**Attachments:** Buffalo Speedway Project.pdf

Good morning, Anna,

You have had some recent correspondence with Samantha in our office regarding a potential project for the City of West University Place that may be eligible for TIP funding. I am the engineer working with the City of West university Place on this project and it is my understanding that if the any part of the project touches or abuts City of Houston (COH) ROW then we would need a letter of support from the City.

Since, through Samantha, we have been in contact with you, I wanted to let you know that the limits of our proposed project is entirely within the City Limits of West university Place and does not encroach or abut the COH ROW. Although the COH recently completed sections of the same roadway to the north and south of West University Place and this project will adjoin the COH projects, the extent of the COH projects encroached well within the City Limits of West University Place. I have attached an exhibit which shows graphically the extents to our project demonstrating that we will not be working within COH ROW. Consequently we believe that there will not be a need for the COH to provide a letter of support for this project.

I thank you for your assistance and cooperation in this. If you have any questions or require any additional information, please do not hesitate to call or email me.

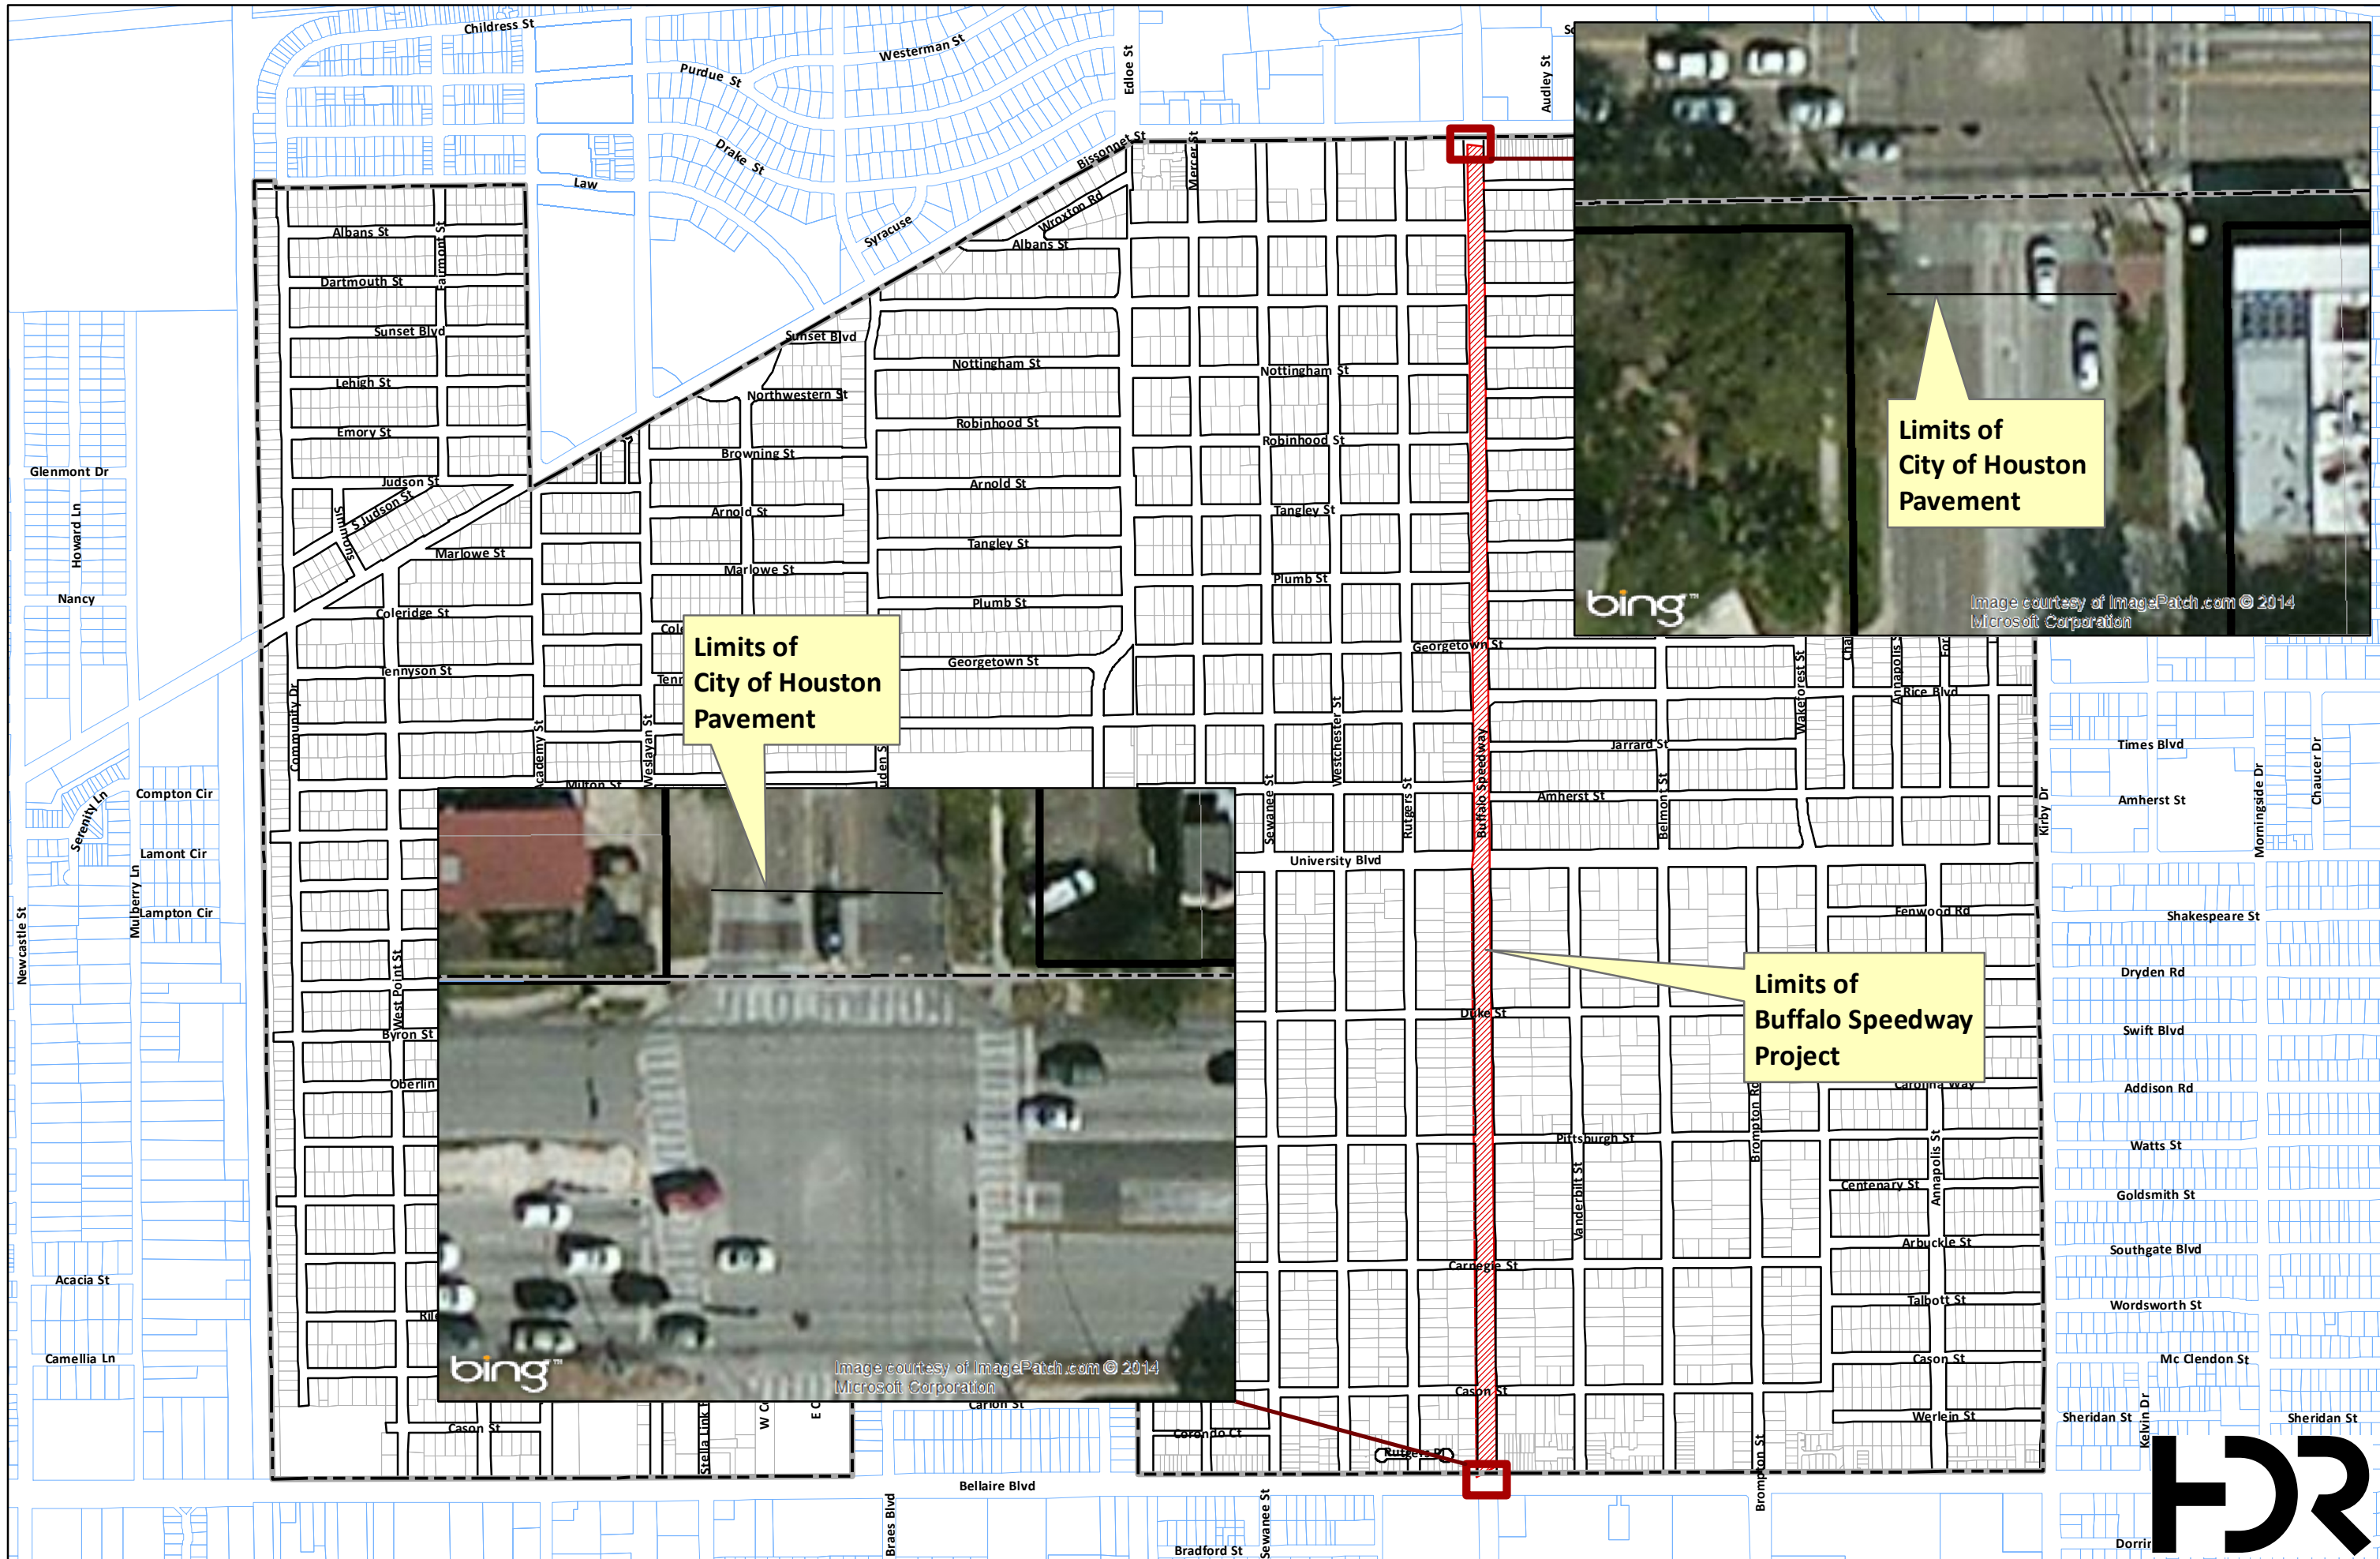

Best Regards,

Steve

Hi Stephen,

Thank you for providing the information below. We agree that the project is not within the City of Houston's corporate limits and will not require a Letter of Support.
