Re: Conformity Determination for the Houston-Galveston-Brazoria Nonattainment Area

Dear Mr. Randall:

Thank you for the opportunity to review the conformity determination for the Houston-Galveston-Brazoria (HGB) nonattainment area, which was submitted for interagency consultation and review in June 2008. We are satisfied that all requirements have been met, as discussed below.

The HGB area is designated nonattainment for ozone. In order for the area to demonstrate transportation conformity, the area must show that projected emissions from the 2035 Regional Transportation Plan and the 2008-2011 Transportation Improvement Program for the Houston-Galveston Transportation Management Area is at or below the applicable State Implementation Plan (SIP) motor vehicle emissions budgets, as required under Title 40 Code of Federal Regulations Part 93. Transportation emissions were projected for analysis years 2009, 2019, 2025, and 2035. Regional transportation emissions were compared to the 2008 Reasonable Further Progress motor vehicle emissions budget adopted by the Texas Commission on Environmental Quality (TCEQ) May 23, 2007.

The TCEQ air quality staff reviewed the documents. All issues were discussed in a series of conference calls and e-mails with the Houston-Galveston Area Council, the Federal Highway Administration, the U.S. Environmental Protection Agency, the Texas Department of Transportation, and the TCEQ. All issues were resolved through this interagency consultation process.

The TCEQ is satisfied requirements have been met and transportation conformity has been demonstrated. If you have any questions about our review, please contact Ms. Margie McAllister of my staff at 512-239-1967 or [mmcallis@tceq.state.tx.us](mailto:mmcallis@tceq.state.tx.us).

Sincerely,
