September 27, 2018

Ms. Carol Haddock, P.E.
Director Houston Public Works
611 Walker Street
Houston, Texas 77002

**SUBJECT: Proposed Antoine Drive Project, Houston Public Works; 2018
Transportation Improvement Program (TIP) Call for Projects**

Dear Ms. Haddock:

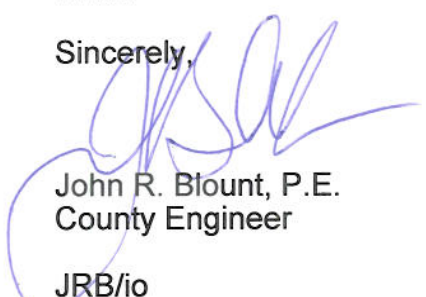

This letter is to document Harris County Engineering Department's support for the Antoine Drive project proposed by Houston Public Works for funding in the 2018 Transportation Improvement Program (TIP) call for projects. The Department appreciates the cooperative coordination to date and looks forward to working together through construction.

The proposed improvements on Antoine Drive include reconstruction of the existing four-lanes from Tidwell Road to West Mount Houston Road and added roadway capacity to six-lanes from Tidwell Road to U.S. 290.

The project will also include upgraded sidewalks, bicycle path, additional turn lanes and turn lane storage, median closures and a railroad grade separation. The segment from U.S. 290 to 43rd Street is in Precinct 4 and the segment from Beltway 8 to West Mount Houston Road is in Precinct 1.

It is my understanding that Harris County Precinct 1 will enter into an interlocal agreement for its share of the project from the city limits to West Mount Houston. Upon completion of construction, Harris County will maintain the segment outside of the city limits.

Sincerely,

John R. Blount, P.E.
County Engineer
