

KINGSLEY DR.

 TIP Project Limits

The project consists of a study to determine the cost to widen the existing 2 lane roadway to a 4 lane blvd section to achieve the city's desired ultimate width. The study will be used to apply for TIP funding.

This product is for informational purposes and may not have been prepared for or be suitable for legal, engineering, or surveying purposes. It does not represent an on-the-ground survey and represents only the approximate relative location of property boundaries.

1 inch = 667 feet
