

INPUTS

Project Information	
Name:	Traffic Signal Timing Optimization Program
Application ID Number:	N/A
Sponsor ID Number (CSJ, etc.):	N/A
Year Open to Traffic? (Must be >=2021)	2021
Does the project add capacity (lanes)?	No
Primary Project Type	ITS infrastructure
Facility Type	Urban principal arterial
Involves access management?	No
If yes, what is the street type	Urban principal arterial
Involves grade separation?	No
Involves installation of ITS infrastructure?	No
Do you have a current PTI estimate?	No
If yes, input a value (must be >= 1.0)	N/A
Source for PTI estimate (please provide reference link)	N/A

Daily Travel Demand	Before implementation	After implementation
ADT	19758	22276
Number of Lanes	4	4
ADT per lane	4940	5569
PTI estimate	1.36	FALSE
Estimated reliability benefit	N/A	
Points	N/A
