

Barbers Hill ISD Traffic Study

The following school study highlights the need for east-west connections with the anticipated reconstruction of the interchange of IH 10 at Eagle Drive. With approximately half of the students within the school district residing south of IH 10, school traffic will need to find an alternate route to school. The two most viable alternatives to Eagle Drive are SH 146 to the west and FM 565 to the east.

Technical Memorandum

To: City of Mont Belvieu

From: Courtney Carr, P.E.

Date: October 29, 2018

Subject: Eagle Drive/FM 3180, SH 146, FM 565 Traffic Study, Mont Belvieu, TX

The City of Mont Belvieu requested a traffic study for the intersections of IH-10 Frontage Roads at SH 146, Eagle Drive/FM 3180 and FM 565. Turning movement counts were taken at all the intersections on October 9th, 2018 for three time periods. The three time periods were the AM Peak Hour (6:30 to 9:00 AM), School Dismissal (2:00 to 4:30 PM), and PM Peak Hour (5:30 to 7:30 PM).

Eagle Drive/FM 3180 is proposed to be renovated in the coming years and will be closed during construction. The City requested that the three roadways be analyzed for two conditions: the existing condition and the construction condition with Eagle Drive closed. The existing Eagle Drive traffic volumes were redistributed to SH 146 and FM 565, based on a general 50% split between the two roadways and the more direct path for vehicles.

Synchro was utilized to analyze the conditions to find delay, level of service, and 95th percentile queue. The results are shown in the table below. The closure of Eagle Drive will greatly increase the delay and queues at SH 146 and FM 565 intersections.

Eagle Drive at WBFR
