Craig Raborn Director of Transportation Planning Houston-Galveston Area Council 3555 Timmons, Suite 120 Houston, TX 77027

Ref: CSJ 0912-73-215

Dear Mr. Raborn:

Project CSJ 0912-73-215 (Bike Lanes on SH 96, FM 270, and FM 2094 Sidewalk) represents a significant effort in the City of League City to provide alternate transportation modes and create connectivity in the bike network. The City of League City is requesting a scope change to reflect an off-road, concrete side path location along the south side of SH 96, to provide the community with a safer, high comfort, off-street bicycle and pedestrian facility.

Due to this change from a bike lane to a concrete side path along SH 96, the project is expected to have significantly higher costs. To mitigate this while still providing the community with the best possible bike and pedestrian facility along SH 96, we are requesting that the sidewalk work along FM 2094 be removed from the project scope. The City of League City will continue to provide a local contribution of \$489,800 and is requesting an equal contribution by the MPO to cover project overruns.

The revised scope of the project should reflect the following:

- Construct Bike Lanes (Milling and Asphalt Overlay of Shoulders, Shoulder Widening, Pavement Markings, Striping) with signage and associated intersection improvements along both sides of FM 270 from FM 2094 to SH 96 (approximately 2 miles).
- Along the southern boundary of SH 96 from FM 270 to SH 146 (approximately 3.8 miles) construct an off-street, concrete side path for bicycles and pedestrians, with signage and associated intersection improvements.

• The in-fill of sidewalk "gaps" originally proposed along FM 2094 from FM 270 to SH 146 will be removed from the scope of the project.

The City looks forward to the installation of this project but would like to request that the FM 2094 sidewalk in-fill work being removed from this project's scope be considered for future funding and implementation.

We believe the reconsideration of a bike and pedestrian lane to a concrete side path along SH 96, will better support the City of League City's current efforts for safe multimodal transportation. The project is slated to let in the Fall of 2023. We would appreciate this request be included in the May STIP revision.

Staff is available to meet with H-GAC and TxDOT to discuss this request and greatly appreciate your assistance. Please feel free to contact Christopher Sims at 281-554-1445 or <u>Christopher.Sims@leaguecitytx.gov</u> should you have any questions.

Sincerely

John Baumgartner City Manager City of League City

4. **Project Sources and Uses of Funds**

The total estimated cost of the Project is shown in Attachment C, Project Budget, (Attachment C) which is attached to and made a part of this Agreement.

- A. If the Local Government will perform any work under this Agreement for which reimbursement will be provided by or through the State, the Local Government must complete training. Training is complete when at least one individual who is working actively and directly on the Project successfully completes and receives a certificate for the course entitled "Local Government Project Procedures and Qualification for the Texas Department of Transportation" and retains qualification in accordance with applicable TxDOT procedures. Upon request, the Local Government shall provide the certificate of qualification to the State. The individual who receives the training certificate may be an employee of the Local Government or an employee of a firm that has been contracted by the Local Government to perform oversight of the Project. The State in its discretion may deny reimbursement if the Local Government has not continuously designated in writing a qualified individual to work actively on or to directly oversee the Project.
- B. The expected cash contributions from the State, the Local Government, or other parties are shown in Attachment C. The State will pay for only those Project costs that have been approved by the Texas Transportation Commission.
- C. Attachment C shows, by major cost categories, the cost estimates and the party responsible for performing the work for each category. These categories may include but are not limited to: (1) costs of real property; (2) costs of utility work; (3) costs of environmental assessment and remediation; (4) cost of preliminary engineering and design; (5) cost of construction and construction management; and (6) any other local project costs.

- E. The Local Government will be responsible for all non-State participation costs associated with the Project, unless otherwise provided for in this Agreement or approved otherwise in an amendment to this Agreement. For items of work subject to specified percentage funding, the Local Government shall only in those instances be responsible for all Project costs that are greater than the maximum State participation specified in Attachment C and for overruns in excess of the amount specified in Attachment C to be paid by the Local Government.
- F. The budget in Attachment C will clearly state all items subject to fixed price funding, specified percentage funding or the periodic payment schedule, when periodic payments have been approved by the State.
- G. When the Local Government bears the responsibility for paying cost overruns, the Local Government shall make payment to the State within thirty (30) days from the receipt of the State's written notification of additional funds being due.
- H. When fixed price funding is used, the Local Government is responsible for the fixed price amount specified in Attachment C. Fixed prices are not subject to adjustment unless (1) differing site conditions are encountered; (2) further definition of the Local Government's requested scope of work identifies greatly differing costs from those estimated; (3) work requested by the Local Government is determined to be ineligible for federal participation; or (4) the adjustment is mutually agreed to by the State and the Local Government.
- I. Prior to the performance of any engineering review work by the State, the Local Government will pay to the State the amount specified in Attachment C. At a minimum, this amount shall equal the Local Government's funding share for the estimated cost of preliminary engineering performed or reviewed by the State for the Project. At least sixty (60) days prior to the date set for receipt of the construction bids, the Local Government shall remit its remaining financial share for the State's estimated construction oversight and construction cost.
- J. The State will not execute the contract for the construction of the Project until the required funding has been made available by the Local Government in accordance with this Agreement.
- K. Whenever funds are paid by the Local Government to the State under this Agreement, the Local Government shall remit a check or warrant made payable to the "Texas Department of Transportation" or may use the State's Automated Clearing House (ACH) system for electronic transfer of funds in accordance with instructions provided by TxDOT's Finance Division. The funds shall be deposited and managed by the State and may only be applied by the State to the Project.
- L. The State will not pay interest on any funds provided by the Local Government.
- M. If a waiver for the collection of indirect costs for a service project has been granted under 43 TAC §15.56, the State will not charge the Local Government for the indirect costs the State incurs on the local Project, unless this Agreement is terminated at the request of the Local Government prior to completion of the Project.
- N. If the Local Government is an Economically Disadvantaged County (EDC) and if the State has approved adjustments to the standard financing arrangement, this Agreement reflects those adjustments.
- O. Where the Local Government is authorized to perform services under this Agreement and be reimbursed by the State, the Local Government is authorized to submit requests for reimbursement by submitting the original of an itemized invoice, in a form and containing all items required by the State, no more frequently than monthly and no later than ninety (90) days after costs are incurred. If the Local Government submits invoices more than ninety (90) days after the costs are incurred the State may refuse to reimburse the Local Government for those costs.

The Local Government elects not to provide funding after the completion of preliminary engineering, specifications, and estimates (PS&E) and the Project does not proceed because of insufficient funds, in which case the Local Government agrees to reimburse the State for its reasonable actual costs incurred during the Project; or
- D. The Agreement is terminated by the State because the parties are not able to execute a mutually agreeable amendment when the costs for Local Government requested items increase significantly due to differing site conditions, determination that Local government requested work is ineligible for federal or state cost participation, or more thorough definition of the Local Government's proposed work scope identifies greatly differing costs from those estimated. The State will reimburse Local Government remaining funds to the Local Government within ninety (90) days of termination; or
