Continuation of Public Participation for COG Method of Distribution of Hurricane Harvey CDBG Disaster Recovery Funds – Summary Form

The Houston-Galveston Area Council (H-GAC) Board of Directors approved a Method of Distribution (MOD) for approximately \$241 million in Harvey recovery funds to support infrastructure projects and home buyouts/acquisitions outside the City of Houston and Harris County. The funds are part of the first round of Community Development Block Grant (CDBG) funds provided by the U.S Department of Housing and Urban Development to support long-term recovery in Texas. The MOD underwent a rigorous public input process that went above and beyond the requirements of the State of Texas General Land Office. Specific information, and city and county level allocations, can be viewed at www.h-gac.com/harvey/cdbg-disaster-funds.

The Texas General Land Office has reviewed the H-GAC Board-approved MOD and requested that H-GAC seek additional input on the Council of Government (COG) Method of Distribution for 2017 Hurricane Harvey CDBG-Disaster Recovery Allocation Summary Form (Summary Form) that accompanies the allocations. These forms focus on guidance supporting long-term recovery, affirmatively furthering fair housing, addressing unmet housing needs, and determining how economic revitalization and infrastructure activities contribute to long-term recovery.

H-GAC is continuing our Citizen Participation process by seeking input to help inform guidance we will make available to local governments as they plan and prioritize use of their allocated CDBG Disaster Recovery infrastructure and home buyout/ acquisition funds.

We are especially seeking input to the elements found on pages 5-8 of the Summary Form. We are not seeking comments on the H-GAC Board-approved allocation formula.

Citizen and Non-Governmental Organization Outreach

H-GAC encourages citizens, with particular emphasis on persons of low-to-moderate income and other vulnerable populations to submit their views regarding community development and housing needs resulting from the disaster(s):

The Houston-Galveston Area Council (H-GAC) plans to conduct citizen and non-governmental outreach via: a) broad announcement of opportunities for public comment, including one scheduled meeting; and b) directly communicating with faith-based organizations, housing and protected classes advocacy groups, community development organizations and other non-profits.

- a) H-GAC will implement a media campaign using local English and non-English newspapers to inform and invite the public to one public meeting and to participate in the public comment period. H-GAC will purchase public notices in advance of the public meeting in relevant Papers of General Circulation for all 12 eligible counties and identified non-English newspapers. A list of newspapers appears below. H-GAC will also provide press releases to all media outlets in the 13-county service area. H-GAC will post a notice of the public meeting and public comment period on the H-GAC website and in the H-GAC Community and Environmental Planning department newsletter. H-GAC will submit the notice to Texas General Land Office (GLO) representatives to post on the GLO website.

H-GAC will accept written comments on the Council of Government (COG) Method of Distribution for 2017 Hurricane Harvey CDBG-Disaster Recovery Allocation Summary Form (Summary Form) beginning at noon on Thursday, August 30, 2018, through noon Friday, September 14, 2018. A hard copy of the Summary Form will be made available for public inspection and comment at the H-GAC reception area at 3555 Timmons, Suite 120, Houston, TX 77027 throughout the comment period. H-GAC will also accept public comments on the Summary Form via the project website during the same timeframe.

Public Meeting:

1. Date – September 10, 2018, 10 a.m. – 12:00 p.m. Location – Houston-Galveston Area Council Offices, 3555 Timmons Lane (2nd Floor Conference Room), Houston, TX, 77027.
- b) H-GAC will communicate with faith-based organizations, housing and protected classes advocacy groups, community development organizations. A detailed spreadsheet labeled “Public Participation Plan Database” is attached. Direct contact will be made by e-mail. H-GAC will encourage the above-referenced entities to broadly disseminate the announcements at gatherings and meetings, newsletters, email lists and bulletin board postings.
 - c) H-GAC will submit all required documentation to the GLO as verification that the activities outlined in this plan were carried out.

Newspapers of General Circulation and other identified non-English newspapers:

Anahuac Progress	Houston Chronicle
Bay City Tribune	Huntsville Item
Brazoria Facts	La Informacion
Colorado County Citizen	Sealy News
Conroe Courier	The Liberty County Vindicator
Fort Bend Herald	Vietnam Moi News
Forward Times	Waller Times
Galveston County News	Wharton Journal Spectator

The following local organizations that provide services or housing for low-to-moderate income persons, including but not limited to, the local Public Housing Authorities, the local Health and Human Services offices, the local mental health and MHMR offices, Community Development Corporations and Community Housing Development Organizations, will receive written notification concerning the date, time, location and topics to be covered at the method of distribution public hearings:

As mentioned in item (b) under the Citizen and Non-Governmental Organization Outreach section of this document, H-GAC will communicate with elected officials, city administrators, community development departments and housing authorities, local Health and Human Services offices, local mental health and MHMR offices, and representatives from the Local Union of Latin American Citizens (LULAC), Mexican American Legal Defense and Education Fund (MALDEF), the National Association for the Advancement of Colored People (NAACP), Houston Hispanic Chamber of Commerce, African American Chamber of Commerce, and the Asian Chamber of Commerce and Disability Policy Consortium.

A detailed spreadsheet labeled "Public Participation Plan Database" is attached.

H-GAC acknowledges that language differences may play a role in effectively reaching non-English speaking residents. H-GAC will address these potential barriers by providing notification efforts as follows:

H-GAC will employ American Sign Language, Spanish and Vietnamese interpreters at the public meeting. H-GAC will post notices of the public comment period and public meeting in non-English newspapers.

H-GAC Seeks Public Input on Use of Harvey Infrastructure and Home Buyout Funds

The Houston-Galveston Area Council (H-GAC) Board of Directors approved a Method of Distribution (MOD) for approximately \$241 million in Harvey recovery funds to support infrastructure projects and home buyouts/acquisitions outside the City of Houston and Harris County. The funds are part of the first round of Community Development Block Grant (CDBG) funds provided by the U.S Department of Housing and Urban Development to support long-term recovery in Texas. The MOD underwent a rigorous public input process that went above and beyond the requirements of the State of Texas General Land Office. Specific information, and city and county level allocations, can be viewed below.

The Texas General Land Office has reviewed the H-GAC Board-approved MOD and requested that H-GAC seek additional input on the [Council of Government \(COG\) Method of Distribution for 2017 Hurricane Harvey CDBG-Disaster Recovery Allocation Summary Form \(Summary Form\)](#) that accompanies the allocations. These forms focus on guidance supporting long-term recovery, affirmatively furthering fair housing, addressing unmet housing needs, and determining how economic revitalization and infrastructure activities contribute to long-term recovery.

H-GAC is continuing our Citizen Participation process by seeking input to help inform guidance we will make available to local governments as they plan and prioritize use of their allocated CDBG Disaster Recovery infrastructure and home buyout/ acquisition funds.

We are especially seeking input to the elements found on pages 5-8 of the Summary Form. We are not seeking comments on the H-GAC Board-approved allocation formula.

Public Meeting and Public Input Period

H-GAC will host a public meeting as part of continuing the Citizen Participation process. The meeting will include a brief presentation by H-GAC staff and opportunity to provide written and oral comments. **The public meeting is scheduled from 10 a.m. to noon Monday, September 10, at H-GAC Conference Room A, Second Floor, 3555 Timmons Lane, Houston, Texas.**

The public comment period regarding the Council of Government (COG) Method of Distribution for 2017 Hurricane Harvey CDBG-Disaster Recovery Allocation Summary Form opens at noon Thursday, August 30, 2018, and will close at noon, Friday, September 14, 2018. Comments will be accepted online, by e-mail, and by mail. Comments may also be hand-delivered to H-GAC.

How to Submit Your Comments

H-GAC will accept written comments from noon August 30, 2018, through noon, September 14, 2018.

Hurricane Harvey CDBG Method of Distribution of Funds Development

The Houston-Galveston Area Council Board of Directors, on July 17, 2018, approved the final Method of Distribution (MOD) for the allocation of Community Development Block Grant (CDBG) Disaster Recovery funding to counties and local jurisdictions for buyout/acquisition and infrastructure projects associated with Hurricane Harvey.

The Texas General Land Office allocated approximately \$111 million of recovery funds to the H-GAC region outside of the City of Houston and Harris County for a local buyout/acquisition program and approximately \$130 million for local infrastructure. The General Land Office required that H-GAC submit a Method of Distribution for the funding to the following counties in the H-GAC service area: Austin, Brazoria, Chambers, Colorado, Fort Bend, Galveston, Liberty, Matagorda, Montgomery, Waller, Walker, and Wharton.

The Method of Distribution includes the amount of funding available to eligible jurisdictions (counties and cities) for Hurricane Harvey-related buyouts/acquisitions and infrastructure projects only. Harris County and the City of Houston are not included in this allocation and will receive funding directly from the General Land Office.

Overview of Preliminary Allocation Process

As presented in the State of Texas Plan for Disaster Recovery: Hurricane Harvey - Round 1 dated April 6, 2018 and prepared by the Texas General Land Office Community Development & Revitalization Program, H-GAC is responsible for developing a Method of Distribution to allocate HUD CDBG-DR funds for housing buyouts/acquisitions and infrastructure for cities and counties within the H-GAC service area outside of the City of

Houston and Harris County. Important aspects of the allocation process include a total of \$110,953,432 for housing buyouts/acquisitions and \$129,751,767 for infrastructure. The primary funding categories are further divided into two subsets:

1. funding for the area defined by HUD as most impacted; and,
2. the remainder of the impacted area

View the State Action Plan.

Following a series of public planning meetings at H-GAC and in Wharton, Galveston, and Liberty counties, and an input session with local advocacy groups, H-GAC staff considered public input and revised the draft Method of Distribution. H-GAC presented the draft Method of Distribution to the Board of Directors on June 19, 2018. The Board of Directors authorized this draft for public comment.

Public Comments

The Method of Distribution public comment period was open from June 21, 2018, to July 6, 2018. Public comment period closed at 4 p.m. July 6, 2018.

Summary of Public Comments

Final H-GAC Board of Directors Approval

H-GAC presented the final Method of Distribution to the Board of Directors on July 17, 2018. The Board of Directors authorized this MOD for submission to the General Land Office for approval.

Questions can be directed to Jeff Taebel, Director of Community and Environmental Planning, at 713-627-3200 or jeff.taebel@h-gac.com.

Subject: FW: Requesting H-GAC MOD meeting to be added to GLO website

Hi Shawn,

Would it be possible to get the H-GAC MOD public meeting included on the GLO website please?

H-GAC will host a public meeting as part of continuing the Citizen Participation process. The meeting will include a brief presentation by H-GAC staff and opportunity to provide written and oral comments. **The public meeting is scheduled from 10 a.m. to noon Monday, September 10, at H-GAC Conference Room A, Second Floor, 3555 Timmons Lane, Houston, Texas.**

More information is available at <http://www.h-gac.com/harvey/cdbg-disaster-funds/default.aspx>

Thank you,

Andrea Tantillo

REGIONAL PARTNERS

The GLO acknowledges that disasters are local and so is the recovery process. Through the utilization of partnerships with the Texas Association of Regional Councils and impacted regional Councils of Governments, counties and cities, the GLO is able to oversee the local administration of funds following major disasters. From 2015 to 2017, 23 of the 24 COG regions have been impacted by Presidentially Declared Disasters.

Given the size of the impacted area and how Hurricane Harvey impacted each region differently, local control through a regional approach is vital to long-term recovery. Each COG will develop local Method of Distribution of funds for buyout / acquisitions and infrastructure projects in their region and will conduct public hearings.

Upcoming Events

Parks and Natural Area Roundtable - September 10

The next [Parks and Natural Areas Roundtable](#) will be from 1:30 to 3:30 p.m. **Monday, September 10**, at H-GAC Conference Room A, Second Floor.

Representatives from Asakura Robinson and League City will present their [award-winning parks projects](#), H-GAC staff will provide a program update, and participants will share information about upcoming parks and natural areas-related projects and events.

[Online registration](#) is requested. For more information, contact [Andrea Tantillo](#) at 832-681-2507.

U.S. Census PSAP Workshops - September 12, October 15

H-GAC is the official liaison for the United States Census Bureau's Participant Statistical Areas Program (PSAP) for the 13-county H-GAC planning region. As part of the PSAP, the U.S. Census Bureau requires re-establishing boundaries based on population growth or loss at the Census Tract and Census Block Group levels with every decennial census count.

H-GAC staff will host a series of workshops to engage stakeholders in open dialogue about the process for reestablishing boundaries. The workshops are designed for individuals at the county and local levels who use cCensus data for planning purposes and demographic data users who base research and policy decisions on Census Tracts, Block Groups, or Census Designated Places. They are free and open to the public, but you must register to attend either.

Broadband Listening Tour - September 13

H-GAC and the Gulf Coast Economic Development District will host a [Broadband Listening Tour workshop](#) from 1:30 to 3 p.m. **Thursday, September 13**, at H-GAC Conference Room A, Second Floor.

Attendees will learn more about broadband opportunities in the region. Through collaboration with the Still Water Foundation, Texas Department of Agriculture, Texas State Library and Archives Commission, Texas Education Agency, and other foundations and stakeholders, Connected Nation is hosting listening tours and resource information sessions across the state.

For more information, contact [Joshua Owens](#) at 832-681-2613 or visit <https://connectednation.org>.

Future of Retail: Your Community Destination Workshop - September 21

Join us for [Future of Retail: Your Community Destination](#) from 9 a.m. to 12:30 p.m. **Friday, September 21**, at H-GAC Conference Room B, Second Floor.

At this half-day workshop, participants will gain insights from experts on retail trends and future opportunities and learn how small communities are attracting and retaining retail tenants while rebranding their retail destinations through practical policies, programs, and projects.

Presenters include Austin Farmer, Regional Project Director, The Retail Coach; Steve Spillette, President, Community Development Strategies; Aron Kulhavy, City Manager, City of Huntsville; Bret Gardella, Director, Rosenberg Economic Development Corporation; and Brad Stafford, City Manager, City of Navasota.

Breakfast begins at 8:30 a.m. [Registration](#) is requested. For more information, contact [Anita Hollmann](#) at 713-993-4587.

Texas Energy Summit - September 24-26

The [2018 Texas Energy Summit](#), formerly the Clean Air Through Energy Efficiency/CATEE Conference, will be **September 24-26** at Hyatt Regency Houston/Galleria, 2626 Sage Road, Houston.

The annual summit provides a forum to

- Share information on state and local energy efficiency, renewable energy, and air quality policies;
- Raise awareness of the importance of energy efficiency, renewable energy, and sustainability measures for the state's economic well-being;

- Highlight and celebrate successful policies and programs being implemented to achieve emissions reductions and related environmental and economic benefits;
- Explore the growing importance of the Energy/Water Nexus; and
- Consider advances in intelligent building design, Smart Cities and energy efficiency Internet of Things (IOT), including manufacturing/industrial IOT.

[Registration](#) is required. H-GAC partners can receive a 10% discount using PARTNER10 at checkout.

Bringing Back Main Street Roundtable - October 23

Save the date for H-GAC's next [Bringing Back Main Street Roundtable](#) scheduled from 9:30 a.m. to noon **Tuesday, October 23**. The location and topic are to be determined.

H-GAC hosts quarterly roundtables to help local governments, chambers of commerce, and economic development interests promote the economic revitalization of downtown areas.

For more information, contact [Joey Kaspar](#) at 713-993-4547.

Fall Planning Workshop - November 9

Mark your calendars for the annual [Fall Planning Workshop](#) from 8:30 a.m. to noon, **Friday, November 9**, at H-GAC Conference Room B, Second Floor.

This annual half-day workshop series for local governments features presentations on best planning practices for communities.

This year's workshop, Planning at the Edge, invites participants to join in discussion with local cities and counties, especially unincorporated areas, experiencing growth and development. This workshop will focus on common issues, challenges, and potential management solutions.

For more information, e-mail livablecenters@h-gac.com.

Trash Bash - March 30, 2019

Every year, thousands of volunteers gather to clean up trash and debris along area waterways by participating in the largest, single-day waterway cleanup in Texas, the [River, Lakes, Bays 'N Bayous Trash Bash®](#). Join them on **Saturday, March 30, 2019**, for the 26th annual cleanup.

With locations across the Galveston Bay watershed, there's a cleanup location near home, work, or school. An educational area offers opportunities to learn more about protecting water quality. Participating in Trash Bash® is free, with supplies, t-shirts, lunch, and door prizes provided. Scouts and students are encouraged to participate.

H-GAC Seeks Public Input on Use of

Harvey Infrastructure, Buyout Funds

The H-GAC Board-approved a Method of Distribution (MOD) detailing the allocation of approximately \$241 million in Harvey recovery funds to support infrastructure projects and home buyouts/acquisitions outside the City of Houston and Harris County in July 2018.

After review, the Texas General Land Office has requested that H-GAC [seek additional input](#) on the [Council of Government \(COG\) Method of Distribution for 2017 Hurricane Harvey CDBG-Disaster Recovery Allocation Summary Form](#) (Summary Form) that accompanies the allocations.

H-GAC is [continuing our Citizen Participation process and seeking input](#) to help inform guidance we will make available to local governments as they plan and prioritize use of their allocated CDBG Disaster Recovery infrastructure and home buyout/ acquisition funds. We are especially seeking input to the elements found on pages 5-8 of the [Summary Form](#). We are not seeking comments on the H-GAC Board-approved allocation formula.

The public comment period regarding the [Summary Form](#) opened at noon **Thursday, August 30, 2018**, and will close at noon, **Friday, September 14, 2018**. We will take comments online, by e-mail, by mail, hand-delivered, and at a public meeting from 10 a.m. to noon **Monday, September 10**, at H-GAC Conference Room A, Second Floor. More information about the means for submitting input are available on the [project website](#).

Parks and Natural Areas Awards Application Open Until September 28

H-GAC will accept [Parks and Natural Areas \(PNA\) Awards applications](#) through **Friday, September 28**.

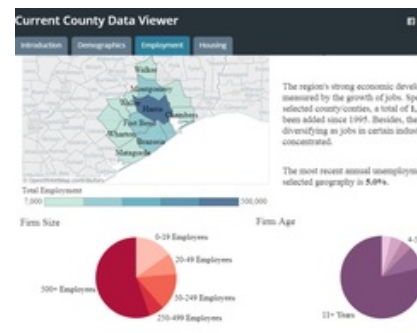

[PNA awards](#) honor projects in four categories: Projects Over \$500,000; Projects Under \$500,000; Planning Process; and Policy Tools. Winning entries serve as models for planning and project implementation for parks and natural areas in the region.

Winners will be notified in December. The awards ceremony and half-day parks event will be in February 2019. For more information, contact [Andrea Tantillo](#) at 832-681-2507.

H-GAC Launches Current County Data Viewer

H-GAC recently released the [Current County Data Viewer](#). This interactive application displays the most recent county-level data of the 13-county H-GAC region. The tool offers demographic, economic and housing data. Most of the data used in this application is only available at the county level.

H-GAC's [interactive web applications](#) provide information in a convenient, easy-to-use format. The applications are accessible on any browsers and are mobile-friendly.

Partner Announcements

2019 Texas Environmental Excellence Awards

Each year, the Governor's Office and commissioners from the Texas Commission on Environmental Quality honor the state's most outstanding environmental projects through the [Texas Environmental Excellence Awards](#). Winners from

across the state exemplify how Texans set the standard for ensuring clean air, clean water, and the safe management of waste. [The application period for the 2019 awards is now open.](#) Winners will be honored at an awards banquet **May 15, 2019**, where videos of the winning projects will be featured. Applications will be accepted through **Friday, September 28.**

Federal Highway Administration Environmental Excellence Awards

The Federal Highway Administration (FHWA) is accepting nominations for the [2019 Environmental Excellence Awards](#) through **Friday, September 14.** This biennial awards program recognizes partners, projects, and processes that use FHWA funding sources to go beyond environmental compliance and achieve environmental excellence.

Recycle Bowl Registration

Keep America Beautiful presents [Recycle Bowl](#), a national K-12 competition between schools to invigorate student participation in recycling efforts. The competition runs from **October 15 to November 15**, but [registration](#) is open now. There are both competitive and non-competitive divisions for this program.

America Recycles Day Event Registration

For almost two decades, communities have come together on **November 15** to celebrate [America Recycles Day](#). Do you have plans for hosting a special event on that day? Register your event [here](#).

America Recycles Day
NOVEMBER 15

Take Care of Texas Video Contest

The Texas Commission on Environmental Quality (TCEQ) invites students in 6th through 12th grades to enter the annual [Take Care of Texas Video Contest](#). Student videos should be 30 seconds long and portray positive ways Texans can help keep air and water clean, conserve water and energy, or reduce waste. The contest deadline is **Friday, December 14**, and the public will have the opportunity to pick their favorite videos **January 10 through 24, 2019**. The middle and high school students who win first place will be invited to travel to Austin, along with their teacher, parent, or guardian, to be recognized by the TCEQ and Waste Management of Texas, Inc., at the 2019 Environmental Trade Fair and Conference.

Texas Rural Leadership Program

The [Texas Rural Leadership Program \(TRLP\)](#) offers leadership development training in communities through its TRLP Leaders-In-Action Workshop Series. TRLP partners with Texas A&M AgriLife Extension and Texas A&M University Public Partnership & Outreach. For more information about what TRLP offers, visit <https://trlp.tamu.edu/> or contact [Craig Rotter](#) at 979-587-1992.

Community Resilience Collaborative

The [Community Resilience Collaborative \(CRC\)](#) provides technical assistance for planning, outreach, and education aimed at coastal communities, particularly resource managers, land use planners, and emergency managers who deal with hazard mitigation. Planning is emphasized to address critical land use, environmental, hazard mitigation, and disaster recovery issues through coastal planning. Priority is placed on providing planning assistance to low-capacity, low-resource, and/or underrepresented communities. For more information regarding the CRC, contact [Heather Wade](#) at 979-845-3855.

More Upcoming Events

Center for Houston's Future Summer Salons

[The Center for Houston's Future](#) is hosting the third of [three monthly summer salons](#) at 7:30 a.m. **Wednesday, September 13**, at the Junior League of Houston, 1811 Briar Oaks Lane, Houston. This casual breakfast conversation brings big-picture thinkers and regional experts together with broader audiences for an extended discussion on regional issues, with a focus on the next steps for

creating a sustainable and competitive Houston region. [Registration](#) is \$30 per person and includes a seated breakfast.

Greater Houston Partnership Economy Series

The Greater Houston Partnership and Visit Houston will host [Placemaking - The Role of Tourism on Houston's Perception](#) from noon to 1:30 p.m. **Friday, September 21**, at Marriott Marquis, 1777 Walker Street, Houston. The two-part luncheon includes the State of Tourism address from Mike Waterman, Executive Chief Sales and Marketing Officer of Houston First Corp. and President of Visit Houston. Aaron Price, Chief Marketing Officer for Brand Expedia Group, will then describe what it takes for cities to transform their communities into great places. Registration begins at \$90 for members. For more information, contact [Ryan Albright](#) at 713-844-3632.

Texas Parks and Wildlife Recreation Grants Criteria Discussion

The Texas Parks and Wildlife Department (TPWD) Recreation Grants program is hosting a series of public input meetings to discuss and assess evaluation criteria for awarding funds through the Community Outdoor Outreach Program (CO-OP) Grant and for Local Park Grants. A meeting in the H-GAC region will be **Thursday, September 13**, at TPWD State Parks Region 4 HQ, 14200 Garrett Road, Houston. Local Park Grant evaluation criteria discussion will be from 9 to 11:30 a.m., and Co-Op Grant evaluation criteria discussion will be from 1 to 3:30 p.m. [Webinars](#) are available for anyone who cannot attend in person. Existing evaluation criteria for each of these grant programs is available [online](#). For more information, e-mail [Recreation Grants](#) or call 512-389-8224.

America Walks Webinars

[America Walks](#) is hosting [free monthly webinars](#) at 1 p.m. the second Wednesday of each month. These webinars look to expand knowledge, highlight success stories, and share new tools and resources. Registration is required. Upcoming webinars include [Pedestrians are People Too: The Criminalization of Walking](#), **September 12**; [Walk Into Action: Walking and Walkability Policy Issues](#), **October 10**; [Where Do We Go Next? Mapping and Tracking in the Future](#), **November 14**; and [On a Sustainable Path: The Role of Walkability in Addressing Climate Change](#), **December 12**.

Texas General Land Office Adopt-A-Beach Fall Cleanup

The 2018 Texas General Land Office [Adopt-A-Beach Fall Cleanup](#) will be from 8:30 a.m. to noon **Saturday, September 15**, at 30 sites along the Texas coast. There are 10 sites in the Houston-Galveston area: four in Galveston County, one in LaPorte, two in the Freeport area, and three in the Bay City area. [Registration](#) is requested.

Gulf of Mexico Alliance Wednesday Webinars

The [Gulf of Mexico Alliance \(GOMA\)](#) is hosting a [Wednesday Webinar series](#) at 2 p.m. the last Wednesday of every other month. [Join](#) to learn about resources and projects from around the Gulf. Preregistration is not required. Upcoming webinars include Tool Highlights (Dave Reed), **September 26**; and Harmful Algal Blooms (HAB) Detection (Kate Hubbard), **November 28**.

National Association of Development Organizations Conference

Registration is open for the [National Association of Development Organization's \(NADO\) 2018 Annual Training Conference](#), Investing in the Future of Regional Development **October 13-16** in Charlotte, NC. The conference will be four days of interactive learning, networking with peers, thought-provoking plenary sessions, hands-on learning labs and workshops, mobile workshops, and more.

Drug Enforcement Agency National Prescription Drug Take Back Day

The Drug Enforcement Agency's (DEA) [National Prescription Drug Take Back Day](#) will be from 10 a.m. to 2 p.m. on **Saturday, October 27**. Check the [DEA website](#) in early October for area drop-off locations. The collection event provides a safe, convenient, and responsible means of disposing of prescription drugs, while also educating the general public about the potential for abuse of medications and environmental contamination. Law enforcement agencies interested in hosting a collection site should call the [point of contact](#) for this area.

STAR Texas Recycling Summit

Registration is now open for the [State of Texas Alliance for Recycling \(STAR\) Texas Recycling Summit 2018](#) **October 28-31** at Moody Gardens, 7 Hope Boulevard, Galveston. This is the only state conference dedicated entirely to recycling and waste diversion activities in Texas. It's also an opportunity to network with professionals from the recycling industry to learn, collaborate, share successes, and support recycling efforts.

Texas A&M AgriLife Extension, Master Gardeners Composter Training

Texas A&M AgriLife Extension Service and Fort Bend County Master Gardeners Association are hosting a [three-day composter specialist event](#) from 10 a.m. to noon **December 5-7** at the AgriLife Extension Office, 1402 Band Road, Suite 100, Rosenberg. This training is sanctioned by the Texas Master Gardener program, and the 24 attendees will receive the title of "Composter Specialist." More information, including an [agenda and registration](#), is available online.

Funding Sources

USDA Rural Water Infrastructure Projects

The U.S. Department of Agriculture Office of Rural Development has more than [\\$4 billion in direct loans available to help rural communities build or upgrade water infrastructure](#). Water districts and rural communities can apply for USDA loans electronically using the interactive [RDApply tool](#). [USDA state and field offices](#) are available to help during the application process.

The deadline to apply is **Thursday, September 30**.

Texas Coastal and Waterway Community Recycling Grant

The Recycling Partnership and The Coca-Cola Foundation have opened the [new coastal and waterways community grant program](#) to help address the challenge of waste in waterways and help improve the collection of recyclables for reuse. The program will provide new carts with lids for curbside recycling programs located on the coastal shorelines.

The deadline to apply for the first round of funding is **Friday, September 21**. Anyone interested in this program should contact [Rob Taylor](#) before applying.

H-GAC Septic System or Aerobic System Repair/Replacement

H-GAC has funding available for the repair or replacement of failing conventional septic systems or aerobic on-site sewage facilities in the H-GAC service region.

Funds are available to homeowners who meet certain income restrictions. No cost sharing is required. For more information, contact [Brian Sims](#) at 713-993-2438.

EDA Harvey Recovery Grants

The U.S. Economic Development Administration's (EDA) Austin regional office received \$129,119,000 in supplemental funding for disaster relief and is actively

seeking projects to help communities in the Houston-Galveston region recover from Hurricane Harvey.

The recently released [Notice of Funding Opportunity](#) outlines the requirements, which include the following:

- Projects require a 20 percent match, which can include in-kind contributions
- Typical projects will range from \$1-\$2.5 million
- First round of 14-15 applications anticipated to be funded by September 2018, with 1 or 2 subsequent rounds of funding
- Must demonstrate a nexus to Harvey in terms of economic recovery or resilience
- Eligible applicants include governments, nonprofits, and universities

For more information, contact [Robert Peche](#) of the EDA.

H-GAC has compiled a list of [local, regional, state, federal, and private funding sources](#) for local governments and other organizations. H-GAC also maintains a list of ongoing [funding opportunities for parks improvements](#).

If you know of a funding opportunity, forward it to [Andrea Tantillo](#).

August Board of Directors Meeting

At the August meeting, the H-GAC Board of Directors unanimously approved nearly \$4 million in contracts funding transportation, aging, workforce, early education/child care, parks and recreation, and water quality management programs.

The Board also approved a contract with the Economic Development Administration and the Texas Association of Regional Councils to assist local governments and economic development organizations in the region to recover from the damage caused by Hurricane Harvey by providing technical assistance in identifying potential economic recovery projects.

FUNDING OPPORTUNITIES

EDA Harvey Recovery Grants

The **U.S. Economic Development Administration's** (EDA) Austin regional office received \$129,119,000 in supplemental funding for disaster relief and is actively seeking projects to help communities in the Houston-Galveston region recover from Hurricane Harvey.

The recently released [Notice of Funding Opportunity](#) outlines the requirements, which include the following:

- * Projects require a 20 percent match, which can include in-kind
- * Typical projects will range from \$1-\$2.5 million
- * First round of 14-15 applications anticipated to be funded by September 2018, with 1 or 2 subsequent rounds of funding
- * Must demonstrate a nexus to Harvey, in terms of economic recovery or resilience
- * Eligible applicants include governments, nonprofits, and universities

Meetings and Events

H-GAC Board of Directors

Meetings are held at 10:00 a.m. on the third Tuesday of each month. Agendas for all committees can be found on our [website](#). Please visit our [calendar](#) for upcoming meetings and events.

Unless otherwise listed, meetings are held on the second floor at H-GAC's office, [3555 Timmons Lane, Houston, TX 77027](#)

help address the challenge of waste in waterways and help improve the collection of recyclables for reuse. The program will provide new carts with lids for curbside recycling programs located on the coastal shorelines.

THE RECYCLING
PARTNERSHIP

The deadline to apply for the first round of funding is **Friday, September 21**. Anyone interested in this program should contact [Rob Taylor](#) before applying.

H-GAC Septic System Repair/Replacement Funding Program

H-GAC has funding available for the repair or replacement of failing traditional or aerobic onsite sewage facilities (septic systems) in the H-GAC service region.

Funds are available to homeowners who meet certain income restrictions. No cost sharing is required. For more information click [HERE](#) or contact [Will Merrell](#) at 713-993-4594.

INPUT OPPORTUNITIES

FCC Seeks Nominations for Broadband Deployment Advisory Committee by September 7

The Federal Communications Commission (FCC) has released a public notice soliciting nominations for a new working group within its **Broadband Deployment Advisory Committee** (BDAC).

The FCC is seeking applicants from several categories, including local governments - particularly nominations for first responders, emergency managers, emergency planners, local network managers, and risk management staff.

All applications must include the information listed in the public notice and be submitted by email to the FCC no later than **September 7, 2018**.

If you or a local or regional leader you know is planning to apply for the BDAC Disaster Response and Recovery Working Group, please email maci.morin@narc.org so that NARC can write a letter in support of your nomination.

H-GAC Seeks Public Input on Use of Harvey Infrastructure and Home Buyout Funds

The Houston-Galveston Area Council (H-GAC) Board-approved a Method of Distribution (MOD) detailing the allocation of approximately \$241 million in Harvey recovery funds to support infrastructure projects and home buyouts/acquisitions outside the City of Houston and Harris County in July 2018.

After review, the Texas General Land Office has requested that H-GAC [seek additional input](#) on the [Council of Government \(COG\) Method of Distribution for 2017 Hurricane Harvey CDBG-Disaster Recovery Allocation Summary Form](#) (Summary Form) that accompanies the allocations.

H-GAC is [continuing our Citizen Participation process and seeking input](#) to help inform guidance we will make available to local governments as they plan and prioritize use of their allocated CDBG Disaster Recovery infrastructure and home buyout/ acquisition funds. We are especially seeking input to the elements found on pages 5-8 of the [Summary Form](#). We are not seeking comments on the H-GAC Board-approved allocation formula.

The public comment period regarding the [Summary Form](#) opened at noon **Thursday, August 30, 2018**,

and will close at noon, **Friday, September 14, 2018**. We will take comments online, by e-mail, by mail, hand-delivered, and at a public meeting from 10 a.m. to noon **Monday, September 10**, at H-GAC Conference Room A, Second Floor. More information about the means for submitting input are available on the [project website](#).

2045 Regional Transportation Plan Update

The Transportation Policy Council (TPC) approved the initiation of the 2018 Call for Projects at its August meeting.

H-GAC will seek proposals from local governments and other eligible project sponsors to implement transportation projects beginning **September 4, 2018** and ending **October 31, 2018** at 5:00 p.m.

Project proposals requesting federal funding will be aligned with goals, strategies, and investment priorities emphasized in the [2045 Regional Transportation Plan](#) (RTP).

To assist potential sponsor agencies and other interested parties with application submittal, H-GAC will conduct an application workshop on September 11, 2018 from 9:00am - 11:00am at Houston TranStar. Click here to [register for the workshop](#).

Texas General Land Office Requests Input for \$137M in Grant Funding

Texas General Land Office (GLO) officials are seeking more local and regional input to decide on projects eligible for \$137 million in Community Development Block Grants for Disaster Recovery (CDBG-DR). The grants will be used to help pay for local, regional, and state planning to mitigate and reduce the impact of future disasters, according to Land Commissioner George P. Bush.

GLO officials plan to distribute the survey to citizens, local officials, councils of government, and river authorities. Input has been requested on flood control, drainage improvements, resilient housing solutions, economic development and infrastructure upgrades. The grants from the United States Department of Housing and Urban Development (HUD) will be used to fund studies in impacted areas to promote sound, long term recovery. This allocation is part of the \$5.024 billion State Action Plan recently approved by HUD. The survey is available [HERE](#).

Texas Motor Vehicle Safety Inspection Survey

The University of Texas Center for Transportation Research is conducting a study of costs and benefits of the Texas motor vehicle safety inspection program. A short survey for Texas vehicle owners about their experiences with annual safety inspections can be taken [HERE](#).

For any questions or for more information regarding this survey, please contact [Dr. Mike Murphy, P.E.](#) at 512-232-3134.

THE UNIVERSITY OF TEXAS AT AUSTIN
CENTER FOR TRANSPORTATION RESEARCH

EDUCATIONAL OPPORTUNITIES

Broadband Listening Tour - September 13

[Connected Nation](#) is hosting a Broadband Listening Tour on **Thursday, September 13, 2018 from 1:30 p.m. - 3:00 p.m.** in Conference Room A - 2nd Floor of the Houston-Galveston Area Council, 3555 Timmons Ln., Houston, TX 77027.

This session is intended to develop and share a state and federal resource guide that will assist rural

Texas communities in identifying funding and resources that can be used for broadband technology projects.

For more information, contact [Joshua Owens](#) at 832-681-2613.

Census 2020 Workshops - September 12 and October 15

The Houston-Galveston Area Council and The United States Census Bureau are hosting workshops to prepare for the upcoming 2020 Census. Attend to learn about the Participant Statistical Area Program and how it could shape your community for the Census.

Event Locations:

Participant Statistical Areas Program Stakeholder Workshop #1

Wednesday, September 12, 2018
Houston-Galveston Area Council
3555 Timmons Ln
2nd Floor, Conference Rooms B & C
Houston, TX 77027

Future of Retail: Your Community Destination - September 21

Save the date for **Future of Retail: Your Community Destination** from 9 a.m. to 12:30 p.m. **Friday, September 21**, at H-GAC Conference Room B, Second Floor.

At this half-day workshop, participants will gain insights from experts on retail trends and future opportunities and learn how small communities like Navasota, Rosenberg, and Huntsville are attracting and retaining retail tenants while re-branding their retail destinations through practical policies, programs and projects.

Breakfast and registration begins at 8:30 a.m. The program begins at 9:00 a.m. **Registration** is requested. View the full agenda [HERE](#). For more information, contact [Anita Hollmann](#) at 713-993-4587.

Parks and Natural Areas Awards Application Open Until September 28

H-GAC will accept **Parks and Natural Areas (PNA) Awards applications** through **Friday, September 28**.

PNA awards honor projects in four categories: Projects Over \$500,000; Projects Under \$500,000; Planning Process; and Policy Tools. Winning entries serve as models for planning and project implementation for parks and natural areas in the region.

Winners will be notified in December. The awards ceremony and half-day parks event will be in February 2019. For more information, contact [Andrea Tantillo](#) at 832-681-2507.

NEW IN THE REGION

H-GAC 2018 Salary Survey

H-GAC conducts a regional salary and benefits survey as a service to its member cities. The survey covers nearly 80 municipal jobs and includes questions on city benefit practices. The [2018 H-GAC Regional Salary and Benefits Survey](#) is now available for purchase. For more information, contact [Staci Stalarow](#) at 832-681-2631.

H-GAC Home Rule and General Law Caucuses

Home Rule and General Law Representatives: Please Save the Date for the upcoming 2018 caucuses to elect your 2019 H-GAC Board Representatives. The **Home Rule Caucus** will be held on **Thursday, November 1** and the **General Law Caucus** will be held on **Thursday, November 8** at Maggiano's Little Italy at 2019 Post Oak Blvd. Registration information will follow in the coming weeks.

Tow And Go

Ever find yourself broken down on the freeway and you just don't know what to do? Well now there is an App for that!

The [Tow and Go Program](#), launched by H-GAC, provides no-cost towing for vehicles that break down from mechanical failures while traveling within the City of Houston. Vehicles that break down due to mechanical failure (e.g., out of gas, overheating, flat tires) while traveling in the program's service area will be cleared, at no cost, to a safe location within one mile. The program also includes motorcycles and trailers.

For more information visit [TowAndGo.com](#).

H-GAC Offices Closed Monday, September 3

The Houston-Galveston Area Council offices will be closed Monday, September 3 in observance of Labor Day.

Careers at H-GAC

H-GAC offers opportunities in clerical, technical, and professional positions, when available. Qualified, motivated individuals are encouraged to view our current opportunities and apply.

H-GAC is currently seeking:

- [Data Analyst \(Economist\)](#)
- [Financial Analyst - Human Services/Workforce](#)
- [GIS Analyst - Developer](#)
- [Manager - Multimodal Planning - Transportation](#)
- [Principal Data Analyst - Transportation](#)

Electronic Notices of Public Meeting and Public Input Period

Houston-Galveston
Area Council

Community Development Block Grant Disaster Recovery Funding

Make Your Voice **Heard**

The Houston-Galveston Area Council is seeking input to help inform guidance we will make available to local governments as they plan and prioritize use of their allocated CDBG Disaster Recovery infrastructure and home buyout/ acquisition funds.

Project Overview

The Houston-Galveston Area Council (H-GAC) Board-approved a Method of Distribution (MOD) detailing the allocation of approximately \$241 million in Harvey recovery funds to support infrastructure projects and home buyouts/acquisitions outside the City of Houston and Harris County in July 2018. [Learn more about the MOD here.](#)

After review, the Texas General Land Office has requested that H-GAC seek additional input on the [Council of Government \(COG\) Method of Distribution for 2017 Hurricane Harvey CDBG-Disaster Recovery Allocation Summary Form](#) (Summary Form) that accompanies the allocations. The Summary Form focuses on guidance supporting long-term recovery, affirmatively furthering fair housing, addressing unmet housing needs, and determining how economic revitalization and infrastructure activities contribute to long-term recovery.

H-GAC is continuing our Citizen Participation process and we are especially seeking input to the elements found on pages 5-8 of the [Summary Form](#). We are not seeking comments on the H-GAC Board-approved allocation formula.

Continuation of Public Input

The public comment period regarding the [Council of Government \(COG\) Method of Distribution for 2017 Hurricane Harvey CDBG-Disaster Recovery Allocation Summary Form](#) opens at noon Thursday, August 30, 2018, and will close at noon, Friday, September 14, 2018.

You can provide comments in several ways.

HOUSTON-GALVESTON AREA COUNCIL

To: H-GAC Board Members
Subject: Update on H-GAC Method of Distribution of Hurricane Harvey CDBG Disaster Recovery Funds
From: Chuck Wemple 
Date: August 30, 2018

This memo includes an update on the H-GAC Board-approved Method of Distribution (MOD), which details the allocation of approximately \$241 million in Harvey recovery funds to support infrastructure projects and home buyouts/acquisitions outside the City of Houston and Harris County. As you are aware, the MOD underwent a rigorous public input process that went above and beyond the requirements of the State of Texas General Land Office (GLO), and full consideration and discussion by our Board at our July 2018 meeting.

The GLO has reviewed the H-GAC Board-approved MOD and is requiring a portion of the MOD undergo additional public comment prior to completing their review. Several other Councils of Government have received the same instructions. The specific portion of the MOD that is subject to additional input is the Summary Form that accompanies the allocations. These forms focus on guidance supporting long-term recovery, affirmatively furthering fair housing, addressing unmet housing needs, and determining how economic revitalization and infrastructure activities contribute to long-term recovery.

To move our MOD forward and gain GLO approval, H-GAC is [continuing our Citizen Participation process and seeking input](#) to help inform guidance we will make available to local governments as they plan and prioritize use of their allocated CDBG Disaster Recovery infrastructure and home buyout/acquisition funds. We are especially seeking input to the elements found on pages 5-8 of the [Summary Form](#). We are not seeking comments on the H-GAC Board-approved allocation formula.

The public comment period regarding the [Summary Form](#) will begin Thursday, August 30, 2018, and will close at noon, Friday, September 14, 2018. We will take comments online, by e-mail, by mail, hand-delivered, and at a public meeting from 10 a.m. to noon Monday, September 10, at H-GAC Conference Room A, Second Floor. More information is available on the [project website](#).

I will provide an update on the MOD at our September Board meeting. Please feel free to contact me if you have any questions about the continuation of our Citizen Participation process

H-GAC Seeks Public Comments on Use of Harvey Infrastructure and Home Buyout Funds

The Houston-Galveston Area Council (H-GAC) Board of Directors approved a Method of Distribution (MOD) for approximately \$241 million in Harvey recovery funds to support infrastructure projects and home buyouts/acquisitions outside the City of Houston and Harris County. The funds are part of the first round of Community Development Block Grant (CDBG) funds provided by the U.S Department of Housing and Urban Development to support long-term recovery in Texas. The MOD underwent a rigorous public input process that went above and beyond the requirements of the State of Texas General Land Office. Specific information, and city and county level allocations, can be viewed at www.h-gac.com/harvey/cdbg-disaster-funds.

The Texas General Land Office has reviewed the H-GAC Board-approved MOD and requested that H-GAC seek additional input on the Council of Government (COG) Method of Distribution for 2017 Hurricane Harvey CDBG-Disaster Recovery Allocation Summary Form (Summary Form) that accompanies the allocations. These forms focus on guidance supporting long-term recovery, affirmatively furthering fair housing, addressing unmet housing needs, and determining how economic revitalization and infrastructure activities contribute to long-term recovery.

H-GAC is continuing our Citizen Participation process by seeking input to help inform guidance we will make available to local governments as they plan and prioritize use of their allocated CDBG Disaster Recovery infrastructure and home buyout/ acquisition funds.

We are especially seeking input to the elements found on pages 5-8 of the Summary Form. We are not seeking comments on the H-GAC Board-approved allocation formula.

H-GAC will host a public meeting as part of continuing the Citizen Participation process. The meeting will include a brief presentation by H-GAC staff and opportunity to provide written and oral comments. The public meeting is scheduled from 10 a.m. to noon Monday, September 10, at H-GAC Conference Room A, Second Floor, 3555 Timmons Lane, Houston, Texas.

The public comment period regarding the Council of Government (COG) Method of Distribution for 2017 Hurricane Harvey CDBG-Disaster Recovery Allocation Summary Form opens at noon Thursday, August 30, 2018, and will close at noon, Friday, September 14, 2018. A hard copy of the document will be made available for public inspection at the H-GAC reception area at 3555 Timmons Lane, Suite 120, Houston, Texas 77027 throughout the comment period.

H-GAC will accept written comments beginning Thursday, August 30, through noon Friday, September 14. Written comments may be submitted online at www.h-gac.com/harvey/cdbg-disaster-funds; e-mailed to HarveyMODComments@h-gac.com; mailed to H-GAC, Attn: Jeff Taebel, Director of Community and Environmental Planning, Houston-Galveston Area Council, P.O. Box 22777, Houston, Texas 77227; or hand-delivered to H-GAC, 3555 Timmons Lane, Suite 120, Houston, Texas 77027. H-GAC encourages the public to use the online form, e-mail, or hand-deliver comments to ensure delivery before the comment period closes.

Houston-Galveston Area Council

The Houston-Galveston Area Council (www.h-gac.com) is a voluntary association of local governments in the 13-county Gulf Coast Planning Region—an area of 12,500 square miles and nearly 7 million people. H-GAC works to promote efficient and accountable use of local, state, and federal tax dollars and serves as a problem-solving and information forum for local government needs.

Payment terms:

Unless otherwise indicated in the contract or a prepayment is necessary, payment of final invoice is due within 30 days of receipt. All past due invoices will incur a 1.8% late charge every 30 days until paid in full.

El H-GAC solicita comentarios del público sobre el uso de fondos para infraestructura y compra de viviendas dañadas por el huracán Harvey

La Junta Directiva del Concejo del Área de Houston-Galveston (H-GAC) aprobó un método de distribución (MOD) para aproximadamente \$241 millones en fondos de recuperación por el huracán Harvey con el fin de apoyar proyectos de infraestructura y adquisición/compra de viviendas fuera de la Ciudad de Houston y el Condado de Harris. Los fondos son parte de la primera ronda del Subsidio Global para Desarrollo Comunitario (CDBG) provistos por el Departamento de Vivienda y Desarrollo Urbano de los Estados Unidos con el propósito de respaldar la recuperación a largo plazo en Texas. El método de distribución fue sometido a un riguroso proceso de opiniones y comentarios por parte del público que fue mucho más allá de los requisitos establecidos por la Oficina General de Tierras del Estado de Texas. La información específica y las asignaciones a nivel de ciudad y condado pueden consultarse en www.h-gac.com/harvey/cdbg-disaster-funds.

La Oficina General de Tierras del Estado de Texas ha evaluado el método de distribución aprobado por la Junta del H-GAC. A partir de dicha evaluación, ha pedido al H-GAC que solicite opiniones y comentarios adicionales sobre el método de distribución utilizado por el Concejo de Gobierno (COG) en el Formulario de Resumen de Asignaciones para la Recuperación de Desastres del subsidio CDBG por el huracán Harvey de 2017 que acompaña las asignaciones. Estos formularios se concentran en la orientación que respalda la recuperación a largo plazo, promoviendo afirmativamente la vivienda justa, abordando las necesidades de vivienda no satisfechas y determinando cómo la revitalización económica y las actividades de infraestructura contribuyen a la recuperación a largo plazo.

El H-GAC continúa nuestro proceso de participación ciudadana solicitando opiniones y comentarios para ayudar a informar los lineamientos que pondremos a disposición de los gobiernos locales a medida que planeen y prioricen el uso de sus fondos de infraestructura y compra/adquisición de viviendas para la recuperación de desastres de los subsidios CDBG asignados.

En particular, estamos solicitando opiniones y comentarios sobre los elementos detallados en las páginas 5 a 8 del Formulario de Resumen. No estamos solicitando comentarios sobre la fórmula de asignación aprobada por la Junta del H-GAC.

Reunión pública y período de comentarios del público

Como parte del proceso continuo de participación ciudadana, el H-GAC organizará una reunión pública. La reunión incluirá una breve presentación del personal del H-GAC y ofrecerá la oportunidad de aportar comentarios orales y escritos. La reunión pública se ha programado de las 10 a.m. al mediodía del lunes 10 de septiembre, en la Sala de Conferencias A del H-GAC, segundo piso, 3555 Timmons Lane, Houston, Texas.

El período de comentarios del público sobre el método de distribución utilizado por el Concejo de Gobierno (COG) en el Formulario de Resumen de Asignaciones para Recuperación de Desastres del subsidio CDBG por el huracán Harvey de 2017 comienza el mediodía del jueves 30 de agosto de 2018 y finaliza el mediodía del viernes 14 de septiembre de 2018. Se aceptarán comentarios en línea, por correo electrónico y por correo postal. Los comentarios también podrán entregarse en mano en el H-GAC.

Cómo enviar sus comentarios

El H-GAC aceptará comentarios por escrito desde el mediodía del 30 de agosto hasta el mediodía del 14 de septiembre de 2018.

En línea

A partir del jueves 30 de agosto de 2018, en www.h-gac.com/harvey/cdbg-disaster-funds, encontrará disponible un formulario para presentar comentarios en línea.

H-GAC Muốn Biết Ý Kiến Công Chúng về việc Sử Dụng Quỹ Phục Hồi Cơ Sở Hạ Tầng Mua Lại Nhà và Bị Hư Hỏng do Cơ Bão Harvey

Ban Giám Đốc Hội Đồng Khu Vực Houston-Galveston (H-GAC) đã phê chuẩn một Biện Pháp Phân Bỏ (MOD) cho khoảng \$241 triệu ngân quỹ phục hồi thiệt hại do cơn bão Harvey để yểm trợ các dự án hạ tầng cơ sở và mua lại những căn nhà bị hư hỏng ở bên ngoài Thành Phố Houston và Quận Harris. Ngân quỹ này nằm trong khuôn khổ đợt ngân quỹ đầu tiên của Trợ Cấp Phát Triển Cộng Đồng (CDBG) do Sở Gia Cư và Phát Triển Đô Thị Hoa Kỳ cung cấp nhằm yểm trợ hoạt động khôi phục dài hạn ở Texas. MOD đã tiến hành một quy trình tiếp nhận ý kiến công chúng nghiêm ngặt, vượt ngoài phạm vi yêu cầu của Tổng Cục Quản Lý Đất Tiểu Bang Texas. Quý vị có thể xem thông tin cụ thể, và các phân bổ ngân quỹ theo cấp độ thành phố và quận trên trang mạng www.h-gac.com/harvey/cdbg-disaster-funds.

Tổng Cục Quản Lý Đất Tiểu Bang Texas đã duyệt xét biện pháp MOD đã được Ban Giám Đốc H-GAC phê chuẩn và H-GAC muốn có thêm ý kiến đóng góp về Phương Pháp Phân Bỏ Ngân Quỹ của Hội Đồng Chính Quyền (COG) cho CDBG do Bão Harvey 2017-Mẫu Tóm Tắt Phân Bỏ Ngân Quỹ Khôi Phục Sau Thảm Họa (Mẫu Tóm Tắt) đi kèm với các phân bổ đó. Các mẫu điền này chú trọng đến hướng dẫn yểm trợ hoạt động khôi phục dài hạn, tiếp tục khuyến khích hơn nữa quan điểm gia cư công bằng, đáp ứng các nhu cầu về gia cư còn để ngỏ, và xác định vai trò đóng góp của các hoạt động phục hồi hạ tầng cơ sở và tái thiết kinh tế đối với việc khôi phục dài hạn.

H-GAC đang tiếp tục quy trình Công Dân Tham Gia qua việc tiếp nhận ý kiến đóng góp nhằm giúp làm cơ sở cho hướng dẫn sẽ cung cấp cho các chính quyền địa phương để hoạch định và xác định thứ tự ưu tiên sử dụng ngân quỹ Khôi Phục Sau Thảm Họa CDBG đã phân bổ cho hoạt động phục hồi cơ sở hạ tầng và mua lại nhà bị hư hỏng.

Chúng tôi đặc biệt cần ý kiến đóng góp cho các vấn đề ghi ở trang 5-8 của Mẫu Tóm Tắt. Chúng tôi không cần ý kiến nhận xét về cơ cấu phân bổ đã được Ban Giám Đốc H-GAC phê chuẩn.

Buổi Họp Công Cộng và Giai Đoạn Tiếp Nhận Ý Kiến Công Chúng

H-GAC sẽ tổ chức một buổi họp công cộng trong khuôn khổ tiếp tục quy trình Sự Tham Gia của Công Dân. Cuộc họp sẽ có phần trình bày ngắn gọn của nhân viên H-GAC và cơ hội cho ý kiến nhận xét bằng miệng và trên văn bản. Buổi họp công cộng này dự kiến diễn ra từ 10 giờ sáng đến trưa thứ Hai, ngày 10 tháng Chín, tại H-GAC Conference Room A (Phòng Họp A của H-GAC), Tầng Lầu 2, 3555 Timmons Lane, Houston, Texas.

Giai đoạn tiếp nhận ý kiến nhận xét của công chúng về Phương Pháp Phân Bỏ Ngân Quỹ của Hội Đồng Chính Quyền (COG) cho CDBG do Bão Harvey 2017-Mẫu Tóm Tắt Phân Bỏ Ngân Quỹ Khôi Phục Sau Thảm Họa diễn ra vào buổi trưa thứ Năm, ngày 30 tháng Tám, 2018 và sẽ kết thúc vào buổi trưa thứ Sáu, ngày 14 tháng Chín, 2018. Ý kiến nhận xét sẽ được tiếp nhận trên mạng trực tuyến, qua e-mail, và qua thư bưu điện. Cũng có thể trực tiếp đưa ý kiến nhận xét cho H-GAC.

Cách Thức Gửi Ý Kiến Nhận Xét

H-GAC sẽ tiếp nhận ý kiến nhận xét trên văn bản từ trưa ngày 30 tháng Tám, 2018 đến hết trưa ngày 14 tháng Chín, 2018.

Trực tuyến

Sẽ có mẫu điền đóng góp ý kiến trên mạng trực tuyến bắt đầu từ thứ Năm, ngày 30 tháng Tám, 2018 tại www.h-gac.com/harvey/cdbg-disaster-funds.

H-GAC Seeks Public Comments on Use of Harvey Infrastructure and Home Buyout Funds

The Houston-Galveston Area Council (H-GAC) Board of Directors approved a Method of Distribution (MOD) for approximately \$241 million in Harvey recovery funds to support infrastructure projects and home buyouts/acquisitions outside the City of Houston and Harris County. The funds are part of the first round of Community Development Block Grant (CDBG) funds provided by the U.S. Department of Housing and Urban Development to support long-term recovery in Texas. The MOD underwent a rigorous public input process that went above and beyond the requirements of the State of Texas General Land Office. Specific information, and city and county level allocations, can be viewed at www.h-gac.com/harvey/cdbg-disaster-funds. The Texas General Land Office has reviewed the H-GAC Board-approved MOD and requested that H-GAC seek additional input on the Council of Government (COG) Method of Distribution for 2017 Hurricane Harvey CDBG-Disaster Recovery Allocation Summary Form (Summary Form) that accompanies the allocations. These forms focus on guidance supporting long-term recovery, affirmatively furthering fair housing, addressing unmet housing needs, and determining how economic revitalization and infrastructure activities contribute to long-term recovery.

H-GAC is continuing our Citizen Participation process by seeking input to help inform guidance we will make available to local governments as they plan and prioritize use of their allocated CDBG Disaster Recovery infrastructure and home buyout/acquisition funds. We are especially seeking input to the elements found on pages 5-8 of the Summary Form. We are not seeking comments on the H-GAC Board-approved allocation formula.

Public Meeting and Public Comment Period
H-GAC will host a public meeting as part of continuing the Citizen Participation process. The meeting will include a brief presentation by H-GAC staff and opportunity to provide written and oral comments. The public meeting is scheduled from 10 a.m. to noon Monday, September 10, at H-GAC Conference Room A, Second Floor, 3555 Timmons Lane, Houston, Texas.

The public comment period regarding the Council of Government (COG) Method of Distribution for 2017 Hurricane Harvey CDBG-Disaster Recovery Allocation Summary Form opens at noon Thursday, August 30, 2018, and will close at noon, Friday, September 14, 2018. Comments will be accepted online, by e-mail, and by mail. Comments may also be hand-delivered to H-GAC.

How to Submit Your Comments
H-GAC will accept written comments from noon August 30, 2018, through noon, September

REQUEST FOR COMPETITIVE SEALED PROPOSALS THE MOSQUITO CONTROL BUILDING CHAMBERS COUNTY

Chambers County will accept Base Competitive Sealed Proposals until 2:00 P.M. on Thursday, September 13, 2018, at the Chambers County Courthouse Purchasing Office Conference Room, 404 Washington Ave, Anahuac, TX 77514 for the Mosquito Control Building project. A Pre-Proposal Conference will be held on Thursday, September 06, 2018 at 2:00 P.M. at the Road and Bridge Conference Room, 201 Chambers County Airport, Anahuac, TX 77514. Proposal Evaluation Criteria are published in the "Instructions to Offerors" section of the proposal documents. Plans and specifications will be released on Friday, August 17, 2018, and are available to general contractors from the following address upon deposit of \$100.00 per set: PBK Architects, Inc., 11 Greenway Plaza, 22nd Floor, Houston, Texas 77046, 713-965-0608. The Owner reserves the right to waive any informalities and to reject any or all proposals.

NOTICE TO IMPLEMENT REVISED FIXED FUEL FACTOR

Entergy Texas, Inc. hereby publishes NOTICE that, pursuant to Section 36.203 of the Public Utility Regulatory Act (codified in TEX. UTIL. CODE) and 16 Tex. Admin. Code § 25.235(b), it filed with the Public Utility Commission of Texas (the "Commission") on August 17, 2018 a tariff to implement a revised fixed fuel factor. All of Entergy Texas' retail customers whose fuel charges are calculated under the Texas fixed fuel factor tariff – including but not limited to Residential, Small General Service, Large General Service, Large Industrial Power Service, and Street and Outdoor Lighting Service – will be affected by the Commission's approval of the revised fixed fuel factor. The revised fixed fuel factor, if approved, will affect only the fuel portion of the rates charged by Entergy Texas and will have no effect on non-fuel base rates.

Entergy Texas seeks Commission approval to revise the fixed fuel factor effective with the first billing cycle of the September 2018 billing month. Entergy Texas proposed that the fixed fuel factor be changed pursuant to a semi-annual filing to be made each February and August, with revised fuel factors to be effective with the first billing cycle of the March and September billing months, pursuant to a methodology that changes the fuel factor based upon changes in the published price of natural gas. This methodology was authorized for use in Docket No. 32915.

The revised fixed fuel factor, differentiated by voltage level, is as follows:

FACTOR BY VOLTAGE LEVELS

Delivery Voltage	Fixed Fuel Factor	
Secondary	\$0.0291890	per kWh
Primary	\$0.0284428	per kWh
69kV/138kV	\$0.0277355	per kWh
230kV	\$0.0272740	per kWh

The revised fuel factor would result in a decrease in Entergy Texas' annual Texas retail fuel and purchased power revenues by approximately \$10.1 million, or 1.81%, on an annual basis. Compared to the fixed fuel factor approved by the Commission effective March 2018, a residential customer using 1000 kilowatt-hours (kWh) of electricity per month would see an approximate decrease of 1.86% annually, or \$0.54 on average per month, on his/her electric bill. The fixed fuel factor rate is designed to pass through to customers the actual fuel costs incurred by Entergy Texas to serve customers. Entergy Texas is not allowed to make a profit on fuel costs. Amounts collected from affected customers pursuant to the revised fixed fuel factor will be subject to final review by the Commission in Entergy Texas' next applicable fuel reconciliation proceeding before the Commission. Entergy Texas expects the revised fixed fuel factor to be in effect for the billing period of September 2018 through February 2019.

Persons with questions or who want more information on this petition may contact Entergy Texas at Attn: Customer Service – Fuel Factor, 350 Pine Street, Beaumont, Texas 77701, or call [1-800-368-3749 (once you hear: "Welcome to Entergy" select option 1, then press 5, then press 7)] during normal business hours. A complete copy of this petition is available for inspection at the address listed above.

The Commission has assigned Docket No. 48604 to this proceeding. Persons who wish to formally participate in this proceeding, or who wish to express their comments concerning this petition should contact the Public Utility Commission of Texas, Office of Customer Protection, P.O. Box 13326, Austin, Texas 78711-3326, or call (512) 936-7120 or toll-free at (888) 782-8477. Hearing and speech-impaired individuals with text telephones (TTY) may call (512) 936-7136 or use Relay Texas (toll-free) 1-800-735-2989.

THE ARMADILLOS HAVE EMERGED IN NASHVILLE

The Outlaw phenomenon produced powerful music and everlasting bonds between Nashville and Texas. Willie and Waylon, Bobby Bare, and Kris Kristofferson demanded and got greater creative freedom and the movement was real—not just a marketing term, but a creative flowering, a confluence of art and revelry, whiskey and poetry.

H-GAC Seeks Public Comments on Use of Harvey Infrastructure and Home Buyout Funds

The Houston-Galveston Area Council (H-GAC) Board of Directors approved a Method of Distribution (MOD) for approximately \$241 million in Harvey recovery funds to support infrastructure projects and home buyouts/acquisitions outside the City of Houston and Harris County. The funds are part of the first round of Community Development Block Grant (CDBG) funds provided by the U.S. Department of Housing and Urban Development to support long-term recovery in Texas. The MOD underwent a rigorous public input process that went above and beyond the requirements of the State of Texas General Land Office. Specific information, and city and county level allocations, can be viewed at www.h-gac.com/harvey/cdbg-disaster-funds.

The Texas General Land Office has reviewed the H-GAC Board-approved MOD and requested that H-GAC seek additional input on the Council of Government (COG) Method of Distribution for 2017 Hurricane Harvey CD-BG-Disaster Recovery Allocation Summary Form (Summary Form) that accompanies the allocations. These forms focus on guidance supporting long-term recovery, affirmatively furthering fair housing, addressing unmet housing needs, and determining how economic revitalization and in-

How to Submit Your Comments

Infrastructure activities contribute to long-term recovery.

H-GAC is continuing our Citizen Participation process by seeking input to help inform guidance we will make available to local governments as they plan and prioritize use of their allocated CD-BG Disaster Recovery infrastructure and home buyout/acquisition funds.

We are especially seeking input to the elements found on pages 5-8 of the Summary Form. We are not seeking comments on the H-GAC Board-approved allocation formula.

Public Meeting and Public Comment Period

H-GAC will host a public meeting as part of continuing the Citizen Participation process. The meeting will include a brief presentation by H-GAC staff and opportunity to provide written and oral comments. The public meeting is scheduled from 10 a.m. to noon Monday, September 10, at H-GAC Conference Room A, Second Floor, 3555 Timmons Lane, Houston, Texas.

The public comment period regarding the Council of Government (COG) Method of Distribution for 2017 Hurricane Harvey CD-BG-Disaster Recovery Allocation Summary Form opens at noon Thursday, August 30, 2018, and will close at noon, Friday, September 14, 2018. Comments will be accepted online, by e-mail, and by mail. Comments may also be hand-delivered to H-GAC.

How to Submit Your Comments

H-GAC will accept written comments from noon August 30, 2018, through noon, September 14, 2018.

H-GAC Seeks Public Comments on Use of Harvey Infrastructure and Home Buyout Funds

The Houston-Galveston Area Council (H-GAC) Board of Directors approved a Method of Distribution (MOD) for approximately \$241 million in Harvey recovery funds to support infrastructure projects and home buyouts/acquisitions outside the City of Houston and Harris County. The funds are part of the first round of Community Development Block Grant (CDBG) funds provided by the U.S. Department of Housing and Urban Development to support long-term recovery in Texas. The MOD underwent a rigorous public input process that went above and beyond the requirements of the State of Texas General Land Office. Specific information, and city and county level allocations, can be viewed at www.h-gac.com/harvey/cdbg-disaster-funds.

The Texas General Land Office has reviewed the H-GAC Board-approved MOD and requested that H-GAC seek additional input on the Council of Government (COG) Method of Distribution for 2017 Hurricane Harvey CDBG-Disaster Recovery Allocation Summary Form (Summary Form) that accompanies the allocations. These forms focus on guidance supporting long-term recovery, affirmatively furthering fair housing, addressing unmet housing needs, and determining how economic revitalization and infrastructure activities contribute to long-term recovery.

H-GAC is continuing our Citizen Participation process by seeking input to help inform guidance we will make available to local governments as they plan and prioritize use of their allocated CDBG Disaster Recovery Infrastructure and Home Buyout/ Acquisition Funds.

We are especially seeking input to the elements found on pages 5-8 of the Summary Form. We are not seeking comments on the H-GAC Board-approved allocation formula.

Public Meeting and Public Comment Period

H-GAC will host a public meeting as part of continuing the Citizen Participation process. The meeting will include a brief presentation by H-GAC staff and opportunity to provide written and oral comments. The public meeting is scheduled from 10 a.m. to noon Monday, September 10, at H-GAC Conference Room A, Second Floor, 3555 Timmons Lane, Houston, Texas. The public comment period regarding the Council of Government (COG) Method of Distribution for 2017 Hurricane Harvey CDBG-Disaster Recovery Allocation Summary Form opens at noon Thursday, August 30, 2018, and will close at noon, Friday, September 14, 2018. Comments will be accepted online, by e-mail, and by mail. Comments may also be hand-delivered to H-GAC.

How to Submit Your Comments

H-GAC will accept written comments from noon August 30, 2018, through noon, September 14, 2018.

El H-GAC solicita comentarios del público sobre el uso de fondos para infraestructura y compra de viviendas dañadas por el huracán Harvey

Junta Directiva del Concejo del Área de Houston-Galveston (H-GAC) aprobó un método de distribución (MOD) para \$11 millones en fondos de recuperación por el huracán Harvey con el fin de apoyar proyectos de infraestructura y adquisiciones fuera de la Ciudad de Houston y el Condado de Harris. Los fondos son parte de la primera ronda del Subsidio Global Comunitario (CDBG) provistos por el Departamento de Vivienda y Desarrollo Urbano de los Estados Unidos con el propósito de la recuperación a largo plazo en Texas. El método de distribución fue sometido a un riguroso proceso de opiniones y comentarios del público que fue mucho más allá de los requisitos establecidos por la Oficina General de Tierras del Estado de Texas. La información sobre las asignaciones a nivel de ciudad y condado pueden consultarse en www.hgac.com/harvey/cdbg-disaster-funds.

La Oficina General de Tierras del Estado de Texas ha evaluado el método de distribución aprobado por la Junta del H-GAC. Como resultado de esta evaluación, ha pedido al H-GAC que solicite opiniones y comentarios adicionales sobre el método de distribución utilizado por el gobierno (COG) en el Formulario de Resumen de Asignaciones para la Recuperación de Desastres del subsidio CBDG por el huracán Harvey de 2017 que acompaña las asignaciones. Estos formularios se concentran en la orientación que respalda la recuperación de viviendas moviendo afirmativamente la vivienda justa, abordando las necesidades de vivienda no satisfechas y determinando cómo las actividades de infraestructura contribuyen a la recuperación a largo plazo.

El H-GAC continúa nuestro proceso de participación ciudadana solicitando opiniones y comentarios para ayudar a informar y pondremos a disposición de los gobiernos locales a medida que planeen y prioricen el uso de sus fondos de infraestructura y adquisición de viviendas para la recuperación de desastres de los subsidios CBDG asignados.

En particular, estamos solicitando opiniones y comentarios sobre los elementos detallados en las páginas 5 a 8 del Formulario de Resumen de Asignaciones para la Recuperación de Desastres del subsidio CBDG por el huracán Harvey de 2017. También estamos solicitando comentarios sobre la fórmula de asignación aprobada por la Junta del H-GAC.

Reunión pública y período de comentarios del público

Como parte del proceso continuo de participación ciudadana, el H-GAC organizará una reunión pública. La reunión incluirá una presentación personal del H-GAC y ofrecerá la oportunidad de aportar comentarios orales y escritos. La reunión pública se ha programado para el mediodía del lunes 10 de septiembre, en la Sala de Conferencias A del H-GAC, segundo piso, 3555 Timmons Lane.

El período de comentarios del público sobre el método de distribución utilizado por el Concejo de Gobierno (COG) en el Formulario de Resumen de Asignaciones para la Recuperación de Desastres del subsidio CBDG por el huracán Harvey de 2017 comienza el mediodía del lunes 10 de agosto de 2018 y finaliza el mediodía del viernes 14 de septiembre de 2018. Se aceptarán comentarios en línea, por correo electrónico o por correo postal. Los comentarios también podrán entregarse en mano en el HGAC.

Cómo enviar sus comentarios

El H-GAC aceptará comentarios por escrito desde el mediodía del 30 de agosto hasta el mediodía del 14 de septiembre de 2018.

NOTICE OF EFFECTIVE TAX RATE

2018 PROPERTY TAX RATES IN WALLER-HARRIS EMERGENCY SERVICES DISTRICT NO. 200

This Notice concerns 2018 property tax rates for Waller-Harris Emergency Services District No. 200. It presents information about three (3) tax rates. The rate is the actual rate the taxing unit used to determine property taxes for the year. The year's effective tax rate would impose the same total taxes as last year's tax rate on properties taxed in both years. This year's rollback tax rate is the highest rate the taxing unit can set before taxpayers can start tax rollback procedures. These rates are found by dividing the total amount of taxes by the tax base (assessed value of taxable property) with adjustments as required by state law.

Last year's tax rate:

Last year's operating taxes	\$	5,488,300
Last year's debt taxes	\$	0
Last year's total taxes	\$	5,488,300
Last year's tax base	\$	5,523,000
Last year's total tax rate	\$.0995

This year's effective tax rate:

Last year's adjusted taxes (after subtracting taxes on lost property)	\$	5,488,300
+ This year's adjusted tax base (after subtracting value of new property)	\$	5,858,300
= This year's effective tax rate (Maximum rate unless unit publishes notices and holds hearings)	\$.09352

This year's rollback tax rate:

Last year's adjusted operating taxes (after subtracting taxes on lost property and adjusting for any transferred function, tax increment financing, state criminal justice mandate, and/or enhanced indigent health care expenditures)	\$	5,488,300
+ This year's adjusted tax base	\$	5,858,300
= This year's effective operating rate	\$.09352
x 1.08 = this year's maximum operating rate	\$.10100
+ This year's debt rate	\$	0
= This year's total rollback rate	\$.10100

NOTICE OF EFFECTIVE TAX RATE

2018 PROPERTY TAX RATES IN WALLER-HARRIS EMERGENCY SERVICES DISTRICT NO. 200

This Notice concerns 2018 property tax rates for Waller-Harris Emergency Services District No. 200. It presents information about three (3) tax rates. The actual rate is the actual rate the taxing unit used to determine property taxes last year. The effective tax rate would impose the same total taxes as last year on properties taxed in both years. This year's rollback tax rate is the highest rate the taxing unit can set before taxpayers can start tax rollback procedures. These rates are found by dividing the total amount of taxes by the tax base (value of taxable property) with adjustments as required by state law.

Last year's tax rate:

Last year's operating taxes	\$	5,418,000
Last year's debt taxes	\$	5,418,000
Last year's total taxes	\$	5,418,000
Last year's tax base	\$	5,523,000
Last year's total tax rate	\$.0995

This year's effective tax rate:

Last year's adjusted taxes (after subtracting taxes on lost property)	\$	5,418,000
+ This year's adjusted tax base (after subtracting value of new property)	\$	5,858,000
= This year's effective tax rate (Maximum rate unless unit publishes notices and holds hearings)	\$.0935

This year's rollback tax rate:

Last year's adjusted operating taxes (after subtracting taxes on lost property and adjusting for any transferred function, tax increment financing, state criminal justice mandate, and/or enhanced indigent health care expenditures)	\$	5,418,000
+ This year's adjusted tax base	\$	5,858,000
= This year's effective operating rate	\$.0935
x 1.08 = this year's maximum operating rate	\$.1010
+ This year's debt rate	\$.0000
= This year's total rollback rate	\$.1010

Statement of Increase/Decrease

If Waller-Harris Emergency Services District No. 200 adopts a 2018 tax rate of \$0.093520 per \$100 of value, taxes would increase by \$371,246 to 2017 taxes by \$371,246.

SCHEDULE "A": Unencumbered Fund Balances

The following estimated balances will be left in the unit's property tax fund at the end of the fiscal year. These balances are not encumbered by a current obligation.

Type of Property Tax Fund:	General Fund
Balance:	\$3,047,948

SCHEDULE "B": Current Year Debt Service

The taxing unit plans to pay the following amounts for long-term debts to be paid from property taxes. These amounts will be paid from property tax revenues, if applicable).

2018 Debt Service:	NONE

one family who significantly benefited from forced labor through the
Back in 1878, the State of Texas sanctioned the contract to lease prison inmates to priv firm of Ed H. Cunningham and L.A. Ellis (Cunningham and Ellis). Cunningham invests more than \$1 million into the purchase of property where the firm developed a sugar mill; a sugar refinery. The town of Sugar Land eventually formed around it and after Cunningham's plantation changed hands and became the home of the Imperial Sugar Company, the lease of convicts continued.

In 1883, the land and the convict leasing system reverted to state control.

PUBLIC NOTICE

H-GAC Seeks Public Comments on Use of Harvey Infrastructure and Home Buyout Funds

The Houston-Galveston Area Council (H-GAC) Board of Directors approved a Method of Distribution (MOD) for approximately \$241 million in Harvey recovery funds to support infrastructure projects and home buyouts/acquisitions outside the City of Houston and Harris County. The funds are part of the first round of Community Development Block Grant (CDBG) funds provided by the U.S. Department of Housing and Urban Development to support long-term recovery in Texas. The MOD underwent a rigorous public input process that went above and beyond the requirements of the State of Texas General Land Office. Specific information, and city and county level allocations, can be viewed at www.h-gac.com/harvey/cdbg-disaster-funds.

The Texas General Land Office has reviewed the H-GAC Board-approved MOD and requested that H-GAC seek additional input on the Council of Government (COG) Method of Distribution for 2017 Hurricane Harvey CDBG-Disaster Recovery Allocation Summary Form (Summary Form) that accompanies the allocations. These forms focus on guidance supporting long-term recovery, affirmatively furthering fair housing, addressing unmet housing needs, and determining how economic revitalization and infrastructure activities contribute to long-term recovery.

H-GAC is continuing our Citizen Participation process by seeking input to help inform guidance we will make available to local governments as they plan and prioritize use of their allocated CDBG Disaster Recovery Infrastructure and Home Buyout/Acquisition Funds.

We are especially seeking input to the elements found on pages 5-8 of the Summary Form. We are not seeking comments on the H-GAC Board-approved allocation formula.

Public Meeting and Public Comment Period

H-GAC will host a public meeting as part of continuing the Citizen Participation process. The meeting will include a brief presentation by H-GAC staff and opportunity to provide written and oral comments. The public meeting is scheduled from 10 a.m. to noon Monday, September 10, at H-GAC Conference Room A, Second Floor, 3555 Timmons Lane, Houston, Texas.

The public comment period regarding the Council of Government (COG) Method of Distribution for 2017 Hurricane Harvey CDBG-Disaster Recovery Allocation Summary Form opens at noon Thursday, August 30, 2018, and will close at noon, Friday, September 14, 2018. Comments will be accepted online, by e-mail, or by mail. Comments may also be hand-delivered to H-GAC.

How to Submit Your Comments

H-GAC will accept written comments from noon August 30, 2018, through noon, September 14, 2018.

Online

An online comment form will be made available beginning Thursday, August 30, 2018, at www.h-gac.com/harvey/cdbg-disaster-funds.

Public Meeting Notes, Sign In Sheets and Comments

HOUSTON-GALVESTON AREA COUNCIL

Public Meeting Notes – September 10, 2018

The meeting was called to order at 10 a.m. Monday, September 10, 2018 at Houston-Galveston Area Council, 3555 Timmons Lane, Houston, Texas. Six people were in attendance.

Jeff Taebel, H-GAC staff, presented information about the Method of Distribution that apportions \$110,953,432 for local buyouts/acquisition and \$129,751,767 for infrastructure projects in 12 counties in the H-GAC region outside of Harris County and specifically requested additional input on information provided in the *Council of Government (COG) Method of Distribution for 2017 Hurricane Harvey CDBG-Disaster Recovery Allocation Summary Form*.

Spanish, and Vietnamese interpreters were present and available as needed. An American Sign Language interpreter was requested and confirmed but did not attend. No one in attendance needed the services of language interpreters.

H-GAC staff took comments from those in attendance who wished to comment. A sign in sheet from this public meeting and aggregate comments and responses from the public comment period (8-30-18—9-14-18) follow. The meeting adjourned at noon.

CDBG MOD Hurricane Harvey
Public Comment Continuation: August 30, 2018 – September 14, 2018

#	DATE RCVD	FORM	SUBMITTED BY	COMMENTS	H-GAC RESPONSE
1	9/4/2018	Public Comment Form (Online)	Michael Coon, City Manager, City of Richwood	Why cities with less than 5,000 housing units were left off the grant reallocation method? As a percentage of total housing in the damaged area, Richwood has a higher percentage and there are a lot of improvements that could be done in Richwood with funds that may be available through reallocation. For instance, Brazoria County is #8 on the reallocation list, but if you were to look at just Richwood, we would be in the top 3. I think we should get a portion of any funds that are reallocated, now granted it would be smaller than most due to our smaller size, but I don't know why we don't use the previous formula for any funds that are to be reallocated. At 332 homes damaged, the City of Richwood had about 28 percent of our homes damaged.	<p>Thank you for your comment.</p> <p>The 5,000-unit threshold was established to ensure that reallocated funds will benefit communities with the greatest concentration of damages, not the largest percent by damage. Additionally, while the Texas General Land Office has set a minimum allocation threshold of \$1,000,0000 for housing buyouts/acquisitions, Brazoria County could elect to direct funds from its allocation to support these activities in the City of Richwood.</p> <p>Your comments will be passed along to the H-GAC Board of Directors and the Texas General Land Office.</p>
2	9/7/2018	Public Comment Form (Online)	Kimberly Avila, Homeowner in Montgomery County	We believe that the CBDG funds received from the Federal Government should be allocated for buyouts to the homeowners that were flooded during Hurricane Harvey in 2017. Many, if not all of these homes have flooded many times and will continue to flood in the future. FEMA has changed the flood zone of our properties from a flood zone to a floodway, making flood insurance rates extremely high and most can't pay the rates. Funds should not be allocated to those that stand to benefit economically and/or have caused the conditions that are causing our homes to flood more frequently. Many of us are still suffering one year after the storm. We are told that we have to raise our homes many feet to meet the requirements to obtain flood insurance. Raising a home is very expensive and none of us can afford it, making it impossible to rebuild. Our only option is a buyout.	<p>Thank you for your comment.</p> <p>The Texas General Land Office (GLO) tasked councils of governments, such as the Houston-Galveston Area Council (H-GAC), to develop a Method of Distribution for buyouts/acquisitions of flood-prone residential properties, as well as infrastructure repair. Under H-GAC's Method of Distribution, Montgomery County will receive a funding allocation for buyouts/acquisitions. It will be the responsibility of the county to identify specific buyout/acquisitions projects. We suggest you forward your concerns to the appropriate officials in Montgomery County.</p> <p>Your comments will be passed along to the H-GAC Board of Directors and the Texas General Land Office.</p>
3	9/7/2018	Public Comment Form (Online)	Patrick Wiltshire, President / CEO, Public Management Inc.	Regarding the Buyout/Acquisition allocation - in particular, the proposed uses of the Acquisition process: -Will jurisdictions be allowed to use the allocated funds to purchase Easement/Right-of-Way to acquire property that will focus on future drainage improvements? This could ensure compliance with the statement, "thereby preventing repetitive loss and the possibility of catastrophic human loss". -Proposals may include only taking a portion of the property necessary for proposed drainage improvements rather than acquiring the entire property and demolishing the structure.	<p>Thank you for your comment.</p> <p>Your comments will be passed along to the H-GAC Board of Directors and the Texas General Land Office.</p>

#	DATE RCVD	FORM	SUBMITTED BY	COMMENTS	H-GAC RESPONSE
4	9/10/2018	Oral Comment (Public Meeting)	Greg Vezorak, Homeowner in Montgomery County	Mr. Vezorak expressed concern over the status of home buy-outs in Montgomery County. State that he'd added his name to a list managed by the County Engineer's Office a year ago and hasn't received any follow up. Homes surrounding his were designated as part of the floodway; his was not. He is unable to raise his home the required amount but cannot rebuild yet.	<p>Thank you for your comment.</p> <p>The GLO tasked councils of governments, such as H-GAC, to develop a Method of Distribution for the local residential buyout/acquisition program and local infrastructure programs to eligible entities, including Montgomery County. Once the Method of Distribution has been approved by the GLO, it will be the responsibility of the county to identify specific buyout/acquisitions projects. We suggest you forward your concerns to the appropriate officials in Montgomery County.</p> <p>Your comments will be passed along to the H-GAC Board of Directors and the Texas General Land Office.</p>
5	9/10/2018	Public Comment (Online Form)	Rose Palmer, Homeowner in Galveston County	To: Mr. Jeff Tarbell GHAC. I was so wanting to attend the meeting this morning, however as a Caretaker for my elderly mom, I am unable to do so. My home was severely damaged during H-Harvey, and here we are a year later having to sign a new lease in an apartment in a nearby city. I wish to apply for the acquisition part of the program but have not been contacted by anyone. I guess my question is, how soon will we received assistance in order that we get back to a place we call home. I feel those who want the buyouts/Acquisition should be given the options to do whatever meets their needs. We have been very patient, and now after a year; we are ready to return home. Please help us. Thanks, Rose Palmer	<p>Thank you for your comment.</p> <p>The GLO tasked councils of governments, such as H-GAC, to develop a Method of Distribution for the local residential buyout/acquisition program and local infrastructure programs to eligible entities, including Galveston County. Once the Method of Distribution has been approved by the GLO, it will be the responsibility of the county to identify specific buyout/acquisitions projects. We suggest you forward your concerns to the appropriate officials in Galveston County.</p> <p>Your comments will be passed along to the H-GAC Board of Directors and the Texas General Land Office.</p>
6	9/11/2018	Public Comment (Online Form)	Scott Swigert, Assistant City Manager in Mont Belvieu	<p>Over the past 10 years, the Houston-Galveston region has been subjected to extensive damage due to direct hits from two major hurricanes (Ike and Harvey) and two significant flood events (Memorial Day and Tax Day).</p> <p>I believe the funding that has been allocated for Local Infrastructure Projects (\$129,751,761) needs to be used most efficiently to foster long-term recovery and permanent restoration of infrastructure within the "Most Impacted Areas" that will benefit the most people within the Houston-Galveston region and will assist in preventing further damages. With the Houston-Galveston region overall goal of rebuilding being to establish communities that can withstand or rebound from future disasters, it is my belief that projects within the "Most Impacted Areas" that have the greatest population benefit should have the highest priority followed by projects that provide benefits to populations beyond the applicant's borders or projects that have more than one applicant submitting the project, followed by projects that only impact the populations within the applicant borders. Hurricane Harvey's greatest cause of damage was flooding generated from waterways throughout the region.</p>	<p>Thank you for your comment.</p> <p>The GLO tasked councils of governments, such as H-GAC, to develop a Method of Distribution for the local residential buyout/acquisition program and local infrastructure programs to eligible entities. The U.S. Department of Housing and Urban Development has directed that, at a minimum, 80% of these funds be directed to the identified "Most Impacted Areas." Eligible activities under this program include repairs to various types of infrastructure damaged by Hurricane Harvey, including flood control infrastructure.</p> <p>Your comments will be passed along to the H-GAC Board of Directors and the Texas General Land Office.</p>

#	DATE RCVD	FORM	SUBMITTED BY	COMMENTS	H-GAC RESPONSE
				Priority funding should be given to projects that assist in preventing further damages caused by flooding to our regional waterways and that control the water not only through but ultimately out of the region.	
7	9/11/2018	Public Comment (e-mail)	Dian Stirn Groh	Please work faster to help businesses recover. Dickinson needs those businesses back.	Thank you for your comment. Your comment will be passed along to the H-GAC Board of Directors and the Texas General Land Office.
8	9/14/2018	Public Comment (Online Form)	Amelia Adams, Researcher and Community Planner for Texas Housers	<p>Dear Mr. Taebel,</p> <p>We at Texas Housers appreciate the opportunity to provide comment on the H-GAC Method of Distribution. H-GAC has specified that it is not requesting comments on its formulas for distribution, as they have already been approved by the board. For that reason, I will focus on the information provided on pages 5-8, as requested in the notice of the comment period.</p> <p>However, while H-GAC's board has already approved the distribution methodology from the original draft MOD, Texas Housers' original comments regarding the inadequacy of this methodology still stand. For this reason, I've incorporated these original concerns below.</p> <p>1) Long term planning and recovery The statement provided regarding long term planning and recovery is vague and doesn't offer any details as to what the various activities might be, apart from those allowed by the state. It would be more helpful to know what types of activities the region will prioritize, especially in terms of infrastructure funding, which can be interpreted in a very broad way. We are especially concerned that more research and planning is needed to impactfully and equitably designate buyout funding.</p> <p>The MOD's buyout allocation methodology is seriously flawed, which could result in funding allocation that doesn't reflect the areas that need long-term solutions.</p> <p>The first problem is that it assumes damage weights will reflect the suitability of these areas for buyouts, not to mention the fact that the damage was caused by flooding, as opposed to wind. Within the H-GAC region, the majority of Harvey damage claims appears to be, in fact, caused by flooding and not wind, which is not the case in all parts of the disaster area. However, there are areas such as Wharton County and the most-impacted zipcodes in Colorado County, where there are also considerable wind damage claims, according to the map provided in the</p>	<p>Thank you for your comment.</p> <p>For both the buyout/acquisition and infrastructure programs, all activities must be specifically related to Hurricane Harvey, and must meet the criteria as outlined in the State of Texas Plan for Disaster Recovery: Hurricane Harvey (Section IV.F.7.d).</p> <p>The H-GAC MOD is designed to provide flexibility for local jurisdictions to address unique local needs. H-GAC has not identified priorities for the region and has opted not to limit Grantees in the region to selecting projects within any specific priorities. H-GAC's allocation formula was based on the best data available at the regional level. However, H-GAC encourages local jurisdictions to utilize relevant local plans and the best available local data, and a robust public engagement process, to ensure that projects further long-term recovery and address long term housing needs.</p> <p>The requirement of 70% of the aggregate CDBG-DR funds to be utilized for the benefit of low- or moderate-income population is established in the Federal Register and is reiterated in the GLO's State Action Plan (referenced above). The responsibility for developing specific projects that meet this threshold will rest with local governments. If local governments are unable to deliver eligible projects, H-GAC has recommended a reallocation hierarchy that will redirect funding which cannot be utilized to jurisdictions that have the highest percentage of housing damage.</p> <p>It is H-GAC's understanding that the GLO will require each project applicant to meet the low- to moderate-income percentage requirement at the local level. H-GAC is developing a guidance for its member governments that will include a summary of public comments and inform prioritization of local projects within their jurisdictions.</p> <p>With respect to the minimum allocation per jurisdiction for Buyout/Acquisition (\$1,000,000) and Infrastructure (\$100,000) programs, these thresholds were established by the GLO. To increase these minimums would reduce the number</p>

#	DATE RCVD	FORM	SUBMITTED BY	COMMENTS	H-GAC RESPONSE
				<p>GLO's State Action Plan. For those wind-damaged units, buyouts will not solve the problem, which is why is it necessary to distinguish between FVL caused by various forces in order to truly consider suitability of damaged homes for buyouts.</p> <p>Second, local jurisdictions and H-GAC must make use of data available through the National Flood Insurance Program about concentrations of repetitive loss properties in order to intelligently allocate this funding. The Community Rating System (CRS) offers jurisdictions advice on locating concentration areas of repetitive loss properties, collecting remote data on these properties and determining the cause of the ongoing flooding problems there. This type of investigation will be essential in locating areas that are suited to buyouts, as opposed to individual homes that were damaged and should be rebuild with mitigation in mind or areas where poor infrastructure is to blame.</p> <p>2) Unmet housing needs Again, the vague statement provided in no way specifies how these programs will effectively target and address unmet needs in the region.</p> <p>There are also unresolved problems with the allocation methodology. For example, using FEMA-Verified Loss categories will reproduce inequality in disaster funding designation. FEMA damage levels (FVL) are not adequate to determine allocation of funding. One reason we're concerned is that FEMA-verified loss calculations (or variations thereof, such as those used in the MOD) rely on personal property damage for renters, which undercounts these households, leaving them out of the calculation of need. The "weighted damage" calculation will also further undercount households that were found to have low FVL levels due to the pre-existing condition or low value pre-storm value of their home. As a result, H-GAC should not rely entirely on this data to determine where funding will be distributed. The income (and hence ability to pay) of disaster survivors should be considered when determining whether they will require funding to recover. One way to accomplish this is to utilize the methodology recommended by Texas Housers in response to the Draft Action Plan. This methodology factors in the income level (ELI/VLI/LI) of the household when a threshold for unmet need. In other words, there is a lower threshold for unmet need among lower income households because they are more likely to require outside aid to recover.</p> <p>3) Low-to-moderate income requirement This section is entirely inadequate to provide guidance on how the LMI requirement will be met and which levels of government are responsible for ensuring that this happens. For example, this statement doesn't specify whether the local jurisdictions are required to meet the LMI requirement individually, or whether that will be calculated at the COG</p>	<p>of jurisdictions that would receive an allocation in H-GAC's Method of Distribution. Your comment will be passed along to the H-GAC Board of Directors and the Texas General Land Office.</p>

#	DATE RCVD	FORM	SUBMITTED BY	COMMENTS	H-GAC RESPONSE
				<p>level, allowing different jurisdictions to serve different income levels. How will this be communicated to the locals? This is not something that can be considered as an afterthought but must be a top priority in order to make sure low income households are given every chance to recover. Our experience on the ground shows that there is an enormous gulf between the state of low income and non-low income households a year after the disaster. Even if both were hit by the storm and suffered damage, those households with the resources (such as savings, access to credit, and family networks) to recover have already recovered. Those who don't have these advantages will continue to live in homes that are uninhabitable and unsafe. The purpose of CDBG-DR funds is to serve these people. This is why the LMI requirement and its execution cannot be taken lightly. All residents in the H-GAC region deserve to be considered, but it is the responsibility of the COG to ensure that the most vulnerable are taken care of with this funding.</p> <p>Other comments on the LBAP program: Small amounts of funding are not sufficient to engage in a well-planned buyout program that doesn't result in "checker boarding" of neighborhoods (lack of concentration of buyouts in affected areas) or strain on resources and city services (due to the continued need to serve areas that have been partially bought out). One million dollars, which is the cutoff for any jurisdiction to receive its own buyout funding (before it is rolled up to the next highest jurisdiction) is not enough to fund a significant buyout program that doesn't exacerbate these problems. Buyout programs need to be concentrated in areas that have repetitive flood losses that can only be addressed through an organized acquisition program that offers households sufficient money to move to an equivalent home in a safer area. Finally, when funding is "rolled up" to the county level, there should be a requirement to serve areas that doesn't have a large enough damage total to have their own funding allocation. It makes sense for jurisdictions NOT to receive small amounts of funding that are insufficient to engage in meaningful recovery or mitigation activities, but these areas shouldn't be left without funding. Otherwise, smaller jurisdictions with fewer housing units may end up not getting access to the funds necessary for recovery.</p> <p>Thank you for your consideration.</p>	
9	9/14/2018	Public Comment (e-mail)	Madison Sloan Director of Disaster Recovery and Fair Housing Project at Texas Appleseed and Cyrus Reed, PhD	<p>Dear Mr. Taebel:</p> <p>The undersigned appreciate the opportunity to provide comments on the reposted version of HGAC's Method of Distribution (MOD) covering \$240,705,199 in Community Development Block Grant for Disaster Recovery (CDBG-DR) funds allocated by the State of Texas in its Action Plan. We</p>	<p>Thank you for your comment.</p> <p>For both the buyout/acquisition and infrastructure programs, all activities must be specifically related to Hurricane Harvey, and must meet the criteria as outlined in the State of Texas Plan for Disaster Recovery: Hurricane Harvey (Section IV.F.7.d).</p>

#	DATE RCVD	FORM	SUBMITTED BY	COMMENTS	H-GAC RESPONSE
			<p>Conservation Director of Lone Star Chapter at Sierra Club and Earthea Nance, PhD, PE, CFM</p>	<p>do note that although the comment period began on April 30, 2018, notice of the reposting and new comment period was not distributed by email until September 11, 2018, three days before the comment deadline.</p> <p>Because H-GAC had not made changes to the MOD posted for public comment and approved by the Board on July 17, 2018, we have attached our original comments and incorporate them by reference herein.</p> <p>We offer the following additional comments:</p> <ol style="list-style-type: none"> 1. Long-Term Planning and Recovery H-GAC does not explain “how its method of distribution fosters long-term community recovery that is forward-looking and focused on permanent restoration of infrastructure, housing, and the local economy.” Simply stating that “programs will be conducted by eligible communities through various types of eligible activities” does not even explain what these activities will be, let alone explain how they will contribute to long-term planning and recovery. <p>H-GAC fails to cite to planning documents, including hazard mitigation plans or the GLO’s Coastal Resiliency Master Plan, to establish funding priorities is likely to result in ineffective and incomplete disaster recovery without consideration of mitigating future disasters. H-GAC’s allocation methodology exacerbates this problem, by making adequate funding for effective programs unavailable in certain jurisdictions.</p> 2. Unmet Housing Needs The MOD Guidelines require the COG’s Method of Distribution Summary Form to include “an explanation of how unmet housing needs will be addressed or how economic revitalization or infrastructure activities will contribute to long-term recovery and restoration of housing in the most impacted and distressed areas.” (MOD Guidelines at 13) SETRPC’s MOD does not include this explanation. A statement that “buyout/acquisition and infrastructure activities are critical to the long-term recovery and restoration of housing within the Houston-Galveston region” and again, vague assertions that the subrecipients will engage in “various eligible activities” is not an explanation. 3. Low- to Moderate-Income Requirement The MOD does not include the required plan to meet the 70 percent low- and moderate-income requirement. (GLO Guidelines at 7 and 9.) It simply restates that the Action Plan requires that at least 70 percent of all program funds must benefit low- and moderate-income (LMI) persons. Restating a requirement is in no way a plan, and the MOD must be revised to meet this requirement. 	<p>The H-GAC MOD is designed to provide flexibility for local jurisdictions to address unique local needs. H-GAC has not identified priorities for the region and has opted not to limit Grantees in the region to selecting projects within any specific priorities. H-GAC’s allocation formula was based on the best data available at the regional level. However, H-GAC encourages local jurisdictions to utilize relevant local plans and the best available local data, and a robust public engagement process to ensure that projects further long-term recovery and address long term housing needs.</p> <p>The requirement of 70% of the aggregate CDBG-DR funds to be utilized for the benefit of low- or moderate-income population is established in the Federal Register and is reiterated in the GLO’s State Action Plan (referenced above). The responsibility for developing specific projects that meet this threshold will rest with local governments. If local governments are unable to deliver eligible projects, H-GAC has recommended a reallocation hierarchy that will redirect funding which cannot be utilized to jurisdictions that have the highest percentage of housing damage.</p> <p>It is H-GAC’s understanding that the GLO will require each project applicant to meet the low- to moderate-income percentage requirement at the local level. H-GAC is developing a guidance for its member governments that will include a summary of public comments and inform prioritization of local projects within their jurisdictions.</p> <p>With respect to the minimum allocation per jurisdiction for Buyout/Acquisition (\$1,000,000) and Infrastructure (\$100,000) programs, these thresholds were established by the GLO. To increase these minimums would reduce the number of jurisdictions that would receive an allocation in H-GAC’s Method of Distribution.</p> <p>Your comment will be passed along to the H-GAC Board of Directors and the Texas General Land Office.</p>

#	DATE RCVD	FORM	SUBMITTED BY	COMMENTS	H-GAC RESPONSE
				<p>This section also fails to explain why the COG has chosen to use 70% of the program fund to benefit LMI individuals instead of ensuring that 70% of funds benefit areas that are 51% or more LMI. While this may be a reasonable choice, H-GAC needs to explain that choice, particularly given that LMI communities, which are often where members of protected classes under the Fair Housing Act, frequently have substandard infrastructure that does not protect them from, or mitigate the future effects of, a natural disaster, as a result of discrimination and disinvestment.</p> <p>We support H-GAC, GLO, and HUD’s enforcement of this requirement, and urge you to resist any attempts to lower this LMI requirement in any way. We would in fact encourage you to consider a higher LMI requirement.</p> <p>4. Local Buyout and Acquisition Program <i>The State of Texas Plan for Disaster Recovery: Hurricane Harvey – Round 1 (Action Plan)</i> states that “for both housing and infrastructure, the MOD establishes a balance between the total unmet need, the ability to recovery, and the relative population of the impacted areas . . . each of these variables plays a factor in the recovery process and is reflected in the distribution models.” (Action Plan at 73) Similarly, the GLO’s <i>Hurricane Harvey - Round 1 Council of Governments Method of Distribution Guidelines</i> (MOD Guidelines) require local MODs to “[e]stablish objective criteria for the allocation of funds to eligible entities or activities (distribution based on, but not limited to, unmet need)”. (MOD Guidelines at 7 and 8) (emphasis added)</p> <p>Levels of property damage are an inappropriate metric on which to allocate buyout funds. Areas with more recorded (by FEMA’s flawed system) damage may be getting buyout funds when they do not have repetitive loss areas, while jurisdictions where the majority of damage was in repetitive flood areas will not get enough funding for an effective buyout program. H GAC and its local jurisdictions must make use of data available through the National Flood Insurance Program about concentrations of repetitive loss properties and conduct a local needs assessment in order to capture LMI households who could not afford flood insurance, but still experience repetitive flooding, in order to effectively sub allocate this funding. The Community Rating System (CRS) offers jurisdictions advice on relocating concentrated areas of repetitive loss properties, collecting remote data on these properties and determining the cause of the ongoing flooding problems there. This type of investigation will be essential in locating areas that are suited for buyouts, as opposed to individual homes that were damaged and should be rebuild with mitigation in mind or areas where poor infrastructure is to blame.</p>	

#	DATE RCVD	FORM	SUBMITTED BY	COMMENTS	H-GAC RESPONSE
				<p>Allocating small amounts of funding to a large number of jurisdictions is also ineffective and not conducive to long-term recovery and planning or mitigating future disaster damage. Buying out a few homes in scattered areas will result in “checkerboard” neighborhoods (lack of concentration of buyouts in affected areas) that leaves remaining residents vulnerable to future disasters (and unable to access other disaster recovery resources); strain resources and city services because of the continued need to serve areas that have been partially bought out; and recreate current patterns of vulnerability and flood hazard. One million dollars is not enough to fund a significant buyout program that does not exacerbate these problems. Buyout funding needs to be concentrated in areas that have repetitive flood losses that can only be addressed through an organized acquisition program that offers households sufficient money to move to an equivalent home in a safer area.</p> <p>5. Local Infrastructure Program The current allocation methodology is likely to recreate current patterns of vulnerability and flood hazard. Some jurisdictions are receiving as little as \$106,901 for infrastructure projects. This amount is unlikely to be large enough to fund a significant infrastructure program that repairs disaster damage, let alone mitigates future disaster vulnerability. These are also the jurisdictions with the fewest other resources, like bond funding, to supplement CDBG-DR funding.</p> <p>This problem is exacerbated by H-GAC’s failure to prioritize eligible activities. H-GAC states in its Long-Term Planning and Recovery section that both the buyout and acquisition and infrastructure programs are supposed to “reduce repetitive loss and risk to human health and safety and improve critical infrastructure that was damaged or failed to function.” It is extraordinarily difficult to imagine how senior centers, parks, playgrounds, and other recreational facilities meet these goals. The method of distribution, however, makes it more likely that jurisdictions will choose projects like, for example, a traffic light study¹, because they do not have enough funding for a drainage project, or to harden a water facility. This allocation also makes collaboration on regional projects that would protect larger numbers of households more difficult.</p> <p>Ideally, of course, CDBG-DR funds could return all aspects of a community to their pre-storm or more resilient condition, but there is not enough funding to do this. H-GAC must prioritize projects with the most urgent need, and the closest relationship to protecting communities from future disasters.</p> <p>The MOD fails to address the standards to which any new construction is built, including how the buildings will be inspected to assure compliance with HUD required standards (such as Energy Star), and the State of</p>	

#	DATE RCVD	FORM	SUBMITTED BY	COMMENTS	H-GAC RESPONSE
				<p>Texas minimum energy codes (2015 IECC for commercial and 2015 IRC, Chapter 11 for residential). Because Texas law does not allow county governments to directly inspect buildings, the MOD must address how entities using funding for reconstruction purposes will assure compliance with HUD and Texas standards on buildings, including compliance inspections. This is particularly important related to rebuilding of public facilities.</p> <p>In addition, infrastructure programs must prioritize the needs of LMI households and communities, in particular, communities with substandard infrastructure as a result of discrimination and disinvestment. A key issue for many of these communities is environmental justice, as they were impacted not only by flooding but also by hazards related to chemicals, oils, sewage, waste or air pollution during the event. Neighborhoods that were doubly impacted by floodwaters polluted with chemicals, oils, waste, or sewage should be prioritized for mitigation as well.</p> <p>In conclusion, we appreciate HGAC's work on the MOD, and your consideration of these comments. Please let us know if we can provide further information or be helpful in any way.</p>	
10	7/6/2018	Public Comment (e-mail)	Brennan Griffin, Deputy Director for Texas Appleseed	<p>We appreciate the opportunity to provide comments on the HGAC's Method of Distribution (MOD) covering \$240,705,199 in Community Development Block Grant for Disaster Recovery (CDBG-DR) funds allocated by the State of Texas in its Action Plan.</p> <p>Texas Appleseed is a public interest justice center that works to change unjust laws and policies that prevent Texans from realizing their full potential. Since Hurricanes Katrina and Rita in 2005, Texas Appleseed has worked with a network of organizations in Texas, including housing advocates, policy experts, and grassroots community groups, to ensure that all Texas families are able to recover in the wake of a natural disaster, that communities are rebuilt to be more resilient, and that all families have the opportunity to live in safe, decent neighborhoods with equal access to educational and economic opportunity.</p> <p>We do not believe that H-GAC's MOD is compliant with GLO requirements as it does not follow the MOD form provided by GLO and consists only of data and allocation tables. It provides no further information on the details of the buyout or infrastructure programs, nor does it contain any information on the public participation process, how HGAC's MOD furthers long term recovery, unmet housing needs, the LMI income requirement, or affirmatively furthering fair housing. HGAC must produce a complete and compliant MOD for public comment.</p> <p>We offer the following comments on what needs to be included in HGAC's MOD:</p>	<p>Thank you for your comment.</p> <p>This comment was originally submitted to H-GAC on 7/6/18 during the initial public comment period. In continuation of the Public Comment period, the MOD Summary Form and Citizen Participation Plan were posted online for additional comment from 8/30/18 – 9/14/18. H-GAC held an additional public meeting on 9/10/18 to further encourage comment on posted materials.</p> <p>As outlined in a Citizen Participation Plan submitted to the GLO on May 18, 2018, H-GAC implemented a media campaign using local English and non-English newspapers to inform and invite the public to four Public Planning Meetings and two Public Hearings. H-GAC posted notices of these meetings in relevant Papers of General Circulation for all 12 eligible counties and on the H-GAC, General Land Office, and the Secretary of State websites.</p> <p>H-GAC accepted written comments on the draft Method of Distribution beginning at 4:00 p.m. on Thursday, June 21, 2018 through 4:00 p.m. Friday, July 6, 2018. Comments were accepted by mail, through an online form, and in person at two public hearings.</p> <p>The Method of Distribution does not include a factor for Low- to Moderate-Income Households (LMI) and is based solely on housing damage, weighted for severity. The methodology behind this weighting are available on H-GAC's website.</p>

#	DATE RCVD	FORM	SUBMITTED BY	COMMENTS	H-GAC RESPONSE
				<p>A. Local Buyout and Acquisition Program:</p> <p>Program guidelines for this program must be developed in a transparent process with extensive community input. Local communities must have a citizen participation process for drafting buyout guidelines. Regardless of whether these planned buyouts are voluntary or mandatory, relocating, away from an existing community or a home that has been in a family for generations, can be difficult and even traumatic. Without planning and community buy-in, a voluntary individual buyout program can result in a patchwork of empty and occupied homes, creating a blighted neighborhood. One of the critical issues in ensuring a successful buyout program is equity and ensuring that program rules and processes do not have a disparate impact on particular groups of homeowners.</p> <p>Local buyout and acquisition programs must also prioritize LMI households in floodways and floodplains, who have the least resources with which to relocate on their own, leaving them a choice between housing instability and potential homelessness, or continuing to live in homes that may be structurally compromised or present health risks because of mold. It is particularly critical for LMI families that this buyout program includes not only acquisition and demolition, but relocation payments and other assistance and incentives as well. As the Federal Register Notice states, “a buyout program that merely pays homeowners to leave their existing homes does not result in a low- and moderate-income household occupying a residential structure and, thus, cannot meet the requirements of the LMH national objective.” (83 FR 5863) Local buyout programs should include plans to build housing in safer areas.</p> <p>Low- and moderate-income households must be provided with enough funds that the choice to move is a realistic one (or to ensure that they can actually move to a safer area in the case of mandatory buyouts.) The worst-case scenario is that families who accept a buyout are unable to find housing in safer areas and are forced to move back into their original or less safe neighborhoods.</p> <p>The decision of whether to use pre- or post-storm home value is an important one. In particular, using the pre-storm value of a home to determine disaster recovery program benefit limits often has a discriminatory impact on the basis of race or ethnicity as well. Following Hurricane Katrina, the National Fair Housing Alliance (NFHA), the Greater New Orleans Fair Housing Action Center (GNOFAC), and African-American homeowners sued the State of Louisiana and the U.S. Department of Housing and Urban Development (HUD) alleging racial discrimination in the State’s CDBG-DR funded Road Home Program, which provided grants to homeowners to repair or rebuild their homes. The original grant formula was based on the pre-storm value of a home, which resulted in African-American homeowners receiving less repair money than White homeowners, because their homes were located in neighborhoods with lower home values based on market discrimination and the legacy of segregation. Many African-American families were left unable to complete repairs or return home or</p>	<p>The requirement of 70% of the aggregate CDBG-DR funds to be utilized for the benefit of low- or moderate-income population is established in the Federal Register and is reiterated in the GLO’s State Action Plan. The responsibility for developing specific projects that meet this threshold will rest with local governments. In the event that local governments are unable to deliver eligible projects, H-GAC has recommended a reallocation hierarchy that will redirect funding which cannot be utilized to jurisdictions that have the highest percentage of housing damage.</p> <p>It is H-GAC’s understanding that the GLO will require each project applicant to meet the low- to moderate-income percentage requirement at the local level. H-GAC is developing a guidance for its member governments that will include a summary of public comments and inform prioritization of local projects within their jurisdictions.</p> <p>H-GAC is not proposing as part of this Method of Distribution any additional requirements on local implementation of buyout/acquisition or infrastructure projects beyond those that have been established in in the Federal Register or GLO’s State Action Plan. H-GAC will provide the feedback regarding additional policies for buyouts/acquisitions to the GLO.</p>

#	DATE RCVD	FORM	SUBMITTED BY	COMMENTS	H-GAC RESPONSE
				<p>living in uninhabitable houses. As Louisiana Congressman Cedric Richmond said when the case was settled in 2011,</p> <p><i>[e]veryone knew that the Road Home formula for calculating grant awards was deeply flawed and punished folks in neighborhoods where home values were lower. . . After all, if two families are both rebuilding a three bedroom home then their construction costs will be the same—regardless of the neighborhood. In that case, each family deserves the same assistance from their government. Unfortunately, the flawed formula was effectively discriminatory, locking many families out of equitable assistance.</i></p> <p>HGAC’s and local program guidelines must ensure that buyout and acquisition programs are consistent regardless of whether the cost is funded by FEMA or CDBG-DR. CDBG-DR funding could be used to provide additional funds for LMI families in FEMA programs that would not provide them with enough funding to move, for example. HGAC should be particularly careful that they are not using a program that provides lesser benefits to serve communities and homeowners of color. Local program guidelines must be identical, no family should have unequal access to disaster recovery simply because of where they live. We recommend that HGAC, in collaboration with local communities and residents, develop one buyout program with one set of guidelines that is then administered by local jurisdictions.</p> <p>B. Local Infrastructure Program</p> <p>Resilience is the ability to withstand and recover from disasters quickly, in a way that mitigates future damage and vulnerability, and in a way that goes beyond physical infrastructure. Low-income communities and communities of color are disproportionately affected by and have a harder time recovering from a disaster because of both geographic and social vulnerability forced on them by segregation, discrimination, and often the cumulative effects of previous disasters, on wealth and access to opportunity. For its Natural Disaster Resilience Competition (NDRC) HUD defined a resilient community as one which “is able to resist and rapidly recover from disasters or other shocks with minimal outside assistance,” and that plan and implement disaster recovery that mitigates future threats “while also improving quality of life for existing residents and making communities more resilient to economic stresses or other shocks.” Improving the quality of life for existing residents and making them more resilient to other shocks, including economic stress that can push middle and working class families into poverty following a disaster, is at the core of our concern for equity in disaster recovery.</p> <p>Infrastructure programs must prioritize the needs of low- and middle-income households and communities, in particular, communities with substandard infrastructure as a result of discrimination and disinvestment. A key issue for many of these communities is environmental justice, as they were impacted not</p>	

#	DATE RCVD	FORM	SUBMITTED BY	COMMENTS	H-GAC RESPONSE
				<p>only by flooding but also by hazards related to chemicals, oils, sewage, waste or air pollution during the event. Neighborhoods that were doubly impacted by floodwaters polluted with chemicals, oils, waste, or sewage should be prioritized for mitigation as well.</p> <p>Also key to economic recovery and future resilience is ensuring that the jobs generated by recovery projects and programs are filled by local workers and those who lost jobs because of Harvey to create real jobs and job training for community residents and create additional opportunities for community businesses. An economic development program that provides loans to small business will not be successful unless that business has access to a workforce. Section 3 of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701u; 24 C.F.R 135) requires recipients of certain HUD financial assistance, including CDBG-DR, provide job training, employment, and contracting opportunities for low or very low income residents in connections with projects or activities in their neighborhoods to the greatest extent possible. Historically, Section 3 has not been vigorously enforced, and jurisdictions have completely failed to comply with its provisions. We urge HGAC to fully implement and enforce Section 3, including monitoring (for example, of whether contractors are genuinely Section 3 eligible), helping to set up a training and jobs pipeline, measuring success in terms of the number of hours worked by Section-3 eligible workers, clearly defining the geographic area from which residents should get preference as locally as possible, and imposing meaningful monetary penalties on contractors who do not meet their Section 3 goals. In addition to Section 3, jurisdictions routinely impose requirements like local hiring and job production in exchange for government financial assistance or other benefits and we encourage HGAC and its subrecipients to do so.</p> <p>Other options for increasing the number of jobs going to affected individuals and communities are ensuring that contractor qualifications include a commitment to local hiring and best value bidding processes that give more points to bidders who can comply with job quality and targeted hiring standards. CDBG-DR presents an opportunity to leverage housing and infrastructure funds into economic development funds as well.</p> <p>C. Needs Assessment and Funding Allocation</p> <p>We appreciate that HGAC has used a weighting factor for share of total weighted damage to make a preliminary allocation of program funds. However, seeing as this methodology is based on misleading data and methodology provided by FEMA and HUD, we are concerned that HGAC will not be accurately addressing the critical housing and infrastructure needs of low and moderate income people in the area. The methodology provided by HUD and GLO for determining unmet housing needs underestimates the amount of loss to low-income populations. Using this methodology will not include the severity of damage suffered by low-income homeowners and distort the geographic allocation of money based on</p>	

#	DATE RCVD	FORM	SUBMITTED BY	COMMENTS	H-GAC RESPONSE
				<p>that standard. We first raised this issue in our comments on how the MOD should be conducted on June 6, 2018.</p> <p>Using FEMA Verified Loss (FVL) of real property (owners) to determine unmet need at the State level found that 54% of affected homeowners had no unmet needs on the basis that their FVL was below the thresholds set for the FEMA damage categories. However, when this is broken down by income level, 69 percent of extremely low-income (ELI) owners were found to have no unmet needs. Conversely, only 41 percent of non-LMI owners were found to have no unmet needs. The conclusion, based on FEMA data, that families making less than 30% of Area</p> <p>Median Income (AMI), which, for example, is \$12,060 in the Beaumont-Port Arthur MSA and \$13,100 in in the Corpus Christi MSA, have been better able to recover than families making more than double that amount is simply not credible. The inaccuracy of this calculation is borne out by a study conducted by the Episcopal Health Foundation and the Kaiser Family Foundation three months after Hurricane Harvey. The study found that lower-income families and Black and Latinx Texans were less likely to have homeowners', renters', or flood insurance, and that,</p> <p style="text-align: center;"><i>[n]early half (46%) say they or someone else in their household lost job-related income as a result of the storm, such as getting fewer hours at work (32%), losing a job entirely (12%) or losing income from a small business or unpaid missed days (32%). These income disruptions affected a greater share of Hispanic (65%) and Black (46%) residents compared to White residents (31%).</i></p> <p>Lower- and even middle-income families are less likely to have the savings and access to credit that let them access safe housing (including more immediate repairs) and are more likely to be forced to relocate far from jobs and schools, to live in overcrowded housing or double up with family or friends, remain in unsafe housing, or become homeless.</p> <p>2015 Pew Charitable Trust study found that less than half (45%) of American households have even one month's income in savings in case of an emergency. Lower income households are in an even more precarious situation, with only two weeks of savings. Those at the bottom of the income scale could only survive 9 days on their liquid assets. The study also indicates that even middle-income households could only scrape together about four months of income; it has been nearly 10 months since Hurricane Harvey.</p> <p>Pew also looked at disparities in liquid savings among various racial and ethnic groups and found that,</p> <p style="text-align: center;"><i>[t]he typical white household has slightly more than one month's income in liquid savings, compared with just 12 days for the typical Hispanic</i></p>	

#	DATE RCVD	FORM	SUBMITTED BY	COMMENTS	H-GAC RESPONSE
				<p><i>household and only five days for the typical African-American household. In fact, a quarter of black households would have less than \$5 if they liquidated all of their financial assets, compared with \$199 and \$3,000 for the bottom 25 percent of Hispanic and white households, respectively.</i></p> <p>In addition, median white wealth is twelve times median black wealth, a disparity that can be traced to the history of segregation and discrimination in the United States, from government redlining to current lending discrimination.</p> <p>The primary purpose of the CDBG program is to benefit LMI populations, yet the HUD methodology the State and therefore HGAC using has the clear, disproportionate effect on LMI populations of excluding them from the unmet needs assessment conclusions. This disproportionate effect is not only on low- and moderate-income Texans, but on Black and Latinx populations as well.</p> <p>Using this methodology means that HGAC is budgeting for unmet housing needs with the expectation that most LMI households, who fall into lower level damage categories if they are represented at all, are not severely damaged and will not need their homes rebuilt. While the average FVL for non-LMI homeowners was about twice that of ELI owners, the average income for non-LMI owners is over 14 times that of ELI owners. This methodology underrepresents LMI housing needs by income level, particularly misrepresenting the level of unmet rental housing need for ELI families. HGAC’s use of FVL damage categories to weight the geographic distribution of CDBG-DR funds, therefore, will end up allocating resources away from areas that need them the most, affecting not only those families, but those communities as a whole.</p> <p>Texas Appleseed supports the use of a data-based formula to allocate federal disaster recovery funds. But that formula must be adjusted to account for deficiencies in FEMA and other data and ensure that the needs of all Texans affected by Hurricane Harvey are taken into account. We strongly recommend that HGAC use the methodology proposed by the Texas Low Income Housing Information Service (Texas Housers) in its comments on the draft Action Plan - or a similar methodology - which relates a household’s FVL to their income, thereby considering the level of impact on a household, acknowledging the loss valuation variations produced by the FEMA/HUD methodology, and more accurately counts households with unmet housing needs that are the least able to recover and most vulnerable to housing insecurity. This method also ensures that the geographic allocation of funding addresses the actual levels of unmet housing needs in each locality.</p> <p>In conclusion, we appreciate HGAC’s work on the Action Plan and disaster recovery, and your consideration of these comments. Please let us know if we can provide further information or be helpful in any way.</p>
