**SUBJECT: 2015 T.I.P. Call for Projects  
Fairmont Parkway ITS Improvements  
Application I.D. 300846**

Dear Mr. Wurdlow,

On behalf of Harris County Precinct Two, we are pleased to submit our application for project funding.

Harris County is a local government agency. The proposed project improves a roadway owned and maintained by Harris County. As detailed in our project application, the local funding share proposed is 20% of construction costs, with design expenses and certain incidental expenses funded with local funds. Thus the percentage of total project costs to be funded using federal funds is less than 80%.

We look forward to working with you and your staff in the weeks ahead to ensure that all application materials submitted are complete and accurate. If you have questions or comments, I can be reached at 713-755-4451 or [loyd.smith@hcpid.org](mailto:loyd.smith@hcpid.org).

Sincerely,

Loyd Smith, P.E.  
Manager, Project Support Services
