

Planning Factors - Includes Life Cycle Maintenance Plan (Max 10 Points)

1. Does the proposed project application include Life Cycle Maintenance strategies/plan? **Yes**
 - a. Please provide adopted asset management plan.

The Traffic Signal Timing Optimization Program acts as a 10-year life cycle management plan. Every 2 years, the signals will be checked and re-assessed for effectiveness, and the timings and cabinet hardware will be adjusted and upgraded as appropriate when new technology becomes mainstream.
