

QUARTERLY TIP STATUS REPORT

Background

Projects programmed by the Transportation Policy Council to receive discretionary federal and state TIP funding (Congestion Management and Air Quality/Surface Transportation Block Grant/Transportation Alternatives Set Aside funds) often do not advance to implementation on the timelines originally envisioned.

Based on discussions with the Technical Advisory Committee and Transportation Policy Council, staff presents a quarterly report on the status of projects selected for funding in the TIP.

The quarterly reports will provide actionable and timely information to guide development of each year's letting schedule and make necessary adjustments earlier and more deliberately each fiscal year to ensure our region maximizes the use of available funding.

Current Status

Staff anticipated six projects to let during the month of February, however, the projects did not make letting and will have to be adjusted in the Transportation Improvement Program. Below is the summary of programming for the February 2021 lettings.

Funding Category	Programmed Amount (Federal + Match)
Category 5 – Congestion Mitigation and Air Quality Program (CMAQ)	\$23,218,000
Category 7 – Surface Transportation Block Grant (STBG)	\$1,700,000
Total	\$24,918,000
