			\$ -
Total Funding Awarded for equipment/facilities:			\$ -

Status of equipment/facilities. This reporting process is an opportunity for each COG to obtain information from its subrecipient concerning the status of equipment/facilities. Importantly, any equipment/facilities with a per-unit value of \$1,000 or more may not be transferred or sold without prior authorization from TCEQ. Additionally, certain types of equipment are classified as “controlled assets” with costs between \$500 and \$1,000 and shall be maintained on the inventory system. Examples of Controlled Assets are computers, fax machines, cameras, telephones, etc.

Please also note the requirements of the contract, pertaining to restrictions on creating a competitive advantage over private industry. A review of the equipment/facility status by the COG will help to ensure that grant-funded property is being used in accordance with contractual requirements.

Based on the information reported by grant recipients, please complete the following:

Identify in the space below any projects that are not currently utilizing the equipment/facilities purchased with grant funding, and provide an explanation of subsequent actions taken or planned by the COG:

N/A

Identify in the space below any projects that report the transfer, replacement, or sale of grant-funded equipment/facilities (with a per-unit value of \$5,000 or more) without having first received authorization to do so from the COG and TCEQ, and provide an explanation of subsequent actions taken or planned by the COG:

N/A
