## ITEM 8. CARRY OVER SPEND DOWN UPDATE, MR. SAGNIK RAHA, H-GAC

Mr. Sagnik Raha (HGAC) provided an update on the Carry over Spend Down. Before 2022, the region faced challenges in managing projects within the 4-year Transportation Improvement Program (TIP). Repeated rollovers into other fiscal years due to projects not meeting critical path milestones for development and delivery and projects remaining stagnant. Carry over balances in Category 5 (CMAQ) and Category 7 (STBG) were high. Carry over spend down policy created to aid in reducing carryover balances across the region. Every quarter, staff meets with 35 project sponsors that received carryover spend down funding which represents 122 TIP carry over spend down projects. Total funding \$900M. Funding sources include: CMAQ, STBG and CRP funds. Mr. Raha described carry over spend down letting by fiscal year and carry over spend down programmed in FY 2026, FY 2026 scheduled projects, cancelled projects and next steps. A discussion occurred after the presentation. Presentation, comments, and discussions are available in the official meeting recording [HERE](#)

Staff has completed the literature review and best practices study of SRTS including recommendation for the MPO's role in moving SRTS forward in the region. This will include providing planning support for implementation of SRTS best practices in the region and provide technical support for regional, local area, corridor, and site-specific SRTS plans. Mr. Smith described the two program categories, current status and the non-infrastructure approach, using Maricopa Association of Governments as a best practice model and next steps. Discussion occurred after the presentation. Presentation, comments, and discussions are available in the official meeting recording [HERE](#)

ITEM 10. RAILROAD CROSSING UPDATE, MS. SYDNI LIGONS. H-GAC

Ms. Sydni Ligons (HGAC) gave an update on the Freight Grade Separation Program. This program will study the feasibility of grade separations (or other solutions) at rail crossings to improve safety, mobility and connectivity. It's funded 100% by HGAC planning funds and runs through 2028. Rail crossings are a big issue in our region. Lots of delays, safety concerns, and accidents. These studies give local agencies a head start when applying for construction funding later. Local governments, transit agencies, toll road authorities, ports, and special districts (with a letter of support from the right of way owner can apply. The study will include Feasibility analysis, preliminary concepts, cost-benefit estimates, funding options, and implementation strategies. The call for projects opens in January 2026 and applications are due February 13, 2026. The applications will be reviewed in March 2026, studies start in June 2026 and RFP for consultants launches in January. Presentation, comments, and discussions are available in the official meeting recording [HERE](#)
