Reason: Proposed Fairmont Parkway Mobility Enhancements

Dear Mr. Phillips,

Please accept this correspondence as a letter of support for the proposed Fairmont Parkway Mobility Enhancement project. As a lifelong member of the La Porte community, I have seen the town grow and progress in many ways. As Mayor of La Porte, I understand that often growth and changes in the community generate challenges. This is clearly the case with Fairmont Parkway. As La Porte has seen development, this development has created demands/strain on our local infrastructure. I also understand that continued expansion greatly depends on a mobility system that allows for efficient and safe movement of goods and people.

Consequently, it is very important to see significant improvements to Fairmont Parkway in La Porte. The proposed enhancements to optimize the signalization by linking all the traffic signals and to reconfigure intersections to be more efficient is of paramount importance to our community. The proposed changes will make a positive impact on the flow of traffic in and thru the La Porte.

As Mayor of the City of La Porte, I am committed to supporting this proposed project fully. This proposed project will be an excellent step in the right direction to make Fairmont Parkway more efficient and safe for the commuting public.

Regards,

The Honorable Louis Rigby
Mayor, City of La Porte, Texas
