

# Self-Screening & Preparation

The following list of questions are not exhaustive and instead intended to represent an initial approach to understanding mobility funding and project development. These considerations may influence a projects viability and associated project timeline.

To learn more about H-GAC mobility funding, search H-GAC, Transportation Improvement Program.

1. Is this a transportation-based project?
2. Has your project completed its environmental assessment?
3. Is your project designed and engineered?
4. Does the location of your project qualify for federal funding?
