

APPENDIX 3
2040 RTP Project Listing

2040 RTP

FISCALLY CONSTRAINED PROJECTS

Part I: Corridor-Based Major Investments

Part II: Regional Investment Programs, Regionally Significant Projects Subject to Conformity

Part III: Regional Investment Programs, Exempt and Not Regionally Significant Projects in First Ten Years (FY 2015-2024)

EXEMPT: Project exempt from transportation conformity under 40 CFR §93.126

EREA: Project exempt from regional emissions analysis under 40 CFR §93.127

NRS: Project "Not Regionally Significant" under current conformity definition

Regionally Significant Projects Definition

Regionally Significant Roadway Projects

Non-exempt projects¹ on regionally significant roadways will be treated as regionally significant projects if they:

- a) Provide additional through traffic lanes greater than 1 mile in length;
- b) Construct a bypass to a principal arterial/interstate along on a new alignment;
- c) Add or extend freeway auxiliary/weaving lanes from one interchange to a point beyond the next interchange;
- d) Construct a new interchange that provides access from or allows movement between facilities that was not previously possible; *and/or*
- e) Remove an existing interchange and result in the elimination of access from or movement between facilities which previously existed;

Regionally significant roadways are limited to:

1. All freeways, tollways and other highways classified as principal arterial or higher; *and*
2. As identified in the conformity document, select highways currently designated as minor arterials that serve significant interregional and intraregional travel, and connect rural population centers not already served by a principal arterial, or connect with intermodal transportation terminals not already served by a principal arterial.

Regionally Significant Transit Projects

Any transit facility within an exclusive right-of-way (“fixed guideway”) that offers an alternative to regional highway travel including light rail, commuter rail, bus rapid transit, and barrier separated HOV lanes will be considered regionally significant.

Other Projects

The regional significance of non-exempt projects¹ not addressed in the above statements will be decided on a case-by-case basis through the interagency consultation process. The consultation will occur before taking the plan to TPC (either plan or TIP revision), and prior to the environmental determination.

¹ Non-exempt projects include all projects that are not identified under 40 CFR § 93.126 and 40 CFR § 93.127 as exempt or exempt from regional emissions analysis.

Part I: Corridor-Based Major Investments

EXEMPT: Project exempt from transportation conformity under 40 CFR §93.126
EREA: Project exempt from regional emissions analysis under 40 CFR §93.127
NRS: Project "Not Regionally Significant" under current conformity definition
