Subject: RE: 2015 TIP Call for Projects Benefit Analysis Request

Importance: High

Mark,

A couple of quick questions:

1. Dairy Ashford: What are the correct proposed limits for the TIP Call project? The table below has the bayou as the southern limit, but the application discusses the project all the way to Westheimer.
2. Fuqua: Is this a reconstruction only or added capacity (widening) project? The application is not clear.
3. Gessner (and Dairy Ashford?): The travel demand model will not provide an estimate of intersection delay attributable to a grade separation at Westheimer. If this is part of the proposal, we would suggest using Synchro/Vissum or some other microsimulation package to assess the project's effect on intersection delay.

Please let us know these issues should be addressed.

Thanks,

David Wurdlow

Subject: 2015 TIP Call for Projects Benefit Analysis Request

The City of Houston is requesting assistance from H-GAC to perform the Benefit Analysis on the following projects:

CIP#	Application ID	Description
N-000589	300363	Tanner Rd: Hempstead to BW 8 P&D
N-000815	300384	Westpark P&D: Wilcrest to Dairy Ashford
Not Assigned	300432	W. Airport: Hiram Clarke to FM 521
N-100017	300366	Gessner: Buffalo Bayou to Richmond

N-100008/100021	300369	Fondren: Braeswood to W. Airport
N-100023	300204	Dairy Ashford: IH10 to Buffalo Bayou <i>Westheimer</i>
N-100025	300372	W. Fuqua: City Limit to Chimney Rock
N-320650	300381	Signal Detection Upgrades

The City will continue to input updated information into the H-GAC Application Website until the Applications are ready for full submittal, before the January 12, 2015 Deadline. Please contact me to discuss the procedure going forward as we work with you on the Benefit Analysis.

Thanks,

Mark Board, P.E.
