The three US 290 grade separation projects are listed in the 2002-2004 Transportation Improvement Program on page 2-8. Originally, these projects were funded with a combination of Category 4C (Surface Transportation Program-Metropolitan Mobility) funds and Category 5 (Congestion Mitigation Air Quality) funds. CSJs 0050-06-045 and 0050-06-056 are scheduled to let in March 2002. CSJ 0050-06-057 is currently scheduled for a November 2002 letting. The FM 1960 project is scheduled for a September 2003 letting and is funded with Category 4C funds.

At the September 27, 2001 Transportation Policy Council (TPC) meeting, Amendment Number 8 was approved which increased the Category 4C funding for the US 290 projects. Since the Federal Highway Administration has stated that the US 290 projects are ineligible for Category 5 funding, TxDOT is proposing to swap the Category 5 funds from the US 290 projects with the Category 4C funds on the FM 1960 project. In addition, TxDOT is proposing to clarify the limits on the US 290 projects and build the connecting mainlanes.
