

10C. 2020 STATE OF SAFETY REPORT

Background

The Houston-Galveston Area Council (H-GAC) annually compiles the regions crash statistics to measure the status of traffic safety. This information is extracted from the Texas Department of Transportation's Crash Record Information System (CRIS), and is further analyzed to provide a summary of information for eight counties within the Metropolitan Planning Area.

Current Situation

The recently developed 2020 State of Safety Report summarized crash data from 2016 to 2020 for the following areas:

- 8-County Regional Totals
- Safety Performance Measures
- Impaired Driving
- Distracted Driving
- Bicyclists
- Pedestrians
- Speeding Occurrences
- Young Drivers
- Elderly Drivers
- Motorcyclist
- Unrestrained Persons
- Commercial Vehicles
- Work Zones
- Railroad Crossings
- Intersections

The report also includes an appendix with a break down by county in the region of the crash data. Please visit H-GAC's Safety Program [website](#) to view the report.
