### ABOUT THE GREATER HOUSTON FREIGHT COMMITTEE

In order to establish an on-going conversation between the elected officials who allocate transportation improvement funds and the private sector entities that use the transportation system, H-GAC set up a unique collaborative forum called the Greater Houston Freight Committee.

#### GOAL

Ensure full incorporation of freight into the transportation planning process.

#### MISSION

Establish an on-going conversation between the private and public sector on freight transportation priorities, needs, and solutions.

#### STRUCTURE

The Greater Houston Freight Committee operates an open membership and invites anyone interested in the maintenance or funding of the region's low-cost supply chain to join us. Meetings, agendas, and activities are organized by two appointed co-chairs.
