RE: Houston Parks Board / Houston Parks and Recreation Department submissions for H-GAC Call for Projects 2018

Dear Ms. White,

As a City of Houston Council Member, I support uniting the city by developing a network of off-road shared use paths where residents can walk and bike safely. Expanding our network of greenways designed to reach jobs, education, and other services will make it easier for residents to rely on biking and walking as primary modes of transportation. I am proud to support the Houston Parks Board's application for Transportation Improvement Project funding.

The *Beyond the Bayous Regional Connector Network of Greenways* offers a vision to broaden the reach of Bayou Greenways 2020. Its inclusion in the 2045 Regional Transportation Plan will provide a roadmap for a comprehensive network of connected greenway trails throughout Harris County.

The *West Side/Westpark Connector Greenway* project will provide safe bicycle/pedestrian access from Gulfton, the densest neighborhood in Houston, to two transit centers, seven high frequency bus routes, and Brays Bayou Greenway. It will also connect multiple schools, parks, and businesses in District J.

Sincerely,

A handwritten signature in blue ink that reads "Mike Laster".

RE:Houston Parks Board / Houston Parks and Recreation Department submissions for
H-GAC Call for Projects 2018

Dear Ms. White,

I am pleased to send this letter in support of Houston Parks Board's application for Transportation Improvement Project funding. As a City of Houston Council Member, I support uniting the city by developing a network of off-road shared use paths on which residents can walk and bike safely. Expanding our network of greenways that reach jobs, education, and other services makes it easier for residents to rely on biking and walking to go about their daily lives. This reduces stress on people, on our roads, and on household budgets.

The *Beyond the Bayous Regional Connector Network of Greenways* offers a vision to broaden the reach of Bayou Greenways 2020. Its inclusion in the 2045 Regional Transportation Plan will provide a roadmap for a comprehensive network of connected greenway trails throughout Harris County.

The *Port Connector Greenway* project links the Port of Houston Turning Basin to Buffalo, Brays and Sims Bayou Greenways, and ultimately to Hobby Airport – all located in my District. It also creates a link to the west along Navigation, connecting to the trails at Buffalo Bayou Park East leading to downtown.

These projects create neighborhood connections to existing parks, METRO lines, employment centers and residential areas in District I, and both are deserving.

If you have any questions or concerns, please feel free to contact me directly.

Sincerely,

Robert Gallegos
Council Member
District I

Ms. Beth White
President and CEO
Houston Parks Board
300 North Post Oak Boulevard
Houston, Texas 77024

Dear Ms. White:

On behalf of Buffalo Bayou Partnership, I am writing to support the Houston Parks Board's Transportation Improvement Project application for the *Beyond the Bayous Regional Connector Network of Greenways* project. This important initiative will contribute to a comprehensive network of connecting greenways throughout Harris County.

Buffalo Bayou Partnership is particularly interested in the *Port Connector Greenway* as it links the Port of Houston Turning Basin along Buffalo Bayou to Brays and Sims bayous, and ultimately to Hobby Airport. The project also includes a link to the west along Navigation Boulevard which will allow alternative transportation all the way to Buffalo Bayou Park, just west of downtown.

Once again, Buffalo Bayou Partnership supports the *Beyond the Bayous Regional Connector Network of Greenways* and wishes you good luck with your funding application.

Sincerely,

Anne Olson
President

RE: Houston Parks Board / Houston Parks and Recreation Department submissions for
H-GAC Call for Projects 2018

Dear Ms. White,

CenterPoint Energy is pleased to send this letter in support of Houston Parks Board's application for Transportation Improvement Project funding. Our organization supports uniting the city by developing a network of off-road shared use paths where residents can walk and bike safely. Expanding our network of greenways that reach jobs, education, and other services makes it easier for residents to rely on biking and walking to go about their daily lives. This reduces stress on people, on our roads, and on household budgets.

The projects identified below provide a vision for future linkages that connect five separate Bayou Greenways. We support these proposed projects:

The *Beyond the Bayous Regional Connector Network of Greenways* offers a vision to broaden the reach of Bayou Greenways 2020. Its inclusion in the 2045 Regional Transportation Plan will provide a roadmap for a comprehensive network of connected greenway trails throughout Harris County.

The *West Side/Westpark Connector Greenway* project will provide safe bicycle/pedestrian access from Gulfton, the densest neighborhood in Houston, to two transit centers, seven high frequency bus routes, and Brays Bayou Greenway. It will also connect multiple schools, parks, and businesses. A portion of this project will be in the CenterPoint Energy right-of-way. We fully support projects within our right-of-way when practical.

The *Port Connector Greenway* project links the Port of Houston Turning Basin to Buffalo, Brays and Sims Bayou Greenways, and ultimately to Hobby Airport. It also creates a link to the west along Navigation, connecting to the trails at Buffalo Bayou Park East leading to downtown.

The *Little White Oak Bayou Regional Greenway* will extend from Halls Bayou at Acres Home through several largely low income and minority neighborhoods to White Oak Bayou Greenway near downtown. The proposed trail will also connect to three transit centers—Northline, North Shepherd, and Acres Home, vastly improving access to jobs, education, and recreation.

Together the *West Side/Westpark, Port Connector, and Little White Oak Bayou Greenway* projects will add more than 29 miles of trails to the 150 miles of Bayou Greenways 2020 trails. Each of these projects are unique, but all create neighborhood connections to existing parks, METRO lines and residential areas and all are deserving.

If you have any questions or concerns, please feel free to contact me directly.

Sincerely,

A handwritten signature in black ink, appearing to read "Troy Rife". The signature is written in a cursive, flowing style with some loops and flourishes.

Beth White
President & CEO
Houston Parks Board
300 North Post Oak Blvd.
Houston, TX 77024

Dear Beth,

I am pleased to send this letter in support of Houston Parks Board's application for Transportation Improvement Project funding. As Council Member representing District H, I support uniting the city by developing a network of off-road shared use paths where residents can walk and bike safely. Expanding our network of greenways that reach jobs, education, and other services makes it easier for residents to rely on biking and walking to go about their daily lives. This reduces stress on people, on our roads, and on household budgets.

The *Regional Connector Network of Greenways* is a vision for expanding the network of Bayou Greenway 2020 trails. Its inclusion in the 2045 Regional Transportation Plan would provide a roadmap for a comprehensive network of greenway trails that connect throughout Harris County.

The *Port Connector Segment* project connects from the Port of Houston Turning Basin, to Buffalo, Brays and Sims Bayou Greenways, and ultimately to Hobby e4d2Airport. It also completes a missing link west along Navigation to connect into the trails at Buffalo Bayou Park East into downtown.

The *Little White Oak Bayou Regional Connector* would extend from Acres Home through multiple neighborhoods, to White Oak Bayou Greenway and ultimately to downtown. The proposed trail will connect to two Bayou Greenways (White Oak and Halls) and the three transit centers (Northline, North Shepherd, and Acres homes) and link several largely low income and minority neighborhoods to the Bayou Greenways, improving access to jobs, education, and recreation.

Each of these projects create neighborhood connections to existing parks, METRO lines, employment centers and residential areas in District H, and are all deserving. If you have any questions or concerns, please feel free to contact me directly.

Sincerely,

RE: Houston Parks Board / Houston Parks and Recreation Department submissions for 2018 Call for Projects

Dear Ms. White,

I am pleased to support the Houston Parks Board and Houston Parks and Recreation Department's application for funding through the 2018 Transportation Improvement Program (TIP). As an at-large council member, I believe our city and our region must make it easier and safer for residents to bike and walk in their daily routines in order to reduce the stress on our road network and improve quality of life. The projects identified below provide a compelling vision for future linkages that connect five separate Bayou Greenways:

- The *Beyond the Bayous Regional Connector Network of Greenways* offers a vision to broaden the reach of Bayou Greenways 2020. Its inclusion in the 2045 Regional Transportation Plan will provide a roadmap for a comprehensive network of connected greenway trails throughout Harris County.
- The *West Side/Westpark Connector Greenway* will provide safe bicycle/pedestrian access from Gulfton (the densest neighborhood in Houston) to two transit centers, seven high-frequency bus routes, and Brays Bayou Greenway. It will also connect multiple schools, parks and businesses.
- The *Port Connector Greenway* links the Port of Houston Turning Basin to Buffalo, Brays and Sims Bayou Greenways, and ultimately to Hobby Airport. It also creates a link to the west along Navigation, connecting to the trails at Buffalo Bayou Park East leading to downtown.
- The *Little White Oak Bayou Regional Greenway* will extend from Halls Bayou at Acres Home through several largely low-income minority neighborhoods to White Oak Bayou Greenway near downtown. The trail will also connect to three transit centers, vastly improving access to jobs, education and recreation.

Together, the West Side/Westpark, Port Connector and Little White Oak Bayou projects will add more than 29 miles of trails to the 150 miles of Bayou Greenways 2020. I fully support these projects, which will create vital connections linking people and neighborhoods to parks, transit and job centers.

Gratefully,

RE: Houston Parks Board / Houston Parks and Recreation Department submissions for
H-GAC Call for Projects 2018

Dear Ms. White,

Please accept this letter in support of Houston Parks Board's application for Transportation Improvement Project funding. I am in support of uniting the city by developing a network of off-road shared use paths where residents can walk and bike safely. Expanding our network of greenways that reach jobs, education, and other services make it easier for residents to rely on biking and walking to go about their daily lives. Alternative forms of transportation reduce stress on people, on our roads, and on household budgets.

The projects identified below provide a vision for future linkages that connect five separate Bayou Greenways. I support these proposed projects:

The Beyond the Bayous Regional Connector Network of Greenways offers a vision to broaden the reach of Bayou Greenways 2020. If included in the 2045 Regional Transportation Plan, the network will provide a roadmap for a comprehensive system of connected greenway trails throughout Harris County.

The West Side/Westpark Connector Greenway project will provide safe bicycle/pedestrian access from Gulfton, the densest neighborhood in Houston, to two transit centers, seven high-frequency bus routes, and Brays Bayou Greenway. It will also connect multiple schools, parks, and businesses.

Ms. Beth White
Page 2
October 26, 2018

The Port Connector Greenway project links the Port of Houston Turning Basin to Buffalo, Brays and Sims Bayou Greenways, and ultimately to Hobby Airport. The project also creates a link to the west along Navigation, connecting to the trails at Buffalo Bayou Park East leading to downtown.

The Little White Oak Bayou Regional Greenway will extend from Halls Bayou at Acres Home through several largely low income and minority neighborhoods to White Oak Bayou Greenway near downtown. The proposed trail will also connect to three transit centers—Northline, North Shepherd, and Acres Home, vastly improving access to jobs, education, and recreation.

Together the West Side/Westpark, Port Connector, and Little White Oak Bayou Greenway projects will add more than 29 miles of trails to the 150 miles of Bayou Greenways 2020 trails. Each of these projects are unique, but all create neighborhood connections to existing parks, METRO lines and residential areas and all are deserving.

Please contact my office if I can be of service or answer any questions.

RE: Houston Parks Board / Houston Parks and Recreation Department submissions for
H-GAC call for projects 2018

Dear Beth White,

The Greater Northside Management District is pleased to send this letter in support of Houston Parks Board's application for Transportation Improvement Project funding. Our organization supports uniting the city by developing a network of off-road, shared-use paths where residents can walk and bike safely. Expanding our network of greenways that reach jobs, education, and other services makes it easier for residents to rely on biking and walking to go about their daily lives. This reduces stress on people, on our roads, and on household budgets.

The Regional Connector Network of Greenways is a vision for expanding the network of Bayou Greenway 2020 trails. Its inclusion in the 2045 Regional Transportation Plan would provide a roadmap for a comprehensive network of greenway trails that connect throughout Harris County, including the Greater Northside area.

The Little White Oak Bayou Regional Connector would extend from Acres Home through multiple neighborhoods, to White Oak Bayou Greenway, and ultimately to downtown. The proposed trail will connect to two Bayou Greenways (White Oak and Halls) and three transit centers (Northline, North Shepherd, and Acres Homes) and link several largely low income and minority neighborhoods to the Bayou Greenways, improving access to jobs, education, and recreation for people in the Greater Northside area. As such, we support these projects.

If you have any questions or concerns, please feel free to contact me directly.

Best Regards,

Rebecca Reyna

RE: Letter of Support for Houston Parks Board 2018 Call for Projects Applications

Dear Mr. Clark:

The Metropolitan Transit Authority of Harris County (METRO) supports the Houston Parks Board's 2018 Call for Projects applications. When taken together, The Beyond the Bayous, West Side and Westpark Regional Connector Segments, Port Regional Connector Segments and Little White Oak Bayou Regional Connector Segments, constitute a wide-ranging mobility plan for the City of Houston. Each of the proposed segments will support access to METRO's transit system, providing regional interconnectivity within a multimodal system. METRO is making significant investments in universal accessibility at its transit stops. We believe the proposed projects will provide an opportunity to maximize that investment by providing improved bicycle and pedestrian connections in high-demand locations.

METRO looks forward to partnering with the Houston Parks Board and the Houston-Galveston Area Council to deliver strategies and implement projects in the Houston area that support the goals of universal accessibility for our patrons today and tomorrow. Please feel free to contact me at 713-739-6062 should you need further information about our recommendation.

Re: Houston Parks Board/Houston Parks and Recreation Department
Submission to H-GAC call for projects 2018

Dear Ms. White:

The Port of Houston Authority is pleased to send this letter in support of the Houston Parks Board's application for Transportation Improvement Project funding.

The Port Authority supports the Parks Board's effort to develop a network of off-road shared-use paths to permit residents, visitors, and workers to walk and bike safely away from most vehicular traffic.

The Park Board's *Beyond the Bayous Regional Connector Network* is a realistic vision for expanding the network of Bayou Greenway 2020 trails. We urge that it be included in the 2045 Regional Transportation Plan, to help blaze the trail for a more comprehensive network of greenway connectors throughout Harris County, including connections to the Port of Houston.

The *Port Regional Connector* segment would connect the Turning Basin area to Buffalo, Brays, and Sims Bayou Greenways, and ultimately to Hobby Airport. It would also complete a missing link west along Navigation to connect into the trails at Buffalo Bayou Park East to downtown. While it will also be a challenge to put in place a north-south connector over Buffalo Bayou, we look forward to working with the Parks Board to coordinate with our own Port 2040 planning efforts and help bring the *Port Regional Connector* vision to reality.

If you have any questions or concerns, please feel free to contact me directly.

Sincerely,

Roger Guenther
Executive Director

RE: Houston Parks Board / Houston Parks and Recreation Department submissions for
H-GAC's 2018 Call for Projects

Dear Beth White,

The TIRZ 01 St George Place Redevelopment Authority is pleased to send this letter in support of Houston Parks Board's application for Transportation Improvement Project funding. Our organization supports uniting the City of Houston by developing a network of off-road shared use paths where residents can walk and bike safely. Expanding our network of greenways that reach jobs, education, and other services makes it easier for residents to rely on biking and walking to go about their daily lives. This reduces stress on people, on our roads, and on household budgets.

The *West side / Westpark Connector Segment* project will provide safe bicycle/pedestrian access from Gulfton, the densest neighborhood in Houston, to two transit centers, 7 frequent bus routes, and Brays Bayou Greenway. It will also add to Houston Park and Recreation Department's, Uptown's, and Memorial Park Conservancy's work by continuing the Memorial Park CenterPoint easement trail further south from Richmond Avenue, under I-59 to connect to Brays Bayou Greenway.

Furthermore, these projects will connect to our two proposed TIP submissions, the Briargrove Extension Project and the Chimney Rock Added Capacity project. Both of the TIRZ 1 / St. George Place Projects will include pedestrian and bicycle facilities, further enhancing access to our regional alternative mode network.

If you have any questions or concerns, please feel free to contact me directly.

Sincerely,

Bill Hutz
Chairman of the Board

RE: Houston Parks Board / Houston Parks and Recreation Department submissions for
H-GAC call for projects 2018

Dear Beth White,

The TIRZ 08 Gulfgate Redevelopment Authority is pleased to send this letter in support of Houston Parks Board's application for Transportation Improvement Project funding. Our organization supports uniting the city by developing a network of off-road shared use paths where residents can walk and bike safely. Expanding our network of greenways that reach jobs, education, and other services makes it easier for residents to rely on biking and walking to go about their daily lives. This reduces stress on people, on our roads, and on household budgets.

The *Regional Connector Network of Greenways* is a vision for expanding the network of Bayou Greenway 2020 trails. Its inclusion in the 2045 Regional Transportation Plan would provide a roadmap for a comprehensive network of greenway trails that connect throughout Harris County, including the Gulfgate area.

The *Port Connector Segment* project connects from the Port of Houston Turning Basin, to Buffalo, Brays and Sims Bayou Greenways, and ultimately to Hobby Airport. It also completes a missing link west along Navigation to connect into the trails at Buffalo Bayou Park East into downtown. It will therefore provide safe access to and from all of these amenities for walkers and bikers in the Gulfgate area, as such we support this project.

If you have any questions or concerns, please feel free to contact me directly.

Sincerely,

Sonny Garza
Chairman of the Board

SUBJECT: Houston Parks Board / Houston Parks and
Recreation Department submissions for H-GAC call
for projects 2018

Dear Ms. White:

Harris County Improvement District #1 is pleased to send this letter in support of Houston Parks Board's application for Transportation Improvement Project funding. Our organization supports uniting the city by developing a network of off-road shared use paths where residents can walk and bike safely. Expanding our network of greenways that reach jobs, education, and other services makes it easier for residents to rely on biking and walking to go about their daily lives. This reduces stress on people, on our roads, and on household budgets.

The *Regional Connector Network of Greenways* is a vision for expanding the network of Bayou Greenway 2020 trails. Its inclusion in the 2045 Regional Transportation Plan would provide a roadmap for a comprehensive network of greenway trails that connect throughout Harris County, including the Uptown area.

The *West side / Westpark Connector Segment* project will provide safe bicycle / pedestrian access from Gulfton, the densest neighborhood in Houston, to two transit centers, 7 frequent bus routes, and Brays Bayou Greenway. It will also add to our work with Memorial Park Conservancy by continuing the Memorial Park CenterPoint easement trail further south from Richmond Avenue, under I-59 to connect to Brays Bayou Greenway. Together our projects will provide links from White Oak Bayou to Buffalo Bayou to Brays Bayou Greenway further expanding the access to Memorial Park. Additionally, the Westpark section of this project will connect to, and therefore expand access to, our future Uptown Transit Center. As such we support this effort.

RE: Houston Parks Board / Houston Parks and Recreation Department submissions for H-GAC Call for Projects 2018

Dear Ms. White:

Harris County Precinct One is pleased to send this letter in support of Houston Parks Board's application for Transportation Improvement Project funding. Precinct One supports connecting the city by developing a network of off-road shared use paths where residents can walk and bike safely. Expanding our network of greenways that reach jobs, education, and other services makes it easier for residents to rely on biking and walking to go about their daily lives. This reduces stress on people, on our roads, and on household budgets.

The *Beyond the Bayous Regional Connector Network of Greenways* offers a vision to broaden the reach of Bayou Greenways 2020. Its inclusion in the 2045 Regional Transportation Plan will provide a roadmap for a comprehensive network of connected greenway trails throughout Harris County.

The *Little White Oak Bayou Regional Greenway* will extend from Halls Bayou at Acres Home through several largely low-income and minority neighborhoods to White Oak Bayou Greenway near downtown. The proposed trail will also connect to three transit centers—Northline, North Shepherd, and Acres Home, vastly improving access to jobs, education, and recreation.

The *Port Connector Greenway* project links the Port of Houston Turning Basin to Buffalo, Brays and Sims Bayou Greenways, and ultimately to Hobby Airport. It also creates a link to the west along Navigation, connecting to the trails at Buffalo Bayou Park East leading to downtown.

We support these projects.

If you have any questions or concerns, please feel free to contact my office at 713-991-6881.

Sincerely,
