ITEM 11. TRANSPORTATION ALTERNATE SET ASIDE PROGRAM, (TASA) UPDATE, MR. CHRIS WHALEY, H-GAC

Mr. Chris Whaley (H-GAC) gave a presentation on the TASA Update-Active Transportation Investment Category Criteria. The AT Investment Category criteria was first presented to the Pedestrian-Bicyclist subcommittee on April 17, 2025. A workshop was held in May to refine the criteria to submit to the TIP subcommittee, TAC and TPC for approval. It will be based on the existing 100-point rubric that is already in place for the project selection process, however, staff recommended a change in the point distribution. Other

projects had 50 points dedicated to the investment category criteria and 20 points the Benefits to Other Categories. Staff has proposed to give 55 points to Investment Category Focused Criteria and 15 to Benefits to other Categories. The reasoning was that it would be difficult to assess how ped-bike projects would benefit freight and regional goods movement. Also, the number of points dedicated to planning factors remain unchanged as it is universal across all categories. The criteria will be used to score projects in the upcoming Transportation Alternatives Set-Aside (TASA) Call for Projects (Fall 2025). Mr. Whaley described the criteria and scoring to the Council. A discussion occurred after the presentation. Presentation, comments, and discussions are available in the official meeting recording [HERE](#)

ITEM 12. SAFE ROUTES TO SCHOOL (SRTS) UPDATE, MR. CHRIS WHALEY, H-GAC

Mr. Chris Whaley (H-GAC) gave a presentation on the framework for creating a regional Safe Routes to School (SRTS) program which is identified in the goals of H-GAC's Unified Planning Work Program (UPWP) it includes conducting a literature review and best practices study of SRTS, including recommendations for the MPO's role in moving SRTS forward in the region. It also provides planning support for implementation of SRTS best practices in the region and provides technical support for regional, local area corridor, and site - specific SRTS plans. Staff reviewed the Safe Routes Partnership website, and the transportation plans of 23 other Texas MPOs and 4 out of state MPOs. Staff also reviewed the types of support that MPOs provide in a SRTS program and can be categorized as planning and technical support, funding sources, infrastructure evaluation and program effectiveness. Staff recommends TA funds are used for SRTS, separate SRTS planning projects to its own call for projects, incentivize SRTS infrastructure in upcoming TASA Call for Projects, Inventory existing SRTS programs in the area and stakeholder interest in starting more. Discussion occurred after the presentation. Presentation, comments, and discussions are available in the official meeting recording [HERE](#)

The triennial goal is established to ensure that DBE firms have reasonable opportunity to participate in DOT assisted contracts. DBE program guidance includes those receiving DOT funds must develop and implement a DBE program that confirms to DOT standards. Also, they must adhere to standards TxDOT federally approved DBE. The MPO sets our own DBE goal based on our data and DBE program following all federal criteria. Dr. Kim informed the Council on the types of contracts the MPO has to offer and the percent goal based on participation, the FY2026-2028 DBE goal, and the two step process to determine the DBE triennial goal, criteria and a timeline for approval. Discussion occurred after the presentation. Presentation, comments, and discussions are available in the official meeting recording [HERE](#)
