18924) with modifications of the facility, limits, scope and funding.

RE: FY21-26, TIP Amendments/New Items, Sections 5307/5310/5339 Formula Funds

To Whom It May Concern:

This letter is a request from the City of Conroe for additions and/or revisions to a select set of programmed grants projects in the 2025-2028 Transportation Improvement Program (TIP). The revisions include adjustments to the local matching sources and amounts, due to the City of Conroe requesting Transportation Development Credits (TDCs) and finalized grant amounts. The new grant projects program additional formula grant funds for recent FYs and for future FYs.

Please refer to the tables in Attachment 1. The tables contain updated / appropriate TIP entry information. Additionally, the City of Conroe will submit TDC applications for all relevant projects in the amounts indicated in the attached table.

If you have any questions regarding this request, please contact Seira Greckel at [sagreckel@cityofconroe.org](mailto:sagreckel@cityofconroe.org) or (936) 522-3535 and/or Jonathan Brooks at [jbrooks@thegoodmancorp.com](mailto:jbrooks@thegoodmancorp.com) or (806) 440-2462.

### **RE: Cost Increase Request – Mykawa Road Widening (CSJ 0912–31–319, 0912–72–564)**

Dear Ms. Isbell & Ms. Owens,

The City of Pearland respectfully request an additional participation from the Houston – Galveston Area Council (H–GAC) in the amount of **\$63,717,197** for design, right–of–way acquisition, and construction.

Mykawa Road Widening Project was selected in May 2015 by H–GAC to receive funding from the Federal and State transportation funds through the Transportation Improvement Program (TIP) in the amount of \$34,348,000.

Since the approval of the Advanced Funding Agreement (AFA), the project has experienced delays that have impacted the project schedule. The major delays are as follows:

- Amendment to the original AFA to separate the funding for construction and ROW acquisition into the respective counties (i.e. Brazoria and Harris) that Mykawa Road traverse.
- Changes to the definition of the Environmental Protection Agency (EPA)'s waters of the United States and its authority to regulate wetland due to United States Supreme Court decision in Sackett vs EPA.
- Changes to Harris County Flood Control District's (HCFCD) Clear Creek Federal Flood Risk Management Project – Clear Creek channel conveyance improvements.
- Changes to stormwater regulations and design standards due to ATLAS–14.
- Material cost escalation due to COVID–19 pandemic and inflation.

The current project costs are significantly higher than estimated during the 2015 TIP Call for Projects. The requested of \$63,717,197 includes increased cost for the following:

- Design – \$1,630,878
- Right-of-Way acquisition – \$3,801,600
- Construction – \$58,284,719

Below is the breakdown of the estimated project costs from the approved original AFA and the current estimated project costs.

	Original (estimated)		Federal (estimated)		State (estimated)		Local (estimated)

**Re:** Additional Funding Request Mykawa Road Widening Project  
(CSJ 0912-00-543, 0912-31-319, 0912-72-564)

This memo provides additional context regarding the City of Pearland's additional funding request for the Mykawa Road Widening Project, which was approved for funding as part of HGAC's 2015-2018 Transportation Improvement Program (TIP). Several factors related to multi-jurisdictional coordination, have influenced this project's delivery, not uncommon when coordinating a project of this magnitude. The following timeline is provided to further explain the project's status and support the request for additional funding:

- In 2015, the Houston Galveston Area Council (H-GAC) Transportation Policy Council (TPC) approved the City's Mykawa Road Expansion application for funding in the 2015-2018 Transportation Improvement Program (TIP). The project was included in the 2015-2019 CIP Budget, with funding for the design in FY 2017 and construction scheduled in FY 2018. Subsequently, staff requested the Texas Department of Transportation (TxDOT) prepare the project's Advanced Funding Agreement (AFA).
- In May 2017 (Resolution No. R2017-94), the City entered into an AFA with TxDOT to share the design, right-of-way, and construction costs for all authorized expenditures on an 80/20% basis up to the maximum amount of \$31,641,226.00 per the AFA funding agreement. Per the AFA, the City is responsible for the performance of the architectural and engineering services, obtaining Environmental clearance (Finding of No Significant Impact) and mitigation/remediation of any environmental issues, and utility relocation. TxDOT will be responsible for advertising for construction, receiving and tabulating bids, and awarding and administering the construction contract. The City will be responsible for 20% of the construction costs up to the agreed AFA amount of \$8,027,580.00.
- On March 26, 2018 (Resolution No. R2018-56), the City awarded a professional services contract to Lockwood, Andrew & Newnam, Inc. (LAN) to prepare Plans, Specifications, and Estimates (PS&E) for the Mykawa Road Widening Project from Farm to Market 518 (FM 518) to the westbound frontage road of Beltway 8 south in the amount of \$2,987,697.11.
- May 7, 2018 – Notice to Proceed for design was issued to LAN. Subsequently, the Environmental clearance activities began thereafter.
- December 19, 2018 – stakeholders meeting with businesses along the project corridor and City of Brookside Village official was conducted at City of Pearland council chamber.

- April 23, 2019, a public meeting was held at Pearland ISD administration building to present the proposed alignment and schematic for the project to the public.
- October 19, 2019, TxDOT approved the proposed alignment and schematic for the project.
- December 23, 2019 – 30% design plan was submitted to the City and TxDOT for review.
- March 10, 2020 – franchise utilities coordination meeting was held at TxDOT Houston District office with all existing franchise utilities along the project corridor.
- May 2020 – Parcel mapping for right-of-way acquisition began.
- June 2020 – LAN submitted the 60% design plan to the City and TxDOT for review. Harris County Flood Control District (HCFCD) informed the City that they have begun the preliminary engineering for the Clear Creek Federal Project and proposed to replace the existing Mykawa Road bridge over Clear Creek. HCFCD requested the City to include replacing the existing Mykawa Road bridge over Clear Creek as part of the Mykawa Road Widening project with HCFCD funding this design and construction. In the spirit of cooperation, the City tried to include the design and construction of replacing existing Mykawa Road bridge over Clear Creek
- April 2022, the City, TxDOT, LAN, and HCFCD decided that design and construction of the existing Mykawa Road bridge over Clear Creek replacement was not feasible due to the unavailability of the final hydraulic of Clear Creek and project schedule of HCFCD's Clear Creek Federal project. Thus, resulting in a 24 months delay to the Mykawa Road Widening project. Also, the National Highway Association (NHWA) granted the Project Level Conformity to the Mykawa Road Widening project clearing the way for the Notice Affording Opportunity for Public Hearing (NAOPH) to be held as the last step before TxDOT can grant the Environmental clearance to the project.
- June 13, 2023 – the City amended its professional engineering services contract with LAN to include the design of two (2) pedestrian bridges over Hickory Slough and Clear Creek since TxDOT required a 10-foot wide shared use path for the project. The existing Mykawa Road bridges over Hickory Slough and Clear Creek did not have enough width to accommodate the required 10-foot wide shared use path.
- August 31, 2023 – TxDOT granted the Environmental clearance to the project clearing the way for the City to begin right-of-way acquisition.
- November 30, 2023 – TxDOT approved the right-of-way map for the project, and LAN began the right-of-way acquisition process.
- January 29, 2024 – HCFCD informed the City that the proposed storm detention and mitigation ponds at Clear Creek will need to be relocated further South since the current proposed location would be in conflict their Clear Creek Federal project.
- May 14, 2024 – the City and TxDOT amended the original AFA to split the right-of-way acquisition and construction costs to the respective counties, i.e Brazoria and Harris, that this

project spanned and created new CSJ numbers to accept the right-of-way acquisition and construction funding for the respective counties.

- January 13, 2025 – the City amended its professional engineering services contract with LAN to performed drainage analysis using ATLAS-14 criterion and hydraulic model as required by BDD4, field survey for relocating the proposed storm detention and mitigation ponds at Clear Creek south outside of HCFCD's Clear Creek Federal project; design of proposed storm detention and mitigation ponds at Clear Creek at new location, relocation of existing sanitary force main at the proposed storm detention pond at NE corner of Mykawa/McHard intersection, and full intersection design at Mykawa/McHard.

Please feel free to contact me at 281-652-1641 or [lwingate@pearlandtx.gov](mailto:lwingate@pearlandtx.gov) to further discuss the request for additional funds.

**RE: Request for Amendment of MPOIDs 18924, 18167 and 18763**

Dear Ms. Isbell and Owens:

METRO requests an amendment to MPOID 18924 to support the construction of our new park and ride garage located in Missouri City near the intersection of the Fort Bend Parkway and State Highway 6. This amendment will also add a small amount of additional funding for the Burnett Plaza Elevator and our new Maintenance of Way facility, both located in the northern part of downtown Houston near METRO's Red Line.

The project "Remarks" section notes the existing funding previously obligated for the West Bellfort Park and Ride which will now be budgeted for the Missouri City Park and Ride consistent with the concurrence given by Transportation Policy Council at its October 25, 2024, meeting.

The requested amendments to MPOIDs 18167 and 18763 correct the local contribution amount for this funding. Please contact me should you desire any additional information.

Sincerely,
