Non-Specified Container Conversions		Conversion Table Notes
Container Size	Conversion	<ul style="list-style-type: none"><li>• These conversions will apply to all disposal and transportation items priced per container unless quoted separately</li><li>• Numbers are expressed as a factor of a 55 gallon drum (e.g., 55 gallon price x 35% = sell price)</li><li>• The greater of the conversion factor or location container minimum of \$40 will be applied unless quoted a different rate.</li><li>• Some waste may have a different, typically lower, minimum which is reflected on the Non-Standard Minimum table below.</li><li>• Smaller container sizes can be converted to larger containers using the following steps. 1) Divide the smaller container price by its conversion factor for the 55 gallon price (e.g., 5 gallon price ÷ 35% = 55 gallon price). 2) Use the normal conversions on the 55 gallon drum price to convert to other container sizes.</li></ul>
